I would also like to thank my good friends Norman Scrivener, Larry Schuffman, John Herzog, Russell Kaye, Mahdi Bseiso and Bob Kerstein for their help, advice and moral support during the writing and production of this catalog. In addition, I want to thank David Conway and Debra Schwartz for their amazing technical help in completing this catalog as well as keeping their sense of humor throughout the entire cataloging time period. I would also like to acknowledge my hard-working team at AIA for another great job and I especially want to thank Leroy Mitchell, for his continuous friendship and extreme patience during the process of the completion of the One hundred & nineteenth volume of the Archives International Auction Series.

The Kolbon: A Money Changer's Coin

The kolbon is one of the oldest words in the coin business: a small coin, and the fee a money changer earned for exchanging one currency for another.

In ancient Greek, the *kollybos* (κόλλυβος) was a small coin, and the money changer was the *kollybistes*, the word used in the Gospels for the changers' tables at the Temple in Jerusalem.

In Hebrew it became the *kolbon*. The Mishnah describes how pilgrims paying the annual half-shekel Temple tax exchanged their coins for trusted Tyrian silver, paying the money changer a small surcharge, the kolbon, set at half a ma'ah, one-twelfth of a dinar.

Two thousand years later, the kolbon still describes what a good coin dealer does: brings together coins of many lands, judges their value fairly, and helps collectors acquire them with confidence.

Introducing Kolbon Numismatics

Kolbon Numismatics is a new company devoted entirely to coins, founded by the principals of Archives International Auctions and built on the same standards our clients have relied on since our first sale in 2007.

We chose the name deliberately. The ancient money changer stood at the crossroads of commerce, accepting coins from every corner of the known world and standing behind their weight, purity and value. That is the role we intend Kolbon to play for today's collectors: a trusted marketplace for U.S. and world coins, from ancient silver to modern gold.

Kolbon Numismatics will offer public auctions, held for now in association with Archives International, along with retail sales, fixed price lists and want-list service. Our goal is simple: accurate descriptions, fair estimates and the same personal attention that has defined Archives International for nearly two decades.

Archives International itself is not changing. Our banknote, scripophily, security printing and American Bank Note Company archive sales continue as before, with the same team, the same office and the same terms. Kolbon simply gives our coin clients a dedicated home.

Foreword – Sale 119

On behalf of the entire Archives International Auctions team, it is my pleasure to welcome you to Sale 119, held on Wednesday, December 16, 2026, and our first auction presented in association with Kolbon Numismatics, our new company dedicated exclusively to coins.

For nearly two decades, Archives International has been known for banknotes, scripophily and security printing history. As coins have become an ever larger part of our sales, our clients have asked us to give them more. Kolbon Numismatics, named for the ancient money changer's coin, is our answer.

This 371-lot sale is devoted to U.S. coins and opens with one of the cornerstones of early American numismatics, a 1652 Massachusetts Pine Tree Shilling (Lot 1, Est. $3,000-5,000). U.S. gold leads the offering, headed by a key-date 1911-D $10 Indian Head Eagle in NGC MS 62 (Lot 363, Est. $12,000-16,000), an 1854 $5 Liberty Head Half Eagle in PCGS MS 63 (Lot 351, Est. $11,500-14,000) and an 1854 Large Date $20 Liberty Head Double Eagle in PCGS AU 55 (Lot 365, Est. $10,000-12,500). Also featured are a first-year 1907 No Motto $10 Indian Head Eagle in NGC MS 65 (Lot 362, Est. $9,000-11,000), the rare 1881 $2.50 Liberty Head Quarter Eagle, of which only 640 were struck, in NGC AU 58 (Lot 336, Est. $8,500-12,500), and an 1883 $2.50 in PCGS AU 58 from the Stecher Collection (Lot 337, Est. $8,000-10,000).

Silver collectors will find an extensive run of Morgan Silver Dollars (Lots 44-288), including Carson City issues, GSA Hoard coins and Top-100 VAM varieties, followed by Peace Dollars, early type coins and modern bullion.

We look forward to many more joint sales with Kolbon Numismatics and are actively accepting consignments of coins, banknotes, scripophily and historical ephemera for our upcoming auctions.

We sincerely thank you for your continued interest and support, and we hope this sale brings meaningful additions to your collection.

Best of luck,

Bob Schwartz

KEY TO CATALOGING

DEFINITIONS

SPECIMEN: An archival printing sample of a finished item, such as a stock certificate, banknote or stamp that is printed usually with "000000" serial numbers and may have "Specimen" overprinted on it and be punch canceled to invalidate it and prevent its use surreptitiously. Specimens were kept for a number of reasons, though usually as samples to give out to prospective customers to give them an idea of the type and quality of the work that the printing company was capable of doing. Usually specimens were printed in limited amounts at the beginning of a printing run to evaluate the quality of the printing work and color combinations at an early stage, rather than have an entire production run rejected due to some minor flaw that was not found until after the printing was completed. A specimen is similar to the final product, printed on the same paper and in the same color.

COLOR TRIAL SPECIMENS: Sometimes specimens would be printed in numerous color combinations not used on the final note for evaluation before a final printing. These are usually extremely rare.

PROOF: An initial pull or impression from a plate or die for evaluation of text, vignette, engraving, and esthetic appeal and to check for any errors or faults. These were usually printed on india paper mounted on card or printed on some form of paper or light card. The amount of proofs printed is usually extremely small and usually number only a handful. Proofs allowed the printing company to evaluate the quality of the item being printed without having to go to the expense of making final plates and finding out small errors that could have been repaired at an earlier stage. Usually, proofs are single impressions of banknotes, stamps, vignettes, etc. Anything that was made into a plate, such as a sheet of 100 stamps could have had proof impressions taken from it. These would be called plate proofs (for multiple images) versus die proofs (usually of a single or small amount of images).

COLOR TRIAL PROOF: A proof printed in a color other than the issued color.

ESSAY SPECIMEN or PROOF: A proposed design that was not used but may be similar or even totally different to a final approved design. An artist, engraver or company may have proposed a number of different designs and color combinations to a client for his approval. If a design is rejected and never used, it could be called an essay.

PRODUCTION MATERIAL: Material found in files used in the production of security printed documents, banknotes, stamps and such. It may include correspondence, photographs, artwork, and signature samples, samples of other printed items that are marked up with corrections as well as proofs, specimens, essays, models, mockups and issued final items.

MODEL: A proposed or final design that may include original artwork, pieces of design elements such as borders, titles, vignettes, corporate seals, undertints and possibly portions of photographs. Before an engraved item was made, a design had to be decided on. This portion of the design process allowed for the artistic skills of the engraver or design department to be exhibited. Before the" digital age", banknote engravers and designers would cut up portions of other engraved items and re-apply them in a different form or design to come up with a unique new stamp, banknote or certificate. Often, all new engravings or "vignettes" of people or scenes would be engraved first to include in the new "work of art", and other times, portions of different completed items would be "borrowed" to use on a newly designed item. All models are rare and almost all of them are unique.

1 **1652 Massachusetts Pine Tree Shilling, Small Planchet, Noe-29, PCGS Genuine VF Details** U.S., Massachusetts Bay Colony, Pine Tree Shilling, 1652, Small Planchet, Noe-29 (W-930, Salmon 11-F, Crosby 14-R). One of the most important and evocative coins in American numismatics, struck in Boston at the first mint in British North America. In 1652, faced with a chronic shortage of hard money and a flood of clipped and underweight Spanish silver, the Massachusetts General Court defied the English Crown's exclusive right to coin money and authorized a mint in Boston. Silversmiths John Hull and Robert Sanderson were appointed mint masters, with the mint masters famously keeping one shilling out of every twenty they coined as their fee, an arrangement that made him one of the wealthiest men in the colony. The mint's first coins were the crude NE (New England) issues of 1652, followed by the Willow Tree (c. 1653-1660), Oak Tree (c. 1660-1667) and finally the Pine Tree series (c. 1667-1682). Remarkably, nearly every issue carries the date 1652 regardless of when it was actually struck. The frozen date is generally thought to have helped the colonists sidestep the Crown's objections, since 1652 fell during the Commonwealth period when England had no king to offend. Tradition holds that when Charles II questioned the colony's coinage, Sir Thomas Temple diplomatically described the tree as the 'Royal Oak' that had sheltered the king after the Battle of Worcester, softening his displeasure. The coins were deliberately struck about 22% lighter than the English shilling so that they would stay in circulation in New England rather than be exported. The mint closed around 1682, and the colony's charter was revoked in 1684, partly over its unauthorized coinage. Obverse with a pine tree within a beaded circle, legend MASATHVSETS IN. Reverse with the date 1652 above the denomination XII (pence) at center, legend NEW ENGLAND AN DOM. The later Small Planchet type, struck on narrower, thicker planchets than the earlier Large Planchet coins. Weight 65 grains (4.21 grams), noted on the holder. Even with surface issues, a well-detailed Pine Tree Shilling is a cornerstone of any collection of early American coinage, and the type is always in strong demand. Bold tree with clear legends for a coin of this age. PCGS graded Genuine, VF Details, Environmental Damage. PCGS certification #59449864. ..... Est. **$3,000-5,000**

U.S. COINS - HALF DOLLARS - DRAPED BUST

13

13 **1803 50C Draped Bust Half Dollar, Large 3, PCGS Genuine F Details** U.S., Draped Bust Half Dollar, Heraldic Eagle Reverse, 1803, 50C. Large 3 variety, as noted on the holder. Mintage of 31,715 pieces. An important low-mintage early half dollar. No half dollars are dated 1798-1800, and the Heraldic Eagle half dollars that followed (1801-1807) were coined in small numbers, with 1803 among the lower-mintage dates. Most were heavily used in commerce, so survivors in any grade are elusive. Even wear with a clear date and the major devices outlined. Composition: .8924 fine silver. Gross weight 13.48 grams; pure silver content 12.03 grams (0.3867 troy oz ASW). PCGS graded Genuine, F Details, Cleaned. PCGS certification #59443064. ..... Est. **$800-1,200**

31 1936 Cleveland Centennial / Great Lakes Exposition Commemorative Half Dollar, CAC MS65 U.S. 1936 Cleveland Centennial / Great Lakes Exposition Commemorative Silver Half Dollar, struck at the Philadelphia Mint, with a net distribution of 50,000 coins. The issue marked the 100th anniversary of Cleveland's incorporation as a city, and the coins were sold to the public for $1.50 each. Brenda Putnam's obverse shows a portrait of city founder Moses Cleaveland, her initials "BP" at the right. The reverse shows a map of the Great Lakes with stars marking the major lake cities, Cleveland's largest star pierced by a draftsman's compass, with GREAT LAKES EXPOSITION and CLEVELAND CENTENNIAL around and the dates 1836 and 1936. A brilliant Gem with bright, frosty white luster and delicate peripheral golden toning. It is well struck, with sharp detail on Cleaveland's hair and the map, and the surfaces are clean for the grade. Certified by CAC Grading as MS65, certification number 655091379. ..... 33

33 1799 $1 Draped Bust Silver Dollar, Heraldic Eagle, PCGS Genuine F Details U.S., Draped Bust Silver Dollar, Heraldic Eagle Reverse, 1799, $1. Mintage of 423,515 pieces, the highest of the early dollar series, yet survivors in any grade remain scarce today. The Draped Bust design, attributed to Gilbert Stuart and engraved by Robert Scot, replaced the Flowing Hair dollar in 1795. In 1798 the small, scrawny eagle reverse gave way to the Heraldic Eagle adapted from the Great Seal of the United States. Dollar production was suspended after 1803 (the famous 1804 dollars were struck decades later), so these early dollars represent the nation's first era of large silver coinage, struck at the original Philadelphia Mint under the administration of President John Adams. Even gray-silver surfaces with all major design elements clearly outlined. A desirable early type coin. Composition: .8924 fine silver. Gross weight 26.96 grams; pure silver content 24.06 grams (0.7735 troy oz ASW). PCGS graded Genuine, F Details, Cleaned. PCGS certification #59454355..... Est. **$1,250-1,700**

U.S. COINS - TRADE DOLLARS

39

39 **1875-CC T$1 Trade Dollar, Type I/I, CACG AU Details** U.S., Trade Dollar, 1875 CC, T$1. Obverse I, Reverse I, as noted on the holder. Mintage of 1,573,700 pieces. The Trade dollar was created by the Coinage Act of 1873 to compete with the Mexican 8 reales in the China trade, where merchants valued silver coins by weight. Slightly heavier than the standard silver dollar at 420 grains, it was struck at Philadelphia, San Francisco and Carson City. Many were exported to Asia, where they often received merchants' chopmarks. When silver prices fell, Trade dollars flowed back into domestic circulation at a discount, and Congress revoked their legal tender status in 1876. Business strikes ended in 1878. Carson City Trade dollars are especially popular, combining the romance of the Nevada mint with the coin's international history. Type I obverse with ribbon ends pointing left, Type I reverse without a berry below the eagle's claw. Bright surfaces with sharp, nearly full design detail. Composition: .900 fine silver. Gross weight 27.22 grams; pure silver content 24.49 grams (0.7874 troy oz ASW). CACG graded AU Details, Cleaned. CACG certification #816441368. .....Est. **$1,250-1,500**

64 **1878-CC Morgan Silver Dollar, CAC MS60** U.S. 1878-CC Morgan Silver Dollar, struck at the Carson City Mint, with a mintage of 2,212,000. 1878 was the first year of the Morgan design, and this is the first Carson City Morgan dollar, a cornerstone date for CC collectors. This example has frosty luster with soft golden and rose toning around the obverse rim, and the reverse is brilliant and mostly white. It is well struck, with good definition in Liberty's hair and the eagle's breast and wing feathers. There are scattered contact marks on Liberty's cheek and in the fields, as you'd expect at this grade, but the toning and luster give it nice eye appeal for an entry-level Mint State Carson City dollar. 89

89 **1881-CC $1 Morgan Silver Dollar, CAC MS61** U.S. Morgan Silver Dollar, 1881-CC, struck at the Carson City Mint, with a mintage of only 296,000, one of the lowest of the Carson City Morgans. Nearly half of that mintage sat in U.S. Treasury vaults until the General Services Administration sold it in the early 1970s, so the date is scarce in circulated grades and found mostly in Mint State. This example is brilliant white with frosty luster. It is well struck, with good detail in Liberty's hair and the eagle's breast feathers. As the grade implies, there are scattered light contact marks on Liberty's cheek and in the fields, but the coin still has good eye appeal for an MS61. Certified by CAC Grading as MS61, certification number 877584644. ..... Est. **$550-650**

217

217 1893-S $1 Morgan Silver Dollar, PCGS Genuine VG Details U.S., Morgan Silver Dollar, 1893 S, $1. Mintage of only 100,000 pieces, the lowest of any collectible business-strike Morgan dollar, and the date is widely regarded as the king of the series. Struck during the Panic of 1893, when silver prices collapsed and coinage was sharply curtailed, the 1893-S saw few coins saved. Most entered circulation in the West and were worn down, so this date is the ultimate key to any Morgan dollar collection and is missing from most sets. All major design elements clearly outlined with a fully legible date and mint mark, an affordable way to own this celebrated rarity. PCGS graded Genuine, VG Details, Polished. 294

294 1921 $1 Peace Silver Dollar, High Relief, NGC MS65 – First Year of Issue, Original Toning U.S., Peace Silver Dollar, 1921, $1. High Relief. First year of issue, with a mintage of 1,006,473 pieces. Anthony de Francisci's design marked the end of World War I, and 1921 was the only year struck in high relief for circulation. The relief was lowered in 1922 because the high relief strained the dies and presses, which makes the 1921 a one-year type. This is a Gem example with deep, original cabinet toning. Charcoal-gray and russet tones fill the fields, golden-olive highlights catch the high points of Liberty's cheek, hair and radiant crown, and the mint frost shows through the toning. The design is crisply struck for this famously soft issue, with good definition in the hair strands and rays. The surfaces are smooth for the grade. An attractive, never-cleaned example that will appeal to collectors of naturally toned silver. NGC graded MS 65. NGC certification #8741666-001. ..... Est. **$2,300-3,500**

336

336 1881 $2.50 Liberty Head Quarter Eagle, NGC AU58 – Key Date, Only 640 Struck U.S., Liberty Head Quarter Eagle, 1881, $2.50. One of the premier key dates of the long-running Liberty quarter eagle series, with a business-strike mintage of just 640 pieces and only 51 Proofs. No branch mints struck the denomination that year. Most of the small mintage went into circulation, and the typical survivor grades EF or AU today. PCGS estimates fewer than 100 examples survive in all grades. This is a bright, near-Mint example with rich yellow-gold surfaces and soft orange highlights in the protected areas. The strike is sharp, with full star centers, crisp LIBERTY and good feather detail on the eagle. Light friction is limited to the high points, with scattered handling marks in the fields typical of the grade. A seldom-offered opportunity for the advanced gold specialist or date collector. NGC graded AU 58. NGC certification #6601653-001. Composition: .900 fine gold, pure gold content 3.762 grams (0.1209 troy oz AGW).One of the lowest mintage dates of the series. Mintage of 640 pieces. Nearly Uncirculated with attractive color. NGC graded AU 58. NGC certification #6601653-001. Composition: .900 fine gold, pure gold content 3.762 grams (0.1209 troy oz AGW). ..... First year of the three dollar denomination and the only three dollar gold piece ever struck at New Orleans, making this a one-year branch mint issue that is required for both a $3 date set and a New Orleans gold type set. Also a one-year design type, with DOLLARS in small letters on the reverse, used in 1854 only. Designed by James B. Longacre. Most of the mintage went into circulation and survivors are typically found well worn or impaired. This example shows even wear with honest Extremely Fine detail and pleasing yellow-gold color; evidence of a former jewelry mount is noted by NGC. A scarce and popular Southern gold issue. 363 **1911-D $10 Indian Head Eagle, NGC MS62** U.S., Indian Head Gold Eagle, 1911 D, $10. A key date in the series. Mintage of only 30,100 pieces, the lowest circulation-strike mintage of any Indian Head eagle apart from the experimental 1907 Wire Rim and Rolled Rim issues. Designed by Augustus Saint-Gaudens. The 1911-D is scarce in every grade and especially difficult to find in Mint State, where it is considered one of the leading condition rarities of the series. This example shows bright, satiny luster across rich yellow-gold surfaces, with crisp detail in the headdress feathers and on the eagle's wing and leg plumage. A few small, scattered marks on Liberty's cheek and in the fields are fully consistent with the grade, and the coin has strong eye appeal for an issue rarely seen this nice. NGC graded MS 62. CONDITIONS OF SALE

THE PLACING OF A BID SHALL CONSTITUTE ACCEPTANCE OF THESE CONDITIONS OF SALE

BIDDING

1. Unless announced otherwise by the auctioneer, all bids are per lot, as numbered in the printed Catalogue. Archives International Auctions, as agent for the consignor or vendor, shall regulate the bidding and shall determine the manner in which the bidding shall be conducted. Archives International Auctions reserves the right to withdraw any lot prior to sale (without liability to any potential purchaser or agent), to re-offer any withdrawn lot, to divide a lot or to group two or more lots belonging to the same consignor or vendor, and to refuse any bid believed not made in good faith. Estimates of sales prices contained in the printed Catalogue reflect the best judgment of Archives International Auctions and are not minimum or upset prices.

2. (a) Bids shall be made in the steps set forth in paragraph 12.

   (b) The highest bid acknowledged by the auctioneer shall prevail. Should a dispute arise between bidders (including a dispute be tween a floor bidder and the auctioneer acting on behalf of a mail bidder, consignor or vendor), the auctioneer alone shall determine who the successful bidder is and whether to reoffer the lot in dispute. Should a dispute arise after the sale, the auction eer's sale records shall be conclusive. On all lots sold, a commission of 22%* on the hammer price is payable by the buyer to the auctioneer (*See exceptions on next page for bids on internet).

3. (a) The auctioneer reserves the right to bid on behalf of clients (and consignors or vendors) but shall not be liable for errors and omissions in executing instructions to bid, however received, and whether such errors or omissions be those of the bidder or agent or those of the auctioneer.

   (b) Lots may be offered subject to a reserve price. The auctioneer may implement such reserve price by bidding on behalf of the consignor vendor.

   (c) It may also be assumed that all consignors have been advanced monies against the sale of their consigned material and Archives International Auctions therefore has a security interest in the consigned material over and above the normal auction commission.

   (d) Purchases made by a consignor or vendor or his agent on his own lots shall be considered as a sale subject to commissions and sales tax as applicable.

   (e) Agents are responsible for the payment of the purchase price for all purchases made on behalf of their clients, unless other arrangements with the auctioneer have been confirmed in writing prior to the auction.

PAYMENT FOR PURCHASES

4. Payment for lots, including those on which opinions are desired (Con dition of Sale 8), shall be as follows:

   (a) Floor Bidders. Payment of the purchase price, or such part there of as Archives International Auctions shall require, shall be made by the purchaser in cash or bank or certified check or in such other manner as Archives International Auctions may determine. The name and address of the purchaser of each lot shall be given to the auctioneer immediately following the sale of such lot.

   (b) Mail Bidders. A successful mail bidder will be notified of lots purchased. Before Archives International Auctions will send such lots, payment in full must be received by Archives International Auctions within three (3) business days of receipt of the aforesaid notification by the mail bidder. However, a purchaser known to Archives International Auctions at its option may have purchases delivered or forwarded for immediate payment (by a dollar draft on a U.S. bank in the case of overseas purchasers). Mailed delivery will be to the address on the bid sheet and proof by Archives International Auctions of receipt of a sending at the advised address shall constitute delivery. All charges for handling, delivery and insurance obtained by Archives International Auctions on behalf of the purchaser shall be added to the purchase price; a minimum charge of $10.00 will be made. Risk of loss in transit shall be on the purchaser.

5. Title shall not pass to the purchaser until full payment has been received by Archives International Auctions as agents for the consignor or vendor.

6. (a) Purchasers agree to pay for lots as specified in Condition of Sale 4 (or as the same may be modified by Condition of Sale 8), and no credit is extended; a late payment charge of 2% per month or fraction thereof shall be added if payment is not made in accordance with the aforesaid conditions.

   (b) In the event that a bidder shall fail to comply with these Conditions of Sale ("Non-Complying Bidder"), then, as to any lot with respect to which such failure to comply occurs, Archives International Auctions may, in its sole discretion, re-offer such lot during the same auction or at an auction at a later time, or by private treaty at such time as Archives International Auctions, in its sole discretion, deems appropriate and the Non-Complying Bidder shall be liable for the deficiency, if any, between the hammer price and the net proceeds of a sale to a subsequent purchaser, whether at auction or by private treaty, as well as for all costs and expenses of both sales, all other charges due thereunder, including commissions with respect to both sales, whether payable to Archives International Auctions or to a third party and all incidental damages. It shall be in Archives International Auctions' sole discretion to determine whether to re-offer the lot theretofore hammered-down to a Non-Complying Bidder at the same auction, or by private treaty in due course, or at a subsequent auction conducted by Archives International Auctions. In no event shall any surplus arising from the sale of a re-offered lot be payable to a Non-Complying Bidder.

   (c) A defaulting purchaser shall be deemed to have granted Archives International Auctions a security interest in property in Archives International Auctions possession owned by such purchaser. Archives International Auctions shall have all of the rights afforded a purchase money secured party under the New York or New Jersey Uniform Commercial Code with respect to such property and may apply against such obligations all monies held or received by it for the account of, or due from Archives International Auctions to such purchaser. Archives International Auctions is authorized to file a Financing Statement in order to perfect its rights as a secured party.

   (d) If Archives International Auctions takes any legal steps to secure payment of a delinquent account, the defaulting purchaser shall be liable for all legal and other expenses incurred by Archives International Auctions to secure such payment, including but not limited to a reasonable allowance for attorneys' fees. For purposes of this paragraph, the term legal steps shall be deemed to include any and all consultation by Archives International Auctions with its attorneys with respect to all matters arising out of a delinquent account.

   (e) Unless otherwise acceptable to Archives International Auctions, payment is to be made only in the form of cash, bank check or certified check, credit card (Visa or MasterCard only) or a bank wire transfer.

EXHIBITION AND INSPECTION OF LOTS; QUALITY AND AUTHENTICITY

7. (a) On Premises Inspection only. Ample opportunity is given for on premises inspection prior to the auction date, and, upon written request and at Archives International Auctions discretion.

   (b) Each lot is sold as genuine and correctly described, based on individual description as modified by any specific notations in this Catalogue.

   (c) Quality. Any lot which a purchaser considers to be incorrectly described may be returned to Archives International Auctions within two weeks of its receipt by such purchaser ("Returning Purchaser"), provided, however, that the same is received by Archives International Auctions within four weeks of the date of the auction; however, Archives International Auctions may, in its discretion, refuse acceptance of such returned lot. If an opinion of a generally recognized authority is desired, the period of time within which a lot must be received by Archives International Auctions will be extended in accordance with Condition of Sale 8. In the event that a dispute cannot be resolved by reference to a generally recognized authority, and Archives International Auctions thereupon undertakes to re-offer the lot with a description identical to thedescription disputed, the Returning Purchaser shall be liable for the deficiency, if any, between the proceeds of the sale to the Returning Purchaser and the proceeds of a sale to a subsequent purchaser, as well as for all costs and expenses of the re-sale, including commission, and all incidental damages. Any lot, the description of which is disputed, must be returned in-

tact in the condition received by the purchaser. The following lots are not returnable except at the discretion of Archives International Auctions: (i) lots from purchasers who attended the exhibition of the lots; (ii) lots examined by postal viewers; (iii) lots on account of their appearance, if they are illustrated in this Catalogue; or (iv) lots described as having repairs, defects or faults for any reason.

(d) Authenticity. Any lot which is declared otherwise than genuine by a generally recognized authority is returnable, provided such lot is received by Archives International Auctions within four weeks of the date of the auction. Proof that a generally recognized authority declines to express an opinion is normally grounds for the return of a lot.

(e) Expenses incurred a purchaser in the submission and the return of a lot under Conditions of Sale 7 are not subject to refund.

SALES TAX

8. Unless presentation of satisfactory proof that it is exempted by law, a purchaser shall pay to Archives International Auctions New Jersey or New York State and local sales taxes, or any compensating use taxes of any other State claiming jurisdiction. A purchaser shall indemnify Archives International Auctions and hold it harmless of and from any claims of any jurisdiction for sales taxes relating to the purchase of articles at the auction, whenever the same may arise.

APPLICABLE LAW, JURISDICTION, ETC.

9. All matters arising out of this auction shall be governed by the laws of the State of New Jersey without giving effect to the choice of law principles thereof.

ARBITRATION

10. Any controversy or claim arising out of or relating to this auction shall be settled by arbitration in the City of New York, State of New York in accordance with the Rules of the American Arbitration Association and judgment upon the award rendered by the Arbitrator or Arbitrators may be entered in any Court having jurisdiction.

JURISDICTION AND VENUE OF ACTIONS

11. The purchaser at this auction (a) consents and submits to the jurisdiction of the Courts of the State of New Jersey or New York and of the Courts of the United States for a judicial district within the territorial limits of the State of New Jersey for all matters arising out of this auction sale, including, without limitation, any action or proceeding instituted for the enforcement of any right, remedy, obligation and liability arising under or by reason thereof; and (b) consents and submits to the venue of such action or proceeding in the City of Hackensack, County of Bergen, State of New Jersey (or such judicial district of a Court of the United States as shall include the same, and (c) further consents that service of process in any action relating thereto may be effected by registered mail, return receipt requested address to the purchase at the address given to the auctioneer at the time of the sale.
