## KEY TO CATALOGING

### DEFINITIONS

**SPECIMEN:** An archival printing sample of a finished item, such as a stock certificate, banknote or stamp that is printed usually with "000000" serial numbers and may have "Specimen" overprinted on it and be punch canceled to invalidate it and prevent its use surreptitiously. Specimens were kept for a number of reasons, though usually as samples to give out to prospective customers to give them an idea of the type and quality of the work that the printing company was capable of doing. Usually specimens were printed in limited amounts at the beginning of a printing run to evaluate the quality of the printing work and color combinations at an early stage, rather than have an entire production run rejected due to some minor flaw that was not found until after the printing was completed. A specimen is similar to the final product, printed on the same paper and in the same color.

**COLOR TRIAL SPECIMENS:** Sometimes specimens would be printed in numerous color combinations not used on the final note for evaluation before a final printing. These are usually extremely rare.

**PROOF:** An initial pull or impression from a plate or die for evaluation of text, vignette, engraving, and esthetic appeal and to check for any errors or faults. These were usually printed on india paper mounted on card or printed on some form of paper or light card. The amount of proofs printed is usually extremely small and usually number only a handful. Proofs allowed the printing company to evaluate the quality of the item being printed without having to go to the expense of making final plates and finding out small errors that could have been repaired at an earlier stage. Usually, proofs are single impressions of banknotes, stamps, vignettes, etc. Anything that was made into a plate, such as a sheet of 100 stamps could have had proof impressions taken from it. These would be called plate proofs (for multiple images) versus die proofs (usually of a single or small amount of images).

**COLOR TRIAL PROOF:** A proof printed in a color other than the issued color.

**ESSAY SPECIMEN or PROOF:** A proposed design that was not used but may be similar or even totally different to a final approved design. An artist, engraver or company may have proposed a number of different designs and color combinations to a client for his approval. If a design is rejected and never used, it could be called an essay.

**PRODUCTION MATERIAL:** Material found in files used in the production of security printed documents, banknotes, stamps and such. It may include correspondence, photographs, artwork, and signature samples, samples of other printed items that are marked up with corrections as well as proofs, specimens, essays, models, mockups and issued final items.

**MODEL:** A proposed or final design that may include original artwork, pieces of design elements such as borders, titles, vignettes, corporate seals, undertints and possibly portions of photographs. Before an engraved item was made, a design had to be decided on. This portion of the design process allowed for the artistic skills of the engraver or design department to be exhibited. Before the "digital age", banknote engravers and designers would cut up portions of other engraved items and re-apply them in a different form or design to come up with a unique new stamp, banknote or certificate. Often, all new engravings or "vignettes" of people or scenes would be engraved first to include in the new "work of art", and other times, portions of different completed items would be "borrowed" to use on a newly designed item. All models are rare and almost all of them are unique.

## Alexander I. Pogrebetsky

Alexander I. Pogrebetsky was born in Siberia, Russia in 1891 and died in 1952 in Israel. Pogrebetsky was an Economist and Financier by training and his vast work experience included positions in government in Siberia before the Communist takeover, as well as a position as Director of Department of Finance of "Centrosoyus" for District of Irkutsk, Zabaikal and Iaktsk Provinces and Mongolia post revolution. He later became the Interim Finance Manager of the Office of the Government of the Far East and a member of the Finance Commission and the National Constituent assembly of the Far Eastern Republic (ca.1920-1922). As an aside, the Far Eastern Republic was an early post revolution experiment in democracy in Eastern Russia (Siberia). The Constitution of the Far Eastern Republic allowed for a minimum wage; a set work week; the amount of vacation per year that citizens were promised; mandatory military service for men as well as additional rights for women; uncensored mails, telegraph and telephone; the banning of capital punishment as well as many other protections that we consider a normal part of our life.

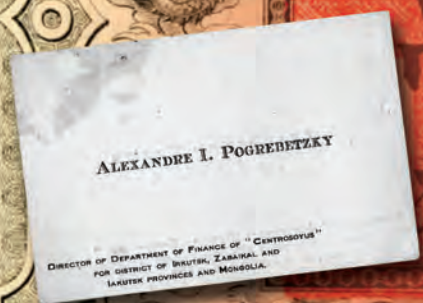

After the communist takeover he relocated to Harbin, China (ca.1920-24) where he became Head of the Board for the Chinese Eastern Railway Company which ran from Vladivostock to Harbin until it was sold to the Japanese in 1924. Sometime after 1935 he left Harbin and moved to Tientsin, China where he co-owned a private bank. After Tientsin, he moved to Shanghai, China where he was involved in numerous business ventures including being a principal in the China Trading & Investment Co., Ltd, with offices in Shanghai and Tientsin, China.

In addition to his business background, he was also noted for his numerous studies and writings as a researcher of "Bonistics" (the Russian term for the study of Banknotes and Numismatics). He acquired most of his collection of banknotes and coins as part of his everyday business dealings as well as his seeking out interesting and scarce banknote and coin issues from his numerous business contacts and sources. Pogrebetsky was the author of several studies on the circulation of money and the money of the Far Eastern region. He is noted for writing one of the earliest banknote reference books on Chinese banknotes called "Money and currency Far East during the War and Revolution (1914-1924)", published in Harbin in 1924.

A portion of his banknote and coin collections were donated in the 1960 to 1970's by a family member to the Smithsonian.

Pogrebetsky was also very active in Jewish cultural affairs and organizations throughout his life in China. He listed on his immigration papers to Palestine that he was a member of the council of the Jewish People's Bank (Harbin, China, 1925-1934); Board of Directors of the bank (Harbin, 1935); a member of the council of the Jewish Commercial Bank (Harbin, 1929-1934); Tientsin Jewish Club "Kunst" (ND); and the Shanghai Jewish Club (ND). He also stated on his application that he worked for over 25 years in fields of Far Eastern Economy and finances and wrote several monographs on these subjects.

We are fortunate that the balance of the papers, documents and banknotes of this astute collector and researcher were, other than the donations made in the 1960-70's, held very closely by the family for the last 60 years and that it came through mostly intact and untouched. We owe Alexander and his family a debt of gratitude for preserving this numismatic treasure that can now be shared with the world.

We are proud to offer the first session of this outstanding collection that has never been offered previously in any form since the day the notes were pulled from circulation in the 1920's to 1940's. There are many rarities present that seldom if ever appear at auction as well as discovery notes that are sure to attract significant attention. This collection also allows us to peer back in time and begins to understand the complex business, financial and political world that Pogrebetsky lived in and how he navigated through this time period successfully including first escaping from the Communist Russian Revolution by moving to China with his family and then eventually migrating to Israel 20 years later.

**MING DYNASTY CIRCULATING NOTE, EARLIEST KNOWN PAPER MONEY.**

2238

2238 China, 1368-99, 1 Kuan, P-AA10, Issued banknote. 10 Strings of Cash Coins at top center on front and back center at bottom. Large red seal and black seal on back, the one on face is faded, Printed on dark gray mulberry paper. The note is in acceptable condition and would have graded VG to Fine condition, but the bottom 1/4th of the note is missing and evidently cut off at sometime in the past. There is evidence of only one light horizontal fold in the middle and a few areas where the paper is very thin and rounded corners on the top left and right, but still very attractive and collectible for the issue. There is also a adhesive piece of tape with Chinese characters on the back that is 1/4 by 1/3rd of an inch, This note came from a group of these notes that were discovered during the "Boxer Rebellion". The notes were printed by the "Hung-wu Emperor" to create a national currency. The legends on the notes cites the authority of Hung-wu, the punishment for counterfeiting and reward for informants. The term Kuan (Quan, Kwan) relates to the Quan system of money (silver bars). A collectible example of this rare banknote and the earliest example of paper money available. HK \$6000-12000

The back is blank. There is one vertical fold down the middle, a very light diagonal fold on the bottom that barely touches the LL border, a light fold on the UL corner far from the border printing and a light ink spot on the right margin away from the design, otherwise the note looks AU. No serial numbers or other markings and no POC's. Rare note in any form and unlisted as proof or specimen. Attractive dragons supporting shield vignette in middle and ornate border and underprint. Any lot which a purchaser considers to be incorrectly described may be returned to Archives International Auctions in association with Kelleher & Rogers within two weeks of its receipt by such purchaser ("Returning Purchaser"), provided, however, that the same is received by Archives International Auctions in association with Kelleher & Rogers within four weeks of the date of the auction; however, Archives International Auctions in association with Kelleher & Rogers may, in its discretion, refuse acceptance of such returned lot. If an opinion of a mutually acceptable authority is desired, the period of time within which a lot must be received by Archives International Auctions in association with Kelleher & Rogers will be extended in accordance with Condition of Sale 8. In the event that a dispute cannot be resolved by reference to a mutually acceptable authority, and Archives International Auctions in association with Kelleher & Rogers thereupon undertakes to re-offer the lot with a description identical to the description disputed, the Returning Purchaser shall be liable for the deficiency, if any, between the proceeds of the sale to the Returning Purchaser and the proceeds of a sale to a subsequent purchaser, as well as for all costs and expenses of the re-sale, including commission, and all incidental damages. Any lot, the description of which is disputed, must be returned intact and in the original packaging and in the condition received (unaltered) by the purchaser. The following lots are not returnable except at the discretion of Archives International Auctions in association with Kelleher & Rogers: (i) lots from purchasers who attended the exhibition of the lots; (ii) lots examined by postal viewers; (iii) lots on account of their appearance, if they are illustrated in this Catalogue; or (iv) lots described as having repairs, defects or faults for any reason. (v) lots containing more than ten (10) items.
- (d) Authenticity. Any lot which is declared otherwise than genuine by a generally recognized authority is returnable, provided such lot is received by Archives International Auctions in association with Kelleher & Rogers within four weeks of the date of the auction. Proof that a mutually acceptable authority declines to express an opinion is not grounds for the return of a lot.
