## INTRODUCTION TO THE SALE

### FOREWORD

Archives International Auctions is thrilled to unveil its landmark 100th auction, set for March 26th, 2025. This highly anticipated event will feature a remarkable collection of rare and historic items, many of which have not been available for public sale in 25 to 50 years—or ever. A highlight of the auction is the extensive U.S. Federal Bond and Liberty Loan Bond section, showcasing over 25 exceptional pieces, many missing from even the most advanced collections. Additionally, a wide array of Federal Drafts, Warrants, Checks, and fiscal documents from prestigious government agencies—including the War, Navy, Army, Interior, and Post Office Departments—will be presented, many of which have never been offered before at auction or through private sale.

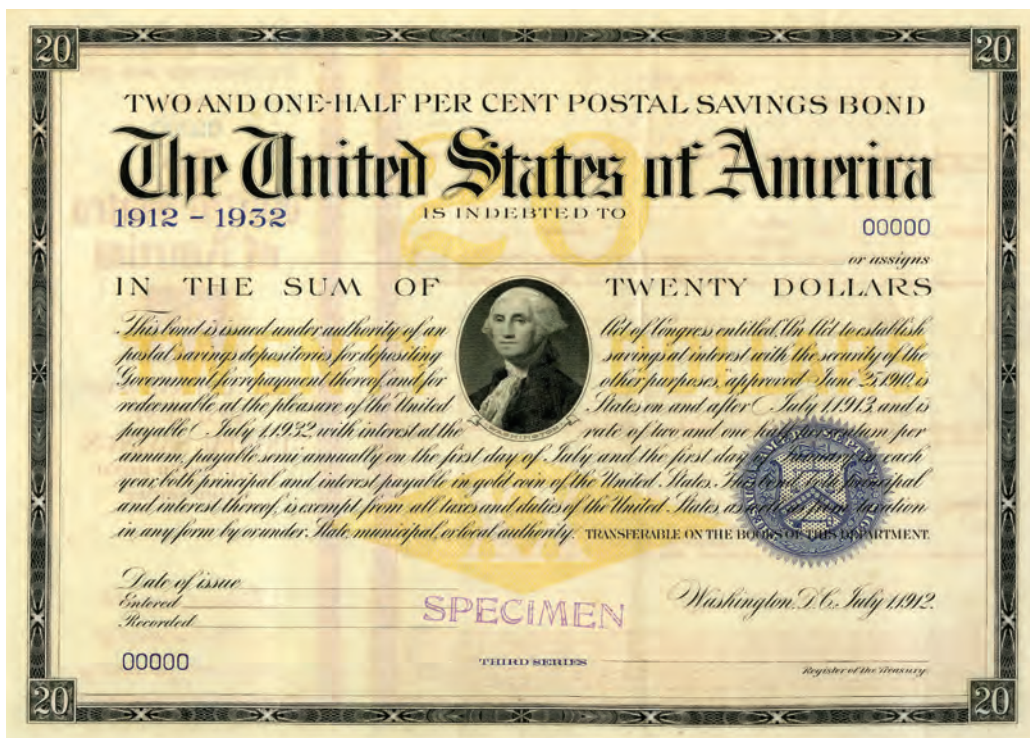

Collectors will also be drawn to a stunning selection of World banknotes, featuring rare and desirable notes from China, Hong Kong, Czechoslovakia, Canada, Mexico, and more. U.S. Colonial, Obsolete, and Confederate currency will be represented by over 115 lots, including many items new to the auctioneer's platform. Further excitement is generated by the inclusion of over 130 lots of U.S. Large and Small type notes, with many pieces not seen in more than 25 years. For enthusiasts of early American currency, 25 lots of 1907 Panic Currency from a notable collection will provide an opportunity to acquire rarely seen examples. The auction will conclude with an outstanding selection of Scripophily, featuring issued and specimen bonds and shares from the worlds of railroads, banking, mining, and foreign certificates.

This historic auction promises to captivate collectors, dealers, and investors alike, offering a once-in-a-lifetime chance to acquire some of the most significant and sought-after items in numismatic and financial history. We will be holding our 101st auction in mid to late April. We are now working on and actively seeking consignments for our Winter and Spring 2025 auctions to include U.S. and World Banknotes, Coins, Scripophily and Security Printing Ephemera as well as desirable numismatic & philatelic items. Please contact us to discuss how you may participate in our future auctions.

The team at Archives International Auctions would like to thank you for your participation. We hope we are adding a little fun and enjoyment to your life and that you are doing well.

Best of luck

Bob Schwartz

## KEY TO CATALOGING

### DEFINITIONS

**SPECIMEN:** An archival printing sample of a finished item, such as a stock certificate, banknote or stamp that is printed usually with "000000" serial numbers and may have "Specimen" overprinted on it and be punch canceled to invalidate it and prevent its use surreptitiously. Specimens were kept for a number of reasons, though usually as samples to give out to prospective customers to give them an idea of the type and quality of the work that the printing company was capable of doing. Usually specimens were printed in limited amounts at the beginning of a printing run to evaluate the quality of the printing work and color combinations at an early stage, rather than have an entire production run rejected due to some minor flaw that was not found until after the printing was completed. A specimen is similar to the final product, printed on the same paper and in the same color.

**COLOR TRIAL SPECIMENS:** Sometimes specimens would be printed in numerous color combinations not used on the final note for evaluation before a final printing. These are usually extremely rare.

**PROOF:** An initial pull or impression from a plate or die for evaluation of text, vignette, engraving, and esthetic appeal and to check for any errors or faults. These were usually printed on india paper mounted on card or printed on some form of paper or light card. The amount of proofs printed is usually extremely small and usually number only a handful. Proofs allowed the printing company to evaluate the quality of the item being printed without having to go to the expense of making final plates and finding out small errors that could have been repaired at an earlier stage. Usually, proofs are single impressions of banknotes, stamps, vignettes, etc. Anything that was made into a plate, such as a sheet of 100 stamps could have had proof impressions taken from it. These would be called plate proofs (for multiple images) versus die proofs (usually of a single or small amount of images).

**COLOR TRIAL PROOF:** A proof printed in a color other than the issued color.

**ESSAY SPECIMEN or PROOF:** A proposed design that was not used but may be similar or even totally different to a final approved design. An artist, engraver or company may have proposed a number of different designs and color combinations to a client for his approval. If a design is rejected and never used, it could be called an essay.

**PRODUCTION MATERIAL:** Material found in files used in the production of security printed documents, banknotes, stamps and such. It may include correspondence, photographs, artwork, and signature samples, samples of other printed items that are marked up with corrections as well as proofs, specimens, essays, models, mockups and issued final items.

**MODEL:** A proposed or final design that may include original artwork, pieces of design elements such as borders, titles, vignettes, corporate seals, undertints and possibly portions of photographs. Before an engraved item was made, a design had to be decided on. This portion of the design process allowed for the artistic skills of the engraver or design department to be exhibited. Before the "digital age", banknote engravers and designers would cut up portions of other engraved items and re-apply them in a different form or design to come up with a unique new stamp, banknote or certificate. Often, all new engravings or "vignettes" of people or scenes would be engraved first to include in the new "work of art", and other times, portions of different completed items would be "borrowed" to use on a newly designed item. All models are rare and almost all of them are unique.

Description Abbreviations I/C = Issued and Cancelled; I/U = Issued and Uncancelled; POC's = Punched out cancels

His proposal was accepted by the government of Empress Maria Theresa. The company was primarily financed by Antwerp bankers. In 1781 the first shares were disbursed with great success. The famous Antwerp merchant Charles de Proli (son of the founder of the Imperial Indian Company), who was also involved in the insurance industry, became the manager. 156 MD. & U.S., Continental Loan Office in the State of "Maryland" Paris Exchange, 12th Day of October, 1780. Signed by Hopkinson, Signer of

**Declaration of Independence** United States of America - Continental Loan Office in the State of "Maryland" Exchange for \$24/120 Livres Tournois Third Bill, Payable at Paris 12th Day of October 1780. S/N 2106, The Continental Loan Office certificates comprise a series of United States obligations collected with Colonial American currency and United States Federal Loans. These Bill of Exchange certificates were denominated in dollars and European equivalents depending on whether they were ultimately payable abroad or domestically at an authorized location. They represented the interest payments due for "Money borrowed by the United States" from the federal loan sales made at individual state loan offices as noted at the lower left of the obligations. They were printed in sheets of four "Bills," from a "First" at the top to a "Fourth" at the bottom. One or more could be sent simultaneously as necessary for payment abroad. The majority known are Fourth Bills. This Maryland certificate is representative of the some of the most commonly encountered "at Paris" series. Printed on laid paper, watermarked "United States 3." The exchange bill numeral is incorporated into the watermark for counterfeit deterrence. The common layout has black typeset titles, obligations, denominations, and blanks for issuance across. An extraordinary collection of annual reports of the business conducted by the legendary security printer, American Bank Note Company. ABN, as it is commonly known, has been America's premier engraver and printer for over 150 years. These eleven reports document the annual activity of the company from 1864 to 1876, missing only the years 1870 and 1871. The reports are fascinating to read, and they document the company's activities in printing national currency for the United States as well as currency for foreign governments. While the details they offer on the company finances and production is interesting, they are signed by some of the period's most prominent and well respected engravers who had been previously highly successful independent operators of their own companies before forming the American Bank Note Company. There are various combinations of the trustees of the company signing at the conclusion of each of the annual reports including the following: George N. Hatch; J. D. Bald; Jno E. Gavit; J. V. Carpenter; William Cumming Smillie; James L. Graham; John G. Wellsford; A. G. Goodall; Tracy R. Edson; Charles Welsh; Theo. H. Freeland, and others. Every one of these men played an important role in the early history of security printing and engraving in the U.S. and with their predecessor companies until they merged to form the American Bank Note Company in 1858. This unique offering represents one of the most significant groups relating to the early financial history of the world's largest security printer, the American Bank Note Company. Signed by Oliver Wolcott as representative of the "Committee", he was the second United States Secretary of the Treasury, a judge of the United States Circuit Court for the Second Circuit, and the 24th Governor of Connecticut. He was a member of the Pay-Table Committee for several years, and was a commissioner to settle claims of Connecticut against the United States from 1784 to 1788. In 1796, he was George and Martha Washington's intermediary in getting the Collector of Customs for Portsmouth, New Hampshire, Joseph Whipple, to capture and send an escaped slave, Oney (sometimes Ona) Judge, back to Mount Vernon. He was ultimately unsuccessful. When Wolcott died in 1833 in New York City, he was the last surviving cabinet member of the Washington administration. Note was issued for payment of the Civil List by the pay-table of Connecticut. The Pay-Table (also known as the Committee of Four) managed Connecticut's military finances during the Revolutionary War. Financing the Revolution laid a heavy burden upon each colony, especially those which balked at levying taxes. In order to meet immediate needs, such as wages, the colonies relied upon wealthy revolutionists, foreign loans, and taxes and gifts from abroad. Issuing notes such as these was only a temporary solution. Warrants range from VF+ to XF condition. Est. \$80-140

NEW YORK PROVINCE

297

**297 NY. Albany, New York Province, 1729 Land Deed - Mortgage Legal Document Mentioning and Signed by Philip Livingston** Albany, Province of New York, 1729. Handwritten legal document regarding an indenture between Peter Quackenboss (Quackenbush), his wife Nettie, and Philip Livingston, in which Livingston mortgaged a tract of land, described in great detail throughout. Outlined in the document are the terms and conditions of the indenture, with listed witnesses, all made in the "Second year of the Reign of our Sovereign, Lord George the Second of Great Britain, France and Ireland, King defender of the faith." The Philip Livingston discussed throughout the piece and bearing his signature is likely Philip Livingston (July 9, 1686 - February 11, 1749), the son of Robert Livingston the Elder, and elder brother of Robert Livingston of Clermont. Philip was the second Lord of Livingston Manor, a merchant, and slave trader. Philip Livingston was the fourth child and second son of Robert Livingston and Alida (nee Schuyler) van Rensselaer Livingston. He was born on July 9, 1686 in his father's Albany, New York town house, at "Elm Tree Corner", the intersection of State and Pearl Streets and one of early Albany's principal crossroads. The name commemorates a legendary elm tree that reputedly was planted in 1735 by a young Philip Livingston in front of his father's house on the northwestern corner. Something of an Albany landmark, the old elm was removed in June 1877. At the time of Philip's birth, his father was downriver in New York engaged in persuading Governor Dongan to grant a city charter to Albany. Philip was named for his maternal grandfather, Philip Pieterse Schuyler. His son, Philip Livingston (January 15, 1716 - June 12, 1778), was an American merchant and statesman from New York City. He represented New York at the October 1774 First Continental Congress, where he favored imposing economic sanctions upon Great Britain as a way of pressuring the British Parliament to repeal the Intolerable Acts. He was also a delegate to the Second Continental Congress from 1775 to 1778, and signed the Declaration of Independence. VG to Fine condition with some staining and edge damage but in incredible condition considering its age. Fascinating and unique piece of early New York Colonial History, which predates the American Revolution by almost half a century. Est. \$300-600

EPHEMERA - CIVIL WAR - MILITARY

553 **Historic Civil War Muster Roll For Company "L" in the 6th Pennsylvania Cavalry Regiment, Dating from June to August 1863.** Pennsylvania, Delaware, Virginia and Maryland. 30th Day of June to the 31st Day of August, 1863. Muster Roll of Captain Charles L. Leiper's Company L of the Sixth Regiment of the Pennsylvania Cavalry, June, 1863, "when last paid," to the 31st day of August, 1863. Includes handwritten details such as the names, ranks, and pay roll of the men, as well as the names of those who deserted. The Battle of Gettysburg began on July 1st and ended on July 3rd. Notes on the muster begin with the movement of the troops on July 1st when they are at camp in Mechanics town, MD., mentions that on July 2nd they marched to Emmitsburg, MD and on July 3rd, scouted around Gettysburg, PA, with reports of their movements on literally a daily basis describing skirmishes with the enemy and other events. Highlights include details written in the "Notes" section of the Muster Roll, for example the case of Hugh Brannan, who was "missing in action at Beverly Ford, Va June 9th 63." Also includes a handwritten record of events "which may be necessary or useful for future reference at the war department, or for present information." This includes the movements and camp locations of the Sixth Regiment, and mentions locations such as Mechanics town, Maryland, and Manassas Gap, Virginia where on the 22nd of July the Company was "skirmishing with [the] enemy." On August 1st, the Company crossed the Rappahannock, "met the enemy, took part in the Battle of Brandy Station in which one man of Co. "L" was wounded." The document is in VG to almost Fine but fragile condition with pieces missing, very fragile fold lines, splitting, and archival repairs, it could use some expert restoration work, but it is completely legible. The 6th Pennsylvania Cavalry was a Union cavalry regiment during the American Civil War. They were known for their early use of 9-foot lances, and were called "Rush's Lancers." The regiment was raised during August and September 1861 from companies raised in Philadelphia, Montgomery and Berks counties by Richard H. Rush, who had been authorized to do so by Governor Curtin. Rush was appointed colonel of the regiment, with John H. M'Arthur as lieutenant colonel and C. Ross Smith and Robert Morris, Jr., as majors. At the suggestion of Maj. Gen. George B. McClellan, the men were armed with Austrian lances. After several weeks of training in Philadelphia, the regiment was transferred to Washington, D.C., where it was assigned to the Cavalry Division of the Army of the Potomac. In May 1863, the regiment was rearmed with Sharps carbines and assigned to the Reserve Brigade of the 1st Cavalry Division. It fought in the Gettysburg Campaign and Mine Run Campaign. During the Battle of Brandy Station in June 1863, the regiment (led by Major Robert Morris, Jr.) unsuccessfully charged the guns at St. James Church, suffering the greatest casualties of any regiment in the battle. Several Confederates later described the 6th's charge as the most "brilliant and glorious" cavalry charge of the war. (In many Civil War battles, cavalrymen typically dismounted once they reached an engagement and fought essentially as infantry. But in this battle, the surprise and chaos led to a mostly mounted fight.) Following the Appomattox Campaign, it was ordered to Washington, D.C., where it was consolidated with the 1st Pennsylvania Cavalry and 17th Pennsylvania Cavalry to form the 2nd Pennsylvania Provisional Cavalry. The combined regiment was sent to Louisville, Kentucky, where it was mustered out in August 1865. 554 Civil War 1863, Muster Roll For Company "D", Battalion of U.S. Engineer Troops Listing Medal Of Honor Winner George L. Gillespie Muster Roll of Company D of the Battalion of U.S. Engineer Troops, from the 30th day of June, 1863 to the 31st day of August, 1863. Includes handwritten details such as the men discharged, deserted, as well as a full account men present and their pay roll. Also listed is a record of events "which may be necessary or useful for future reference at the war department, or for present information." On August 1st, the company engaged in constructing bridges over the Rappahannock River. Fine condition with toning and some splitting at center fold lines, still in great condition for its age. The Captain of the Battalion was Charles N. Turnbull and his First Lieutenant was George L. Gillespie, who would go on to receive the Medal of Honor. Gillespie exposed himself to great danger by voluntarily making his way through the enemy's lines to communicate with General Sheridan. While rendering this service he was captured, escaped, and again came in contact with the enemy. He was ordered to surrender, but escaped once more by dashing away under fire. He was later Sheridan's Chief Engineer in the Army of the Shenandoah and the Military Division of the Gulf, and is buried at West Point. The Battalion of U.S. Engineer Troops fought at Antietam, bridged the Rappahannock River six times at Fredericksburg (mentioned in the piece), breached fortifications at Petersburg and was present at the surrender of General Lee at Appomattox. Following the cessation of hostilities, on 1 July 1866, The United States Engineer Battalion was redesignated the "1st Battalion of Engineers". Interesting piece of Civil War history, and unique for its mention of George L. Gillespie before his heroic actions. .... Est. \$550-900

LETTER  
MISSOURI

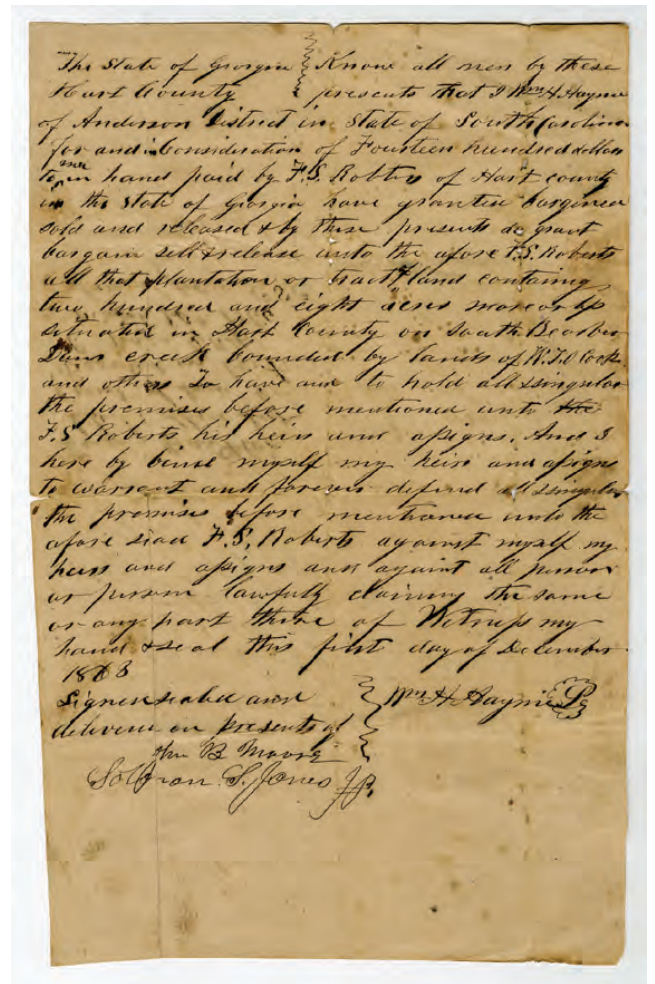

556 Civil War Letter from Union Soldier Samuel Tuttle while in Hospital with Postal Cover from October 1861 Missouri, October 1861. Handwritten letter and corresponding Postal Cover from Union Soldier PVT Samuel Tuttle, writing from Jefferson City to his family back home in Galion, Ohio. Tuttle writes that while his brother Daniel is well, he remains in the hospital, "not heartsick nor homesick just a little lame," and that he is being taken care of. Tuttle mentions that the hospital has a "great many sick" within its walls. Tuttle goes on to describe some military details, writing that "yesterday the picket guards were [sic] fired on eight miles from here at the Osage Bridge," but no one was hurt. He also writes "There was a report come in yesterday that there was a company...camped about four miles from her [sic] 40 of our boys shouldered musket and went out to see them and give them a start but they said they were for the Union and showed a pass," and then went on undisturbed. According to Tuttle, about 9,000 troops were stationed in the area at the time of his writing. VF condition, exceptional piece of military history from the Civil War. Samuel Tuttle (1839-1868) was a PVT in the 16th Ohio Light Artillery Regiment. He enlisted with his brother Daniel Tuttle (1837-1913), but Samuel was discharged on account of disability in January of 1862, just a few months after writing this letter. Likely his "lameness" and pain in hip and back referenced in this document would require him to exit service. .... Est. \$200-400

## CONDITIONS OF SALE

### THE PLACING OF A BID SHALL CONSTITUTE ACCEPTANCE OF THESE CONDITIONS OF SALE

#### BIDDING

1. Unless announced otherwise by the auctioneer, all bids are per lot, as numbered in the printed Catalogue. Archives International Auctions, as agent for the consignor or vendor, shall regulate the bidding and shall determine the manner in which the bidding shall be conducted. Archives International Auctions reserves the right to withdraw any lot prior to sale (without liability to any potential purchaser or agent), to re-offer any withdrawn lot, to divide a lot or to group two or more lots belonging to the same consignor or vendor, and to refuse any bid believed not made in good faith. Estimates of sales prices contained in the printed Catalogue reflect the best judgment of Archives International Auctions and are not minimum or upset prices.
2. (a) Bids shall be made in the steps set forth in paragraph 12.  
(b) The highest bid acknowledged by the auctioneer shall prevail. Should a dispute arise between bidders (including a dispute between a floor bidder and the auctioneer acting on behalf of a mail bidder, consignor or vendor), the auctioneer alone shall determine who the successful bidder is and whether to reoffer the lot in dispute. Should a dispute arise after the sale, the auctioneer's sale records shall be conclusive. On all lots sold, a commission of 20%\* on the hammer price is payable by the buyer to the auctioneer (\*See exceptions on next page for bids on internet).
3. (a) The auctioneer reserves the right to bid on behalf of clients (and consignors or vendors) but shall not be liable for errors and omissions in executing instructions to bid, however received, and whether such errors or omissions be those of the bidder or agent or those of the auctioneer.  
(b) Lots may be offered subject to a reserve price. The auctioneer may implement such reserve price by bidding on behalf of the consignor vendor.  
(c) It may also be assumed that all consignors have been advanced monies against the sale of their consigned material and Archives International Auctions therefore has a security interest in the consigned material over and above the normal auction commission.  
(d) Purchases made by a consignor or vendor or his agent on his own lots shall be considered as a sale subject to commissions and sales tax as applicable.  
(e) Agents are responsible for the payment of the purchase price for all purchases made on behalf of their clients, unless other arrangements with the auctioneer have been confirmed in writing prior to the auction.

#### PAYMENT FOR PURCHASES

4. Payment for lots, including those on which opinions are desired (Condition of Sale 8), shall be as follows:
  - (a) Floor Bidders. Payment of the purchase price, or such part thereof as Archives International Auctions shall require, shall be made by the purchaser in cash or bank or certified check or in such other manner as Archives International Auctions may determine. The name and address of the purchaser of each lot shall be given to the auctioneer immediately following the sale of such lot.
  - (b) Mail Bidders. A successful mail bidder will be notified of lots purchased. Before Archives International Auctions will send such lots, payment in full must be received by Archives International Auctions within three (3) business days of receipt of the aforesaid notification by the mail bidder. However, a purchaser known to Archives International Auctions at its option may have purchases delivered or forwarded for immediate payment (by a dollar draft on a U.S. bank in the case of overseas purchasers). Mailed delivery will be to the address on the bid sheet and proof by Archives International Auctions of receipt of a sending at the advised address shall constitute delivery. All charges for handling, delivery and insurance obtained by Archives International Auctions on behalf of the purchaser shall be added to the purchase price; a minimum charge of \$10.00 will be made. Risk of loss in transit shall be on the purchaser.
5. Title shall not pass to the purchaser until full payment has been received by Archives International Auctions as agents for the consignor or vendor.

6. (a) Purchasers agree to pay for lots as specified in Condition of Sale 4 (or as the same may be modified by Condition of Sale 8), and no credit is extended; a late payment charge of 2% per month or fraction thereof shall be added if payment is not made in accordance with the aforesaid conditions.  
(b) In the event that a bidder shall fail to comply with these Conditions of Sale ("Non-Complying Bidder"), then, as to any lot with respect to which such failure to comply occurs, Archives International Auctions may, in its sole discretion, re-offer such lot during the same auction or at an auction at a later time, or by private treaty at such time as Archives International Auctions, in its sole discretion, deems appropriate and the Non-Complying Bidder shall be liable for the deficiency, if any, between the hammer price and the net proceeds of a sale to a subsequent purchaser, whether at auction or by private treaty, as well as for all costs and expenses of both sales, all other charges due thereunder, including commissions with respect to both sales, whether payable to Archives International Auctions or to a third party and all incidental damages. It shall be in Archives International Auctions' sole discretion to determine whether to re-offer the lot theretofore hammered-down to a Non-Complying Bidder at the same auction, or by private treaty in due course, or at a subsequent auction conducted by Archives International Auctions. In no event shall any surplus arising from the sale of a re-offered lot be payable to a Non-Complying Bidder.  
(c) A defaulting purchaser shall be deemed to have granted Archives International Auctions a security interest in property in Archives International Auctions possession owned by such purchaser. Archives International Auctions shall have all of the rights afforded a purchase money secured party under the New York or New Jersey Uniform Commercial Code with respect to such property and may apply against such obligations all monies held or received by it for the account of, or due from Archives International Auctions to such purchaser. Archives International Auctions is authorized to file a Financing Statement in order to perfect its rights as a secured party.  
(d) If Archives International Auctions takes any legal steps to secure payment of a delinquent account, the defaulting purchaser shall be liable for all legal and other expenses incurred by Archives International Auctions to secure such payment, including but not limited to a reasonable allowance for attorneys' fees. For purposes of this paragraph, the term legal steps shall be deemed to include any and all consultation by Archives International Auctions with its attorneys with respect to all matters arising out of a delinquent account.  
(e) Unless otherwise acceptable to Archives International Auctions, payment is to be made only in the form of cash, bank check or certified check, credit card (Visa or MasterCard only) or a bank wire transfer.

#### EXHIBITION AND INSPECTION OF LOTS; QUALITY AND AUTHENTICITY

7. (a) On Premises Inspection only. Ample opportunity is given for on premises inspection prior to the auction date, and, upon written request and at Archives International Auctions discretion.  
(b) Each lot is sold as genuine and correctly described, based on individual description as modified by any specific notations in this Catalogue.  
(c) Quality. Any lot which a purchaser considers to be incorrectly described may be returned to Archives International Auctions within two weeks of its receipt by such purchaser ("Returning Purchaser"), provided, however, that the same is received by Archives International Auctions within four weeks of the date of the auction; however, Archives International Auctions may, in its discretion, refuse acceptance of such returned lot. If an opinion of a generally recognized authority is desired, the period of time within which a lot must be received by Archives International Auctions will be extended in accordance with Condition of Sale 8. In the event that a dispute cannot be resolved by reference to a generally recognized authority, and Archives International Auctions thereupon undertakes to re-offer the lot with a description identical to the description disputed, the Returning Purchaser shall be liable for the deficiency, if any, between the proceeds of the sale to the Returning Purchaser and the proceeds of a sale to a subsequent purchaser, as well as for all costs and expenses of the re-sale, including commission, and all incidental damages. Any lot, the description of which is disputed, must be returned in-

The following lots are not returnable except at the discretion of Archives International Auctions: (i) lots from purchasers who attended the exhibition of the lots; (ii) lots examined by postal viewers; (iii) lots on account of their appearance, if they are illustrated in this Catalogue; or (iv) lots described as having repairs, defects or faults for any reason.

- (d) Authenticity. Any lot which is declared otherwise than genuine by a generally recognized authority is returnable, provided such lot is received by Archives International Auctions within four weeks of the date of the auction. Proof that a generally recognized authority declines to express an opinion is normally grounds for the return of a lot.
- (e) Expenses incurred a purchaser in the submission and the return of a lot under Conditions of Sale 7 are not subject to refund.

#### SALES TAX

8. Unless presentation of satisfactory proof that it is exempted by law, a purchaser shall pay to Archives International Auctions New Jersey or New York State and local sales taxes, or any compensating use taxes of any other State claiming jurisdiction. A purchaser shall indemnify Archives International Auctions and hold it harmless of and from any claims of any jurisdiction for sales taxes relating to the purchase of articles at the auction, whenever the same may arise.
