ARCHIVES INTERNATIONAL AUCTIONS

U.S., Chinese & Worldwide Banknotes, Scripophily,
Historic, and Security Printing Ephemera

June 11, 2025 · River Edge, New Jersey

INTRODUCTION TO THE SALE

FOREWORD

We proudly present Auction 103, an exceptional sale of 488 lots of rare and historic banknotes, fiscal documents, and financial ephemera. This sale is especially distinguished by an outstanding selection of early U.S. 1864 Interest Bearing Notes and an extraordinary pair of ca.1837 Louisiana Interest Bearing Post Notes—offered publicly for the very first time.

Among the many highlights is a trio of rare 1864 U.S. Interest Bearing Treasury issues, including the iconic \$50 and \$100 Compound Interest Treasury Notes, and a \$50 Interest Bearing Note, with only 6 known of this type—all of these notes are rarely seen at auction, usually individually, with this being a rare occasion that all three will be available in one venue. These notes were designed as financial instruments to help fund the Civil War effort and remain among the most historically important and visually complex notes ever issued by the U.S. Treasury.

Adding to this prestigious group are two recently discovered Post Notes from the Citizens Bank of Louisiana, including a \$100 and a \$500 denomination, circa 1837. These discovery pieces—graded PMG VF 25 and Choice XF 45 respectively—are the earliest known Louisiana bearer Post Notes to explicitly bear interest. Their emergence offers collectors a rare glimpse into the financial mechanisms of antebellum Southern banking, and their inclusion marks a notable auction debut.

In addition, this auction features a standout selection of U.S. rarities, beginning with an 1882 \$5 National Bank of Kentucky of Louisville, Ch# 5312 S, Fr#537, graded PCGS Superb Gem Unc 67 PPQ—one of the finest known for the bank. A 1914 \$10 Federal Reserve Note Red Seal from the Atlanta District, Fr#897A, graded PCGS Choice Unc 63 with the coveted low serial number F2A. A major highlight includes a remarkable Series of 1928A Richmond District \$10/\$5 Dual Denomination Error, Fr#2001-E, PMG graded Choice About Unc 58, representing one of the rarest and most dramatic U.S. printing errors known, with only about ten recorded. Other highlights include an 1861 \$1 Bank of Fayette County, Uniontown, Pennsylvania note with Serial Number 1, graded PMG Gem Unc 65 EPQ, and a 1912 Dominion of Canada \$5, DC-21c, graded PMG Gem Unc 65 EPQ. The sale also includes a strong selection of world banknotes, U.S. Colonials, Obsoletes, Depression-era currency, security printing ephemera, and U.S. and World Scripophily. We welcome your participation in this diverse and historically significant offering. Whether you're seeking iconic rarities or exploring overlooked segments of fiscal history, Auction 103 promises a compelling collecting opportunity.

We invite you to participate live at our gallery in River Edge, NJ or online, and we thank you for your continued interest and support.

Best of luck

Bob Schwartz

KEY TO CATALOGING

DEFINITIONS

SPECIMEN: An archival printing sample of a finished item, such as a stock certificate, banknote or stamp that is printed usually with "000000" serial numbers and may have "Specimen" overprinted on it and be punch canceled to invalidate it and prevent its use surreptitiously. Specimens were kept for a number of reasons, though usually as samples to give out to prospective customers to give them an idea of the type and quality of the work that the printing company was capable of doing. Usually specimens were printed in limited amounts at the beginning of a printing run to evaluate the quality of the printing work and color combinations at an early stage, rather than have an entire production run rejected due to some minor flaw that was not found until after the printing was completed. A specimen is similar to the final product, printed on the same paper and in the same color.

COLOR TRIAL SPECIMENS: Sometimes specimens would be printed in numerous color combinations not used on the final note for evaluation before a final printing. These are usually extremely rare.

PROOF: An initial pull or impression from a plate or die for evaluation of text, vignette, engraving, and esthetic appeal and to check for any errors or faults. These were usually printed on india paper mounted on card or printed on some form of paper or light card. The amount of proofs printed is usually extremely small and usually number only a handful. Proofs allowed the printing company to evaluate the quality of the item being printed without having to go to the expense of making final plates and finding out small errors that could have been repaired at an earlier stage. Usually, proofs are single impressions of banknotes, stamps, vignettes, etc. Anything that was made into a plate, such as a sheet of 100 stamps could have had proof impressions taken from it. These would be called plate proofs (for multiple images) versus die proofs (usually of a single or small amount of images).

COLOR TRIAL PROOF: A proof printed in a color other than the issued color.

ESSAY SPECIMEN or PROOF: A proposed design that was not used but may be similar or even totally different to a final approved design. An artist, engraver or company may have proposed a number of different designs and color combinations to a client for his approval. If a design is rejected and never used, it could be called an essay.

PRODUCTION MATERIAL: Material found in files used in the production of security printed documents, banknotes, stamps and such. It may include correspondence, photographs, artwork, and signature samples, samples of other printed items that are marked up with corrections as well as proofs, specimens, essays, models, mockups and issued final items.

MODEL: A proposed or final design that may include original artwork, pieces of design elements such as borders, titles, vignettes, corporate seals, undertints and possibly portions of photographs. Before an engraved item was made, a design had to be decided on. This portion of the design process allowed for the artistic skills of the engraver or design department to be exhibited. Before the "digital age", banknote engravers and designers would cut up portions of other engraved items and re-apply them in a different form or design to come up with a unique new stamp, banknote or certificate. Often, all new engravings or "vignettes" of people or scenes would be engraved first to include in the new "work of art", and other times, portions of different completed items would be "borrowed" to use on a newly designed item. All models are rare and almost all of them are unique.

The Papal States, officially the State of the Church were a series of territories in the Italian Peninsula under the direct sovereign rule of the pope from the 8th century until 1870. They were among the major states of Italy from roughly the 8th century until the Kingdom of Piedmont-Sardinia unified the Italian Peninsula by conquest in a campaign virtually concluded in 1861 and definitively in 1870. At their zenith, the Papal States covered most of the modern Italian regions of Lazio (which includes Rome), Marche, Umbria and Romagna, and portions of Emilia. These holdings were considered to be a manifestation of the temporal power of the pope, as opposed to his ecclesiastical primacy. Est. \$200-350

U.S. LARGE TYPE - COMPOUND INTEREST TREASURY NOTES WASHINGTON, D.C.

U.S. 1864, \$50 Compound Interest Treasury Note RARITY

290

290 D.C., \$50, 1864, Compound Interest Treasury Note, Fr#192b, Issued Banknote. Washington, D.C., October 15, 1864, \$50, Fr# 192b, Issued Compound Interest Treasury Note. Colby | Spinner signatures, S/N 106077 pp A. PMG graded Very Fine 20. Among the most striking examples is the \$50 Compound Interest Treasury Note, one of only 14 known examples for this catalog number. The note features a detailed allegorical vignette titled Loyalty, symbolized by a young woman holding a sword in her left hand while resting her right hand on a Bible. At the bottom right is an image of Alexander Hamilton. A bold red Treasury Seal and a December 15, 1864, issue date are displayed, along with a red serial number. The reverse of the note is intricately printed in green, featuring large counters and an interest calculation table, enhancing its historical value. The passage of the National Bank Act of 1864 further influenced the design and issuance of notes, laying the groundwork for the National Bank Notes system, which would continue to evolve until 1935. Today, these notes remain highly sought after, prized for their rich history and distinctive design. Compound Interest Treasury Notes, a significant and rare segment of Civil War-era currency, hold a distinguished place in American numismatics. First introduced in June 1864 under the direction of Treasury Secretary Salmon P. Chase, these notes were designed as legal tender and created in response to the financial strains of the war. They were based on the Act of March 3, 1863, and featured a distinctive mechanism—accruing interest at 6% annually for a period of three years. This unique feature made them highly popular, though most were redeemed for their interest, leaving very few intact for collectors today. The notes share similarities with earlier Interest Bearing Notes but were distinguishable by a large and bold bronze overprint with the inscription COMPOUND INTEREST TREASURY NOTE, making this a visually captivating example of wartime currency. This overprint, designed by Spencer Clark, was a key anti-counterfeiting measure, as the bronze would appear black in photographs, making it difficult for counterfeiters to reproduce the notes using photography. U.S. 1864, \$100 COMPOUND INTEREST TREASURY NOTE RARITY

291 D.C., \$100, 1864, Compound Interest Treasury Note, Fr#193b, Issued Banknote. Washington, D.C., August 1, 1865, \$100, Fr# 193b, Issued Compound Interest Treasury Note. Colby | Spinner signatures, S/N 88745 pp B. PMG graded Very Fine 20. We are proud to offer another impressive example of Compound Interest Treasury Note types that rarely appear at auction and has the distinction of being one of only 12 examples known for this catalog number. Though there are 12 notes listed in the Track and Price Census, only 5 Serial Numbers of this Friedberg#193b have ever appeared at auctions that have been tracked, the whereabouts of the other notes are unknown and assumed to be in institutions or major collections and are unavailable to the collector community. The note features a distinguished vignette of George Washington standing, flanked by a standing Liberty with cannon and flag at left, and reclining Justice at right, thus Friedberg type has appeared at auction only 3 times since 2006, the last time was in 2021 where a PMG 20 example sold for \$78,000. The passage of the National Bank Act of 1864 further influenced the design and issuance of notes, laying the groundwork for the National Bank Notes system, which would continue to evolve until 1935. - 292 D.C., \$50, 1864, Interest Bearing Note, Fr#212, Issued Banknote. Washington, D.C., August 15, 1864, \$50, Fr#212, Issued and punch cancelled "Interest Bearing Note". Black printing with green border, Colby | Spinner signatures, S/N 118501 pp A. PMG graded Very Fine 20 with note of Punch hole Cancelled and Restoration. This note, issued under the Act of March 3, 1865, earned 7.3% interest per annum, payable after three years. It features a green border with intricate security prints, including a central eagle vignette—larger than the one on \$10 Legal Tender Notes. This eagle, when inverted, resembles a donkey, leading to the nickname "Jackass Notes." A red spiked Treasury Seal is positioned at the right, while the engraved signatures of Colby and Spinner appear at the lower left and right, respectively. Red serial numbers are printed at the lower left and upper right. The reverse is ornately printed in green, with a clause stating that the note could be converted into bonds after five years, accompanied by large "50" counters on either side. Originally, these notes included five coupons at the right edge; however, none remain on this example. Only seven examples of this catalog number are known, with one housed in the Smithsonian Institution's National Numismatic Collection. \$50 Interest Bearing Notes are extremely rare, making this an important opportunity for collectors. Atlanta, Georgia District, Series of 1914, \$10, Fr. 897a, Red Seal Federal Reserve Note, PCGS graded Choice Unc. 63, Serial Number F2A. This pristine \$10 1914 Red Seal Federal Reserve Note is an excellent example of early 20th-century American currency featuring crisp printing, sharp design details, and outstanding original surfaces, making it an ideal addition for collectors seeking high-quality notes from this series. The note is enhanced by exhibiting the low serial number F2A that adds to its appeal and rarity. The front of the note showcases a portrait of Andrew Jackson, with a red Treasury Seal at the right and the signatures of Burke and McAdoo. The back features an industrial scene, highlighting the nation's economic progress. As a Red Seal note from the 1914 series, it is highly sought after by numismatists. This note remains one of the finest available and will appeal to collectors of U.S. currency from the early Federal Reserve era. Est. \$13000-15000

U.S. LARGE TYPE - NATIONAL BANKNOTES
CALIFORNIA.

U.S. FIRST NATIONAL GOLD BANK, SAN FRANCISCO, 1870 \$5 NATIONAL BANK NOTE

294

- 294 CA. \$5, 1870, First National Gold Bank, San Francisco, Ch# 1741, Fr#1136, Issued National Bank Note. San Francisco, CA., 1870, \$5, Fr#1136, Ch#1741, Issued banknote, Black on off white paper with excellent margins, Allison | Spinner signatures, S/N K276610 / 7473 pp B. This exceptional banknote, graded Very Fine 25 by PMG, remains one of the finer survivors from its era. Its vibrant coloration, and remarkable preservation set it apart from others that experienced more extensive circulation. The vignettes, including Columbus in Sight of Land and America Presented to the Old World, retain exceptional detail, with the reverse vignette, engraved by James Smillie, offering intricate depictions of individual coins that appear almost photographic in their clarity. Issued during the 1870s and early 1880s, National Gold Bank Notes like this one were introduced into a California economy that still operated on a specie-based system, where gold-backed currency was essential. However, with the resumption of specie payments across the United States in 1879, notes like this became less necessary. By 1884, most National Gold Banks had either converted to national charters or liquidated. This specimen, from the First National Gold Bank of San Francisco (Charter #1741), stands out among its peers, this piece exhibits superior eye appeal for its grade. The bold Treasury Seal and charter number, alongside signatures from officials who served between 1878 and 1882, place this note firmly within the era of California's unique currency, making it an important relic of the period. These historic back vignette die proofs were produced by the Bureau of Engraving and Printing (BEP) and reflect some of the most iconic allegorical and historical scenes ever featured on U.S. currency. The imagery was originally engraved for the backs of the National Bank Notes during a time when elaborate artwork was used to instill confidence in the financial system and emphasize national pride. Each proof includes a blue control serial number on the reverse, a common practice for archival tracking by the BEP. Die proofs of this caliber and completeness, particularly in uniformly high grade, are seldom seen as a group. 297 D.C., U.S. Federal Reserve Note, Richmond District, 1928 A, \$10/\$5 Double Denomination Error, Fr#2001-E (EA Block) Banknote Rarity. Washington, D.C., Series of 1928 A, \$10/\$5, Double Denomination Error, Fr#2001-E (EA Block), Issued banknote, S/N E04700280A pp H, PMG graded Choice About Uncirculated 58. This note is considered by many to be the "King of All Errors", Double-denomination errors in U.S. currency, regardless of the time period or variety, are exceptionally rare. Most large-size double denominations resulted from misprints caused by back-only sheets of multi-denominational National Bank Notes being fed upside down for their second printing. This caused discrepancies in the denominations at specific positions on the sheet, as well as an inversion of the back print relative to the front. For small-size double denominations, only four instances are recorded in history. These include the Series 1928-A \$10/\$5 Richmond Federal Reserve Notes, of which only 12 examples are known; a limited run of Series 1934-D \$5/\$10 Kansas City Federal Reserve Notes; a small batch of Series 1950-A \$10/\$1 New York Federal Reserve Notes, which feature Silver Certificate backs; and a group of Series 1974 \$20/\$10 Dallas Federal Reserve Notes. Est. \$35000-40000

Completed in 1825, the canal was the first navigable waterway connecting the Atlantic Ocean to the Great Lakes, vastly reducing the costs of transporting people and goods across the Appalachians. In effect, the canal accelerated the settlement of the Great Lakes region, the westward expansion of the United States, and the economic ascendancy of New York State. It has been called "The Nation's First Superhighway." (2). Est. \$200-350

EPHEMERA - HISTORIC POLITICAL NEW YORK

- 395 NY. Historic 1863 Handwritten Letter from Washington Hunt to New York Governor Horatio Seymour Discussing the Erie Canal.** Lockport, New York. April 18, 1863. Letter from Washington Hunt to New York Governor Horatio Seymour, several pages long and in black handwriting. This piece discusses the Chicago Canal Convention of 1863 and the Erie Canal, as well as briefly mentions the ongoing Civil War. Washington Hunt takes a grim view of the Canal Convention, stating that it is his belief that "they will propose things which the General Government has neither the financial ability or the Constitutional power to perform." He continues to write, "We have just finished the Erie Canal enlargement, it will be found sufficient for the trade in some years to come...The Canal is...the property of New York and we cannot allow other states to have any partnership in it even by implication. Let us have something that we can call our own, untouched by Federal interference." This document highlights the different political perspectives between the two politicians, as Hunt admits that he took the liberty to make these suggestions to Governor Seymour. He is particularly concerned about New York State's rights, and ends the letter with a plea to not "reduce the State to a mere satellite of the central government." Washington Hunt (August 5, 1811 - February 2, 1867) was an American lawyer and politician. In his last years, Hunt moved increasingly closer to the Democrats, endorsing his two-time opponent, Horatio Seymour for the New York gubernatorial race in 1862 and supporting George McClellan for the presidency at the 1864 Democratic National Convention. Horatio Seymour (May 31, 1810 - February 12, 1886) was an American politician. He served as Governor of New York from 1853 to 1854 and from 1863 to 1864. He was the Democratic Party nominee for president in the 1868 presidential election, won by Republican, General Ulysses S. Grant. Fascinating piece of history related to two political figures and New York Governors who opposed each other in elections more than once, but clearly had a communicative relationship. Rare and unique document. Est. \$350-700

This piece goes on to say that "The Wide Awakes have turned out this evening for drill & parade." The Wide Awakes were a youth organization and later a paramilitary organization cultivated by the Republican Party during the 1860 presidential election in the United States. The group supported Lincoln, and were used by the Lincoln campaign to spearhead large voter registration drives since they knew that new voters and young voters tend to embrace new and young parties. 460 NJ. International Mercantile Marine Co., 1916 Historic Specimen Bond from J.P. Morgan Controlled Company. New Jersey, 1916. \$5000 Specimen 6% Registered First Mortgage and Collateral Trust Sinking Fund Gold Bond, Black text with olive border and underprint, Ships in port at top center. Red specimen overprints, 00000 serial numbers, and POCs. Fine-VF condition, ABNC. The International Mercantile Marine Company, originally the International Navigation Company, was a trust formed in the early twentieth century as an attempt by J.P. Morgan to monopolize the shipping trade. IMM was founded by shipping magnates Clement Criscom of the American Line and Red Star Line, Bernard N. Baker of the Atlantic Transport Line, J. Bruce Ismay of the White Star Line, and John Ellerman of the Leyland Line. The Dominion Line was also amalgamated. The project was bankrolled by J.P. Morgan & Co., led by financier J. P. Morgan. The company also had working profit-sharing relationships with the German Hamburg-Amerika and the North German Lloyd lines. The trust caused great concern in the British shipping industry and led directly to the British government's subsidy of the Cunard Line's new ships RMS Lusitania and RMS Mauretania in an effort to compete. One of IMM's subsidiaries was the White Star Line, which owned the RMS Titanic. Analysis of financial records shows that IMM was overleveraged and suffered from inadequate cash flow that caused it to default on bond interest payments in late 1914. As a result, a "friendly" receivership was put in effect in 1915, which allowed IMM to reorganize its finances; it emerged from the receivership in 1916. This is a specimen example from that bond issue and is extremely rare and not known issued. Est. \$150-250

CONDITIONS OF SALE

THE PLACING OF A BID SHALL CONSTITUTE ACCEPTANCE OF THESE CONDITIONS OF SALE

BIDDING

1. Unless announced otherwise by the auctioneer, all bids are per lot, as numbered in the printed Catalogue. Archives International Auctions, as agent for the consignor or vendor, shall regulate the bidding and shall determine the manner in which the bidding shall be conducted. Archives International Auctions reserves the right to withdraw any lot prior to sale (without liability to any potential purchaser or agent), to re-offer any withdrawn lot, to divide a lot or to group two or more lots belonging to the same consignor or vendor, and to refuse any bid believed not made in good faith. Estimates of sales prices contained in the printed Catalogue reflect the best judgment of Archives International Auctions and are not minimum or upset prices.
2. (a) Bids shall be made in the steps set forth in paragraph 12.
(b) The highest bid acknowledged by the auctioneer shall prevail. Should a dispute arise between bidders (including a dispute between a floor bidder and the auctioneer acting on behalf of a mail bidder, consignor or vendor), the auctioneer alone shall determine who the successful bidder is and whether to reoffer the lot in dispute. Should a dispute arise after the sale, the auctioneer's sale records shall be conclusive. On all lots sold, a commission of 20%* on the hammer price is payable by the buyer to the auctioneer (*See exceptions on next page for bids on internet).
3. (a) The auctioneer reserves the right to bid on behalf of clients (and consignors or vendors) but shall not be liable for errors and omissions in executing instructions to bid, however received, and whether such errors or omissions be those of the bidder or agent or those of the auctioneer.
(b) Lots may be offered subject to a reserve price. The auctioneer may implement such reserve price by bidding on behalf of the consignor vendor.
(c) It may also be assumed that all consignors have been advanced monies against the sale of their consigned material and Archives International Auctions therefore has a security interest in the consigned material over and above the normal auction commission.
(d) Purchases made by a consignor or vendor or his agent on his own lots shall be considered as a sale subject to commissions and sales tax as applicable.
(e) Agents are responsible for the payment of the purchase price for all purchases made on behalf of their clients, unless other arrangements with the auctioneer have been confirmed in writing prior to the auction.

PAYMENT FOR PURCHASES

4. Payment for lots, including those on which opinions are desired (Condition of Sale 8), shall be as follows:
(a) Floor Bidders. Payment of the purchase price, or such part thereof as Archives International Auctions shall require, shall be made by the purchaser in cash or bank or certified check or in such other manner as Archives International Auctions may determine. The name and address of the purchaser of each lot shall be given to the auctioneer immediately following the sale of such lot.
(b) Mail Bidders. A successful mail bidder will be notified of lots purchased. Before Archives International Auctions will send such lots, payment in full must be received by Archives International Auctions within three (3) business days of receipt of the aforesaid notification by the mail bidder. However, a purchaser known to Archives International Auctions at its option may have purchases delivered or forwarded for immediate payment (by a dollar draft on a U.S. bank in the case of overseas purchasers). Mailed delivery will be to the address on the bid sheet and proof by Archives International Auctions of receipt of a sending at the advised address shall constitute delivery. All charges for handling, delivery and insurance obtained by Archives International Auctions on behalf of the purchaser shall be added to the purchase price; a minimum charge of \$10.00 will be made. Risk of loss in transit shall be on the purchaser.
5. Title shall not pass to the purchaser until full payment has been received by Archives International Auctions as agents for the consignor or vendor.

6. (a) Purchasers agree to pay for lots as specified in Condition of Sale 4 (or as the same may be modified by Condition of Sale 8), and no credit is extended; a late payment charge of 2% per month or fraction thereof shall be added if payment is not made in accordance with the aforesaid conditions.
(b) In the event that a bidder shall fail to comply with these Conditions of Sale ("Non-Complying Bidder"), then, as to any lot with respect to which such failure to comply occurs, Archives International Auctions may, in its sole discretion, re-offer such lot during the same auction or at an auction at a later time, or by private treaty at such time as Archives International Auctions, in its sole discretion, deems appropriate and the Non-Complying Bidder shall be liable for the deficiency, if any, between the hammer price and the net proceeds of a sale to a subsequent purchaser, whether at auction or by private treaty, as well as for all costs and expenses of both sales, all other charges due thereunder, including commissions with respect to both sales, whether payable to Archives International Auctions or to a third party and all incidental damages. It shall be in Archives International Auctions' sole discretion to determine whether to re-offer the lot theretofore hammered-down to a Non-Complying Bidder at the same auction, or by private treaty in due course, or at a subsequent auction conducted by Archives International Auctions. In no event shall any surplus arising from the sale of a re-offered lot be payable to a Non-Complying Bidder.
(c) A defaulting purchaser shall be deemed to have granted Archives International Auctions a security interest in property in Archives International Auctions possession owned by such purchaser. Archives International Auctions shall have all of the rights afforded a purchase money secured party under the New York or New Jersey Uniform Commercial Code with respect to such property and may apply against such obligations all monies held or received by it for the account of, or due from Archives International Auctions to such purchaser. Archives International Auctions is authorized to file a Financing Statement in order to perfect its rights as a secured party.
(d) If Archives International Auctions takes any legal steps to secure payment of a delinquent account, the defaulting purchaser shall be liable for all legal and other expenses incurred by Archives International Auctions to secure such payment, including but not limited to a reasonable allowance for attorneys' fees. For purposes of this paragraph, the term legal steps shall be deemed to include any and all consultation by Archives International Auctions with its attorneys with respect to all matters arising out of a delinquent account.
(e) Unless otherwise acceptable to Archives International Auctions, payment is to be made only in the form of cash, bank check or certified check, credit card (Visa or MasterCard only) or a bank wire transfer.

EXHIBITION AND INSPECTION OF LOTS; QUALITY AND AUTHENTICITY

7. (a) On Premises Inspection only. Ample opportunity is given for on premises inspection prior to the auction date, and, upon written request and at Archives International Auctions discretion.
(b) Each lot is sold as genuine and correctly described, based on individual description as modified by any specific notations in this Catalogue.
(c) Quality. Any lot which a purchaser considers to be incorrectly described may be returned to Archives International Auctions within two weeks of its receipt by such purchaser ("Returning Purchaser"), provided, however, that the same is received by Archives International Auctions within four weeks of the date of the auction; however, Archives International Auctions may, in its discretion, refuse acceptance of such returned lot. If an opinion of a generally recognized authority is desired, the period of time within which a lot must be received by Archives International Auctions will be extended in accordance with Condition of Sale 8. In the event that a dispute cannot be resolved by reference to a generally recognized authority, and Archives International Auctions thereupon undertakes to re-offer the lot with a description identical to the description disputed, the Returning Purchaser shall be liable for the deficiency, if any, between the proceeds of the sale to the Returning Purchaser and the proceeds of a sale to a subsequent purchaser, as well as for all costs and expenses of the re-sale, including commission, and all incidental damages. Any lot, the description of which is disputed, must be returned in-

The following lots are not returnable except at the discretion of Archives International Auctions: (i) lots from purchasers who attended the exhibition of the lots; (ii) lots examined by postal viewers; (iii) lots on account of their appearance, if they are illustrated in this Catalogue; or (iv) lots described as having repairs, defects or faults for any reason.

- (d) Authenticity. Any lot which is declared otherwise than genuine by a generally recognized authority is returnable, provided such lot is received by Archives International Auctions within four weeks of the date of the auction. Proof that a generally recognized authority declines to express an opinion is normally grounds for the return of a lot.
- (e) Expenses incurred a purchaser in the submission and the return of a lot under Conditions of Sale 7 are not subject to refund.

SALES TAX

8. Unless presentation of satisfactory proof that it is exempted by law, a purchaser shall pay to Archives International Auctions New Jersey or New York State and local sales taxes, or any compensating use taxes of any other State claiming jurisdiction. A purchaser shall indemnify Archives International Auctions and hold it harmless of and from any claims of any jurisdiction for sales taxes relating to the purchase of articles at the auction, whenever the same may arise.
