INTRODUCTION TO THE SALE

FOREWORD

Archives International Auctions is proud to announce its 107th auction, to be held on October 29th, 2025. This highly anticipated sale features an extraordinary selection of rare and historic items, many of which have not been available to collectors for decades—if ever before.

Among the many highlights is a spectacular U.S. \$5,000 Federal Reserve Note, a rare 1857 China Board of Revenue 5 Taels Banknote, and the debut of the Silverton Collection of Colorado and Western Mining Stocks and Bonds, an impressive group featuring dozens of Colorado and Western certificates, including seldom-seen territorial issues from Colorado, Utah, Idaho, and Nevada. Additional notable items include an 1874 American Submarine Tunnel Company I/U Stock Certificate, and a strong China section with over 40 lots of banknotes, bonds, fiscal documents, and coins, many being offered publicly for the first time.

This historic auction promises to captivate collectors, dealers, and investors alike, presenting a rare opportunity to acquire significant pieces of numismatic and financial history.

We are also pleased to announce that our 108th auction is scheduled for mid-to-late November 2025, and we are now actively seeking consignments for our Winter and Spring 2026 auctions. Upcoming sales will feature U.S. and World Banknotes, Coins, Scripophily, Security Printing Ephemera, and other desirable numismatic and philatelic items. Please contact us to discuss how you may participate in future events.

On behalf of the entire Archives International Auctions team, we thank you for your continued participation and enthusiasm. We hope our auctions add a bit of enjoyment and discovery to your collecting journey.

Best of luck

Bob Schwartz

KEY TO CATALOGING

DEFINITIONS

SPECIMEN: An archival printing sample of a finished item, such as a stock certificate, banknote or stamp that is printed usually with "000000" serial numbers and may have "Specimen" overprinted on it and be punch canceled to invalidate it and prevent its use surreptitiously. Specimens were kept for a number of reasons, though usually as samples to give out to prospective customers to give them an idea of the type and quality of the work that the printing company was capable of doing. Usually specimens were printed in limited amounts at the beginning of a printing run to evaluate the quality of the printing work and color combinations at an early stage, rather than have an entire production run rejected due to some minor flaw that was not found until after the printing was completed. A specimen is similar to the final product, printed on the same paper and in the same color.

COLOR TRIAL SPECIMENS: Sometimes specimens would be printed in numerous color combinations not used on the final note for evaluation before a final printing. These are usually extremely rare.

PROOF: An initial pull or impression from a plate or die for evaluation of text, vignette, engraving, and esthetic appeal and to check for any errors or faults. These were usually printed on india paper mounted on card or printed on some form of paper or light card. The amount of proofs printed is usually extremely small and usually number only a handful. Proofs allowed the printing company to evaluate the quality of the item being printed without having to go to the expense of making final plates and finding out small errors that could have been repaired at an earlier stage. Usually, proofs are single impressions of banknotes, stamps, vignettes, etc. Anything that was made into a plate, such as a sheet of 100 stamps could have had proof impressions taken from it. These would be called plate proofs (for multiple images) versus die proofs (usually of a single or small amount of images).

COLOR TRIAL PROOF: A proof printed in a color other than the issued color.

ESSAY SPECIMEN or PROOF: A proposed design that was not used but may be similar or even totally different to a final approved design. An artist, engraver or company may have proposed a number of different designs and color combinations to a client for his approval. If a design is rejected and never used, it could be called an essay.

PRODUCTION MATERIAL: Material found in files used in the production of security printed documents, banknotes, stamps and such. It may include correspondence, photographs, artwork, and signature samples, samples of other printed items that are marked up with corrections as well as proofs, specimens, essays, models, mockups and issued final items.

MODEL: A proposed or final design that may include original artwork, pieces of design elements such as borders, titles, vignettes, corporate seals, undertints and possibly portions of photographs. Before an engraved item was made, a design had to be decided on. This portion of the design process allowed for the artistic skills of the engraver or design department to be exhibited. Before the "digital age", banknote engravers and designers would cut up portions of other engraved items and re-apply them in a different form or design to come up with a unique new stamp, banknote or certificate. Often, all new engravings or "vignettes" of people or scenes would be engraved first to include in the new "work of art", and other times, portions of different completed items would be "borrowed" to use on a newly designed item. All models are rare and almost all of them are unique.

Loan certificate for £35.17s issued to Elizabeth Edwards for the use and service of the State of Massachusetts-Bay, promising repayment with interest at six percent per annum, due March 1, 1781. Printed in black on laid paper with ornate floral border and Massachusetts state seal at upper left, showing an American Indian with bow and arrow encircled by the motto *Ense petit placidam sub libertate quietem* ("By the sword we seek peace, but peace only under liberty"). Bold manuscript entries fill in the recipient, amount, and date; signed at bottom by Treasurer Henry Gardner, with additional committee signatures including I. Scollay, Ezekiel Price, and P. Boyer. The reverse bears docketing notations regarding consolidation in December 1781, referencing Elizabeth Edwards again. This historic Revolutionary War fiscal document represents Massachusetts' efforts to finance the war against Great Britain through public loans, directly connecting to the financing of the Revolution. - 155 MA. United States Loan Office Certificate, State of Massachusetts, 1791, 1/C Registered Bond Signed by U.S. Constitution signer.** United States Loan Office, Massachusetts, December 17th, 1791, Registered Bond for \$633.19 issued to Samuel Dexter Jr. of Charlestown, Esq. The certificate is printed in black with left border design incorporating the federal eagle shield and a large "B" counterfoil, with ornate engraved frame. Manuscript entries fill in the date, amount, and payee, noting interest at six percent per annum beginning January 1st, 1790, in accordance with the Act of August 4, 1790, which authorized Alexander Hamilton's funding plan to consolidate Revolutionary War debts under the new federal government. Boldly signed by Nathaniel Gorham as Commissioner of Loans for Massachusetts, a significant political figure and signer of the U.S. Constitution. A circular punch cancellation is present at center, with strong manuscript signatures and minimal wear. These early federal bonds are among the earliest debt instruments issued by the United States following ratification of the Constitution. Massachusetts Loan Office certificates represent the assumption of Revolutionary War debt into the funded national debt system designed by Treasury Secretary Alexander Hamilton, establishing U.S. credit at home and abroad. The named payee, Samuel Dexter Jr. (1761-1816), would later become a U.S. Senator from Massachusetts and serve as both Secretary of War and Secretary of the Treasury under Presidents John Adams and Thomas Jefferson. All have black text and black borders, are I/C, with a large POC at center. Fine condition. 3 pieces. After the charter for the First Bank of the United States expired in 1811, Stephen Girard purchased most of its stock and its facilities on South Third Street in Philadelphia, then reorganized it under his direct personal control. Girard's Bank was a principal source of government credit during the War of 1812. Towards the end of the war, when the financial credit of the U.S. government was at its lowest, Girard placed nearly all of his resources at the disposal of the government and underwrote up to 95 percent of the war loan issue, which enabled the United States to carry on the war. Upon his death in 1831, his own bank passed to a trust according to his will. Merchants of the city chartered the Girard Bank to buy the banking assets from the trust and carry on the business. After the passage of the National Banking Act, the bank reorganized in 1863 as Girard National Bank. The bank was acquired by Mellon Bank in 1983 and then, two decades later, by Citizens Bank. - 313 NY. Electric Bond & Share Co., 1960s <100 Shrs Specimen Stock Cert., VF-XF ABN NY. Electric Bond & Share Co., 1960s <100 Shrs Specimen Stock Cert., VF-XF ABN. The Electric Bond and Share Company (Ebasco) was a United States electric utility holding company organized by General Electric. It was forced to divest its holding companies and reorganize due to the passage of the Public Utility Holding Company Act of 1935. Following the passage of the Act, the U.S. Securities and Exchange Commission (SEC) selected the largest of the U.S. holding companies, Ebasco to be the test case of the law before the U.S. Supreme Court. The court case known as Securities and Exchange Commission v. Electric Bond and Share company was settled in favor of the SEC on March 28th 1938. It took twenty-five years of legal action by the SEC to break up Ebasco and the other major U.S. electric holding companies until they conformed with the 1935 act. It was allowed to retain control of its foreign electric power holding company known as the American & Foreign Power Company (A&FP). After its reorganization, it became an investment company, but soon turned into a major designer and engineer of both fossil fuel and nuclear power electric generation facilities. Its involvement in the 1983 financial collapse of the Washington Public Power Supply System's five nuclear reactors led to Ebasco's demise because of the suspension of nuclear power orders and lawsuits that included numerous asbestos claims. The U.S. nuclear industry stopped all construction of new facilities following the 1979 nuclear meltdown at Three Mile Island, going into decline because of radiation safety concerns and major construction cost overruns. - 345 Crazy Eddie, 1986 Specimen Bond "Eddie Anton" Scam company.** 1986. \$ Odd. Specimen stock certificate. 6% Due 2011. Pin punch "Specimen - 06-26-86". Blue border. Choice uncirculated. In 1989, the Securities and Exchange Commission filed a civil action against Crazy Eddie founder Eddie Antar and a group of former executives, accusing them of manipulating the value of the company's stock by overstating profits and sales in financial reports. The complaint alleged that Antar, members of his family, and company executives engaged in securities fraud and insider trading from the time the company first went public in 1985 until 1989. Antar, the complaint charged, made over \$60 million from the conspiracy, selling off stock just before the real results of Crazy Eddie's evidently at best marginally profitable operations became public. In 1989 the chain suffered a major scandal when Eddie Antar and his family were accused (and eventually convicted) of "cooking the books" in order to skim money and inflate inventory. Antar was found to have sold used electronics as new, committed insurance fraud, faked inventory, and skimmed most of the cash payments to avoid taxes. Having taken the company public (the stock was soon worth hundreds of millions), Antar began selling his stock and the stock price began to collapse. The firm was bought in a hostile takeover by another company, but the buyers were quick to find that some \$80 million in inventory did not exist. Antar fled to Israel using the name David Cohen, where he lived until 1994 when he was extradited back to the United States. He was subsequently sentenced to eight years in jail, ordered to pay over \$150 million in fines and also owes more than a billion dollars from civil suits. Extremely rare stock that is "INSAAAANE!!!" SC-USBNC. Est. \$120-180

- 378 Arizona Territory. The Gold Mining Co., 1888, I/U Stock Certificate**
Rarity Arizona Territory, (Inc. in West Virginia with offices in Washington, D.C.), 1888. 1000 Shares, I/U Capital Stock Certificate, Green printing with gold underprint, Mountain view of Arizona at top right corner and map of Arizona as underprint, S/N 599, VF to VF+ condition, Printed by A. Gadney. The Muni Mountain district is located on the slopes of the Grand Wash Cliffs in the Music Mountains. Here a few prospects were located in the mid-1880s within a limited mineralized area. The Gold Mining Company was the most important of the prospecting groups, working the Ellen Jane and Tommanotto. The work performed by this company appears to be of a prospecting nature. When they were reorganized in 1892, the new venture mined and processed 700 tons of ore at their mill. The mine was worked by lessees through the first part of the twentieth century until 1915 when the Lucknow and Music Mining Co. began further prospecting after tying up all the good properties in the district. The map and vignettes on this certificate tell all the story. The upper right corner of the certificate has a vignette drawing in gold of the mine site. The underprint of the entire certificate is a map showing the location of the mine and its relationship to neighboring mountains, railroads, stage routes, and mining camps. The Ellen Jane mine was accessed from a stage coach US Mail route that ran northwest of Hackberry, a community southeast of the Ellen Jane. The Ellen Jane and Tommanotto mines are nestled in the Music Mountains below Shipman Peak. The Atlantic & Pacific Railroad line is shown on the map as well, which stretches from south of Mineral Park eastward through Hualapai, Hackberry, and Truxton. The company was unable to produce significant quantities of precious metals to keep afloat. This extremely rare, extremely fine certificate was used for the cover of Garbani's book because of its unusually attractive and artistic art work. Few certificates in America display this degree of artisanship..... Est. \$800-1,600

- 448 Nevada Territory, Strawberry Mining Co., 1862, I/U Stock Certificate. Aurora, Esmeralda District, Nevada Territory, 1863. 10 Shares I/U Capital Stock Certificate, Black printing with bee hive at top center under company title and Native American woman with bow and arrow at left, S/N 14, VF condition with light stains at center. Towne & Bacon, Printers. The Strawberry Mining Company was incorporated in 1862 during the early mining boom in Nevada Territory, just a year after the discovery of the rich Comstock Lode transformed the region into one of the most important mining frontiers in the United States. The company took its name from Strawberry Valley, a district known for gold and silver prospects northeast of Carson City. Like many ventures of the time, it was organized to capitalize on the rush of investment capital pouring into Nevada following the Comstock excitement. While the Strawberry Mining Company itself left little trace of long-term production, it represents the wave of speculative enterprises that defined early Nevada mining history and helped fuel the rapid economic development of the territory prior to its statehood in 1864. CONDITIONS OF SALE

THE PLACING OF A BID SHALL CONSTITUTE ACCEPTANCE OF THESE CONDITIONS OF SALE

BIDDING

1. Unless announced otherwise by the auctioneer, all bids are per lot, as numbered in the printed Catalogue. Archives International Auctions, as agent for the consignor or vendor, shall regulate the bidding and shall determine the manner in which the bidding shall be conducted. Archives International Auctions reserves the right to withdraw any lot prior to sale (without liability to any potential purchaser or agent), to re-offer any withdrawn lot, to divide a lot or to group two or more lots belonging to the same consignor or vendor, and to refuse any bid believed not made in good faith. Estimates of sales prices contained in the printed Catalogue reflect the best judgment of Archives International Auctions and are not minimum or upset prices.
2. (a) Bids shall be made in the steps set forth in paragraph 12.
(b) The highest bid acknowledged by the auctioneer shall prevail. Should a dispute arise between bidders (including a dispute between a floor bidder and the auctioneer acting on behalf of a mail bidder, consignor or vendor), the auctioneer alone shall determine who the successful bidder is and whether to reoffer the lot in dispute. Should a dispute arise after the sale, the auctioneer's sale records shall be conclusive. On all lots sold, a commission of 22%* on the hammer price is payable by the buyer to the auctioneer (*See exceptions on next page for bids on internet).
3. (a) The auctioneer reserves the right to bid on behalf of clients (and consignors or vendors) but shall not be liable for errors and omissions in executing instructions to bid, however received, and whether such errors or omissions be those of the bidder or agent or those of the auctioneer.
(b) Lots may be offered subject to a reserve price. The auctioneer may implement such reserve price by bidding on behalf of the consignor vendor.
(c) It may also be assumed that all consignors have been advanced monies against the sale of their consigned material and Archives International Auctions therefore has a security interest in the consigned material over and above the normal auction commission.
(d) Purchases made by a consignor or vendor or his agent on his own lots shall be considered as a sale subject to commissions and sales tax as applicable.
(e) Agents are responsible for the payment of the purchase price for all purchases made on behalf of their clients, unless other arrangements with the auctioneer have been confirmed in writing prior to the auction.

PAYMENT FOR PURCHASES

4. Payment for lots, including those on which opinions are desired (Condition of Sale 8), shall be as follows:
(a) Floor Bidders. Payment of the purchase price, or such part thereof as Archives International Auctions shall require, shall be made by the purchaser in cash or bank or certified check or in such other manner as Archives International Auctions may determine. The name and address of the purchaser of each lot shall be given to the auctioneer immediately following the sale of such lot.
(b) Mail Bidders. A successful mail bidder will be notified of lots purchased. Before Archives International Auctions will send such lots, payment in full must be received by Archives International Auctions within three (3) business days of receipt of the aforesaid notification by the mail bidder. However, a purchaser known to Archives International Auctions at its option may have purchases delivered or forwarded for immediate payment (by a dollar draft on a U.S. bank in the case of overseas purchasers). Mailed delivery will be to the address on the bid sheet and proof by Archives International Auctions of receipt of a sending at the advised address shall constitute delivery. All charges for handling, delivery and insurance obtained by Archives International Auctions on behalf of the purchaser shall be added to the purchase price; a minimum charge of \$10.00 will be made. Risk of loss in transit shall be on the purchaser.
5. Title shall not pass to the purchaser until full payment has been received by Archives International Auctions as agents for the consignor or vendor.

6. (a) Purchasers agree to pay for lots as specified in Condition of Sale 4 (or as the same may be modified by Condition of Sale 8), and no credit is extended; a late payment charge of 2% per month or fraction thereof shall be added if payment is not made in accordance with the aforesaid conditions.
(b) In the event that a bidder shall fail to comply with these Conditions of Sale ("Non-Complying Bidder"), then, as to any lot with respect to which such failure to comply occurs, Archives International Auctions may, in its sole discretion, re-offer such lot during the same auction or at an auction at a later time, or by private treaty at such time as Archives International Auctions, in its sole discretion, deems appropriate and the Non-Complying Bidder shall be liable for the deficiency, if any, between the hammer price and the net proceeds of a sale to a subsequent purchaser, whether at auction or by private treaty, as well as for all costs and expenses of both sales, all other charges due thereunder, including commissions with respect to both sales, whether payable to Archives International Auctions or to a third party and all incidental damages. It shall be in Archives International Auctions' sole discretion to determine whether to re-offer the lot theretofore hammered-down to a Non-Complying Bidder at the same auction, or by private treaty in due course, or at a subsequent auction conducted by Archives International Auctions. In no event shall any surplus arising from the sale of a re-offered lot be payable to a Non-Complying Bidder.
(c) A defaulting purchaser shall be deemed to have granted Archives International Auctions a security interest in property in Archives International Auctions possession owned by such purchaser. Archives International Auctions shall have all of the rights afforded a purchase money secured party under the New York or New Jersey Uniform Commercial Code with respect to such property and may apply against such obligations all monies held or received by it for the account of, or due from Archives International Auctions to such purchaser. Archives International Auctions is authorized to file a Financing Statement in order to perfect its rights as a secured party.
(d) If Archives International Auctions takes any legal steps to secure payment of a delinquent account, the defaulting purchaser shall be liable for all legal and other expenses incurred by Archives International Auctions to secure such payment, including but not limited to a reasonable allowance for attorneys' fees. For purposes of this paragraph, the term legal steps shall be deemed to include any and all consultation by Archives International Auctions with its attorneys with respect to all matters arising out of a delinquent account.
(e) Unless otherwise acceptable to Archives International Auctions, payment is to be made only in the form of cash, bank check or certified check, credit card (Visa or MasterCard only) or a bank wire transfer.

EXHIBITION AND INSPECTION OF LOTS; QUALITY AND AUTHENTICITY

7. (a) On Premises Inspection only. Ample opportunity is given for on premises inspection prior to the auction date, and, upon written request and at Archives International Auctions discretion.
(b) Each lot is sold as genuine and correctly described, based on individual description as modified by any specific notations in this Catalogue.
(c) Quality. Any lot which a purchaser considers to be incorrectly described may be returned to Archives International Auctions within two weeks of its receipt by such purchaser ("Returning Purchaser"), provided, however, that the same is received by Archives International Auctions within four weeks of the date of the auction; however, Archives International Auctions may, in its discretion, refuse acceptance of such returned lot. If an opinion of a generally recognized authority is desired, the period of time within which a lot must be received by Archives International Auctions will be extended in accordance with Condition of Sale 8. In the event that a dispute cannot be resolved by reference to a generally recognized authority, and Archives International Auctions thereupon undertakes to re-offer the lot with a description identical to the description disputed, the Returning Purchaser shall be liable for the deficiency, if any, between the proceeds of the sale to the Returning Purchaser and the proceeds of a sale to a subsequent purchaser, as well as for all costs and expenses of the re-sale, including commission, and all incidental damages. Any lot, the description of which is disputed, must be returned in-

The following lots are not returnable except at the discretion of Archives International Auctions: (i) lots from purchasers who attended the exhibition of the lots; (ii) lots examined by postal viewers; (iii) lots on account of their appearance, if they are illustrated in this Catalogue; or (iv) lots described as having repairs, defects or faults for any reason.

- (d) Authenticity. Any lot which is declared otherwise than genuine by a generally recognized authority is returnable, provided such lot is received by Archives International Auctions within four weeks of the date of the auction. Proof that a generally recognized authority declines to express an opinion is normally grounds for the return of a lot.

- (e) Expenses incurred a purchaser in the submission and the return of a lot under Conditions of Sale 7 are not subject to refund.

SALES TAX

8. Unless presentation of satisfactory proof that it is exempted by law, a purchaser shall pay to Archives International Auctions New Jersey or New York State and local sales taxes, or any compensating use taxes of any other State claiming jurisdiction. A purchaser shall indemnify Archives International Auctions and hold it harmless of and from any claims of any jurisdiction for sales taxes relating to the purchase of articles at the auction, whenever the same may arise.
