INTRODUCTION TO THE SALE

FOREWORD

On behalf of the Archives International Auctions team, I am pleased to welcome you to our 109th auction and our eleventh and final event of 2025. This sale features 684 lots of notable U.S., Chinese, and worldwide banknotes; scripophily; coins; U.S. colonial and fiscal documents; historic ephemera; and security printing material. Many items originate from long-standing collections and estates, with numerous pieces appearing at auction for the first time.

This one-day auction offers a broad and diverse selection: 341 lots of world banknotes; 16 lots of U.S. and world coins; 38 lots of U.S. colonial, obsolete, and Confederate notes; more than 50 lots of U.S. large and small type notes, including national banknotes, Federal Reserve notes, legal tenders, and silver certificates; over 78 lots of historic and security printing ephemera, traveler's checks, stamps, and postal history; and concluding with 157 lots of U.S. and world scripophily, highlighted by railroads, mining, banking and finance, and a significant offering of Colorado and Western mining certificates. Featured highlights include a superb Mexico, Estado de Chihuahua, Tesoria General 1890 Specimen "Circulating Baby Bond"; a rare 1873 California Amador Canal & Mining Company \$5 issued obsolete scrip; and an impressive selection of U.S. Large and Small Type notes and National Banknotes led by a Series 1934A \$1000 bill. Additional notable items include two different Reno, Nevada Series 1929 \$5 Type 2 nationals, a 1902 Plain Back \$10 from the National Bank of Gaithersburg, Maryland, and a wide range of small and large type nationals from Maryland and New York. The scripophily section includes 16 Colorado Territory certificates, more than 60 mining certificates from two major collections, over 40 railroad pieces, and dozens of other scarce and desirable offerings. Historic and security printing ephemera includes everything from railroad and advertising ephemera to postcards, proof and specimen documents, vignettes, and numerous other interesting items.

Our 110th auction is scheduled for mid to late January and will feature additional selections of banknotes, scripophily, coins, ephemera, and other desirable items from major estates, including many historic bonds and shares not seen in decades. We are currently seeking consignments for our Winter and Spring 2026 sales, which will include diverse offerings of U.S. and world banknotes, coins, scripophily, historic ephemera, autographs, stamps, postal history, and related material.

The entire Archives International Auctions team extends our sincere thanks for your continued interest and support. We hope this auction brings you enjoyment and new additions to your collection, and we wish you continued health, happiness, and success.

Best of luck

Bob Schwartz

KEY TO CATALOGING

DEFINITIONS

SPECIMEN: An archival printing sample of a finished item, such as a stock certificate, banknote or stamp that is printed usually with "000000" serial numbers and may have "Specimen" overprinted on it and be punch canceled to invalidate it and prevent its use surreptitiously. Specimens were kept for a number of reasons, though usually as samples to give out to prospective customers to give them an idea of the type and quality of the work that the printing company was capable of doing. Usually specimens were printed in limited amounts at the beginning of a printing run to evaluate the quality of the printing work and color combinations at an early stage, rather than have an entire production run rejected due to some minor flaw that was not found until after the printing was completed. A specimen is similar to the final product, printed on the same paper and in the same color.

COLOR TRIAL SPECIMENS: Sometimes specimens would be printed in numerous color combinations not used on the final note for evaluation before a final printing. These are usually extremely rare.

PROOF: An initial pull or impression from a plate or die for evaluation of text, vignette, engraving, and esthetic appeal and to check for any errors or faults. These were usually printed on india paper mounted on card or printed on some form of paper or light card. The amount of proofs printed is usually extremely small and usually number only a handful. Proofs allowed the printing company to evaluate the quality of the item being printed without having to go to the expense of making final plates and finding out small errors that could have been repaired at an earlier stage. Usually, proofs are single impressions of banknotes, stamps, vignettes, etc. Anything that was made into a plate, such as a sheet of 100 stamps could have had proof impressions taken from it. These would be called plate proofs (for multiple images) versus die proofs (usually of a single or small amount of images).

COLOR TRIAL PROOF: A proof printed in a color other than the issued color.

ESSAY SPECIMEN or PROOF: A proposed design that was not used but may be similar or even totally different to a final approved design. An artist, engraver or company may have proposed a number of different designs and color combinations to a client for his approval. If a design is rejected and never used, it could be called an essay.

PRODUCTION MATERIAL: Material found in files used in the production of security printed documents, banknotes, stamps and such. It may include correspondence, photographs, artwork, and signature samples, samples of other printed items that are marked up with corrections as well as proofs, specimens, essays, models, mockups and issued final items.

MODEL: A proposed or final design that may include original artwork, pieces of design elements such as borders, titles, vignettes, corporate seals, undertints and possibly portions of photographs. Before an engraved item was made, a design had to be decided on. This portion of the design process allowed for the artistic skills of the engraver or design department to be exhibited. Before the "digital age", banknote engravers and designers would cut up portions of other engraved items and re-apply them in a different form or design to come up with a unique new stamp, banknote or certificate. Often, all new engravings or "vignettes" of people or scenes would be engraved first to include in the new "work of art", and other times, portions of different completed items would be "borrowed" to use on a newly designed item. All models are rare and almost all of them are unique.

- 365 San Francisco, CA., Amador Canal & Mining Company \$5 Issued Obsolete Banknote ca.1870s (1873)** San Francisco, California. Amador Canal & Mining Co., ca. 1870s, \$5 Scrip. San Francisco, California; extremely rare private issue payable for water usage by the bearer; note states "an equivalent for a Five Dollar Gold Note," referencing the National Gold Bank Notes then in circulation; regarded as among the closest forms to a true obsolete note from California; a seldom-seen and historically significant issue, Amador County, located along California's central Mother Lode, was the state's second largest gold-producing region, home to the towns of Jackson, Sutter Creek, and Amador City, and to major operations such as the Kennedy, Bunker Hill, and Keystone mines. The Amador Canal & Mining Company originated from the Sutter Canal & Mining Company in 1870 after acquiring the Butte Ditch Company's water rights. Reorganized in 1873, it completed a 35-mile canal supplying water and motive power to nearby mills and hoisting works, greatly reducing mining costs. U.S. Mineral Commissioner Ross Raymond described it in 1874 as "one of the most important" regional enterprises. The company contracted with leading mines such as the Amador, Oneida, Maxwell, and Keystone. Its scrip notes bear the signatures of President J.S. Emery and Secretary V.N. Van Brunt. The date and bottom signature of Van Brunt is faded on this note, but the date appears to be 1873. This note was last auctioned and sold in the Heritage, September 9, 2004 auction for \$690.00. This is the first time this note has been offered since that auction almost 25 years ago. (from the Lowell Horwedel Collection). Est. \$2500-4000

Each note promises payment with 1% monthly interest, pursuant to a vote of the Society on February 22, 1877, and is signed by the secretary and president with "PAID" noted at bottom. AU to Uncirculated condition. (3). Founded in 1877, the Society of Pacific Coast Pioneers was created to honor the early settlers who helped shape the western territories before statehood. Its members included miners, merchants, and frontiersmen who took part in the Gold Rush and early development of Nevada and California. The organization preserved pioneer history through reunions and records celebrating the region's earliest builders and explorers. These denominated bearer notes, \$5, \$10, and \$20, represents an early private obligation of the Society of Pacific Coast Pioneers, payable in gold coin of the United States three years after date with interest at one percent per month. Though formally promissory notes, their printed denomination, payable-to-bearer clause, and engraved presentation suggest they may also have circulated locally among Society members and Virginia City merchants as a form of short-term, interest-bearing scrip. The Society, founded to honor and assist early settlers of the Pacific Coast, issued these notes pursuant to a vote of the organization dated February 22, 1877, likely as part of a fundraising or membership-financing effort. The Turnagain Arm Gold Mining Company was organized in 1905-1906 during the height of activity in Alaska's Hope-Sunrise district along the Kenai Peninsula. This region had first seen prospectors in the 1890s after discoveries on Resurrection and Sixmile Creeks, leading to a short-lived but vigorous gold rush. The company issued both stock and gold bonds to finance development, typical of Alaska ventures that relied on outside investment to work remote placer and lode claims draining into Turnagain Arm. While records of sustained production are scarce, its securities capture a vivid moment in Alaska's early mining history, when hopeful investors backed enterprises in one of the Territory's most famous districts. The Turnagain Arm camps remained active into the 1910s, with placer mining continuing intermittently until curtailed by World War II Est. \$150-300

CONDITIONS OF SALE

THE PLACING OF A BID SHALL CONSTITUTE ACCEPTANCE OF THESE CONDITIONS OF SALE

BIDDING

1. Unless announced otherwise by the auctioneer, all bids are per lot, as numbered in the printed Catalogue. Archives International Auctions, as agent for the consignor or vendor, shall regulate the bidding and shall determine the manner in which the bidding shall be conducted. Archives International Auctions reserves the right to withdraw any lot prior to sale (without liability to any potential purchaser or agent), to re-offer any withdrawn lot, to divide a lot or to group two or more lots belonging to the same consignor or vendor, and to refuse any bid believed not made in good faith. Estimates of sales prices contained in the printed Catalogue reflect the best judgment of Archives International Auctions and are not minimum or upset prices.
2. (a) Bids shall be made in the steps set forth in paragraph 12.
(b) The highest bid acknowledged by the auctioneer shall prevail. Should a dispute arise between bidders (including a dispute between a floor bidder and the auctioneer acting on behalf of a mail bidder, consignor or vendor), the auctioneer alone shall determine who the successful bidder is and whether to reoffer the lot in dispute. Should a dispute arise after the sale, the auctioneer's sale records shall be conclusive. On all lots sold, a commission of 22%* on the hammer price is payable by the buyer to the auctioneer (*See exceptions on next page for bids on internet).
3. (a) The auctioneer reserves the right to bid on behalf of clients (and consignors or vendors) but shall not be liable for errors and omissions in executing instructions to bid, however received, and whether such errors or omissions be those of the bidder or agent or those of the auctioneer.
(b) Lots may be offered subject to a reserve price. The auctioneer may implement such reserve price by bidding on behalf of the consignor vendor.
(c) It may also be assumed that all consignors have been advanced monies against the sale of their consigned material and Archives International Auctions therefore has a security interest in the consigned material over and above the normal auction commission.
(d) Purchases made by a consignor or vendor or his agent on his own lots shall be considered as a sale subject to commissions and sales tax as applicable.
(e) Agents are responsible for the payment of the purchase price for all purchases made on behalf of their clients, unless other arrangements with the auctioneer have been confirmed in writing prior to the auction.

PAYMENT FOR PURCHASES

4. Payment for lots, including those on which opinions are desired (Condition of Sale 8), shall be as follows:
 - (a) Floor Bidders. Payment of the purchase price, or such part thereof as Archives International Auctions shall require, shall be made by the purchaser in cash or bank or certified check or in such other manner as Archives International Auctions may determine. The name and address of the purchaser of each lot shall be given to the auctioneer immediately following the sale of such lot.
 - (b) Mail Bidders. A successful mail bidder will be notified of lots purchased. Before Archives International Auctions will send such lots, payment in full must be received by Archives International Auctions within three (3) business days of receipt of the aforesaid notification by the mail bidder. However, a purchaser known to Archives International Auctions at its option may have purchases delivered or forwarded for immediate payment (by a dollar draft on a U.S. bank in the case of overseas purchasers). Mailed delivery will be to the address on the bid sheet and proof by Archives International Auctions of receipt of a sending at the advised address shall constitute delivery. All charges for handling, delivery and insurance obtained by Archives International Auctions on behalf of the purchaser shall be added to the purchase price; a minimum charge of \$10.00 will be made. Risk of loss in transit shall be on the purchaser.
5. Title shall not pass to the purchaser until full payment has been received by Archives International Auctions as agents for the consignor or vendor.

6. (a) Purchasers agree to pay for lots as specified in Condition of Sale 4 (or as the same may be modified by Condition of Sale 8), and no credit is extended; a late payment charge of 2% per month or fraction thereof shall be added if payment is not made in accordance with the aforesaid conditions.
(b) In the event that a bidder shall fail to comply with these Conditions of Sale ("Non-Complying Bidder"), then, as to any lot with respect to which such failure to comply occurs, Archives International Auctions may, in its sole discretion, re-offer such lot during the same auction or at an auction at a later time, or by private treaty at such time as Archives International Auctions, in its sole discretion, deems appropriate and the Non-Complying Bidder shall be liable for the deficiency, if any, between the hammer price and the net proceeds of a sale to a subsequent purchaser, whether at auction or by private treaty, as well as for all costs and expenses of both sales, all other charges due thereunder, including commissions with respect to both sales, whether payable to Archives International Auctions or to a third party and all incidental damages. It shall be in Archives International Auctions' sole discretion to determine whether to re-offer the lot theretofore hammered-down to a Non-Complying Bidder at the same auction, or by private treaty in due course, or at a subsequent auction conducted by Archives International Auctions. In no event shall any surplus arising from the sale of a re-offered lot be payable to a Non-Complying Bidder.
(c) A defaulting purchaser shall be deemed to have granted Archives International Auctions a security interest in property in Archives International Auctions possession owned by such purchaser. Archives International Auctions shall have all of the rights afforded a purchase money secured party under the New York or New Jersey Uniform Commercial Code with respect to such property and may apply against such obligations all monies held or received by it for the account of, or due from Archives International Auctions to such purchaser. Archives International Auctions is authorized to file a Financing Statement in order to perfect its rights as a secured party.
(d) If Archives International Auctions takes any legal steps to secure payment of a delinquent account, the defaulting purchaser shall be liable for all legal and other expenses incurred by Archives International Auctions to secure such payment, including but not limited to a reasonable allowance for attorneys' fees. For purposes of this paragraph, the term legal steps shall be deemed to include any and all consultation by Archives International Auctions with its attorneys with respect to all matters arising out of a delinquent account.
(e) Unless otherwise acceptable to Archives International Auctions, payment is to be made only in the form of cash, bank check or certified check, credit card (Visa or MasterCard only) or a bank wire transfer.

EXHIBITION AND INSPECTION OF LOTS; QUALITY AND AUTHENTICITY

7. (a) On Premises Inspection only. Ample opportunity is given for on premises inspection prior to the auction date, and, upon written request and at Archives International Auctions discretion.
(b) Each lot is sold as genuine and correctly described, based on individual description as modified by any specific notations in this Catalogue.
(c) Quality. Any lot which a purchaser considers to be incorrectly described may be returned to Archives International Auctions within two weeks of its receipt by such purchaser ("Returning Purchaser"), provided, however, that the same is received by Archives International Auctions within four weeks of the date of the auction; however, Archives International Auctions may, in its discretion, refuse acceptance of such returned lot. If an opinion of a generally recognized authority is desired, the period of time within which a lot must be received by Archives International Auctions will be extended in accordance with Condition of Sale 8. In the event that a dispute cannot be resolved by reference to a generally recognized authority, and Archives International Auctions thereupon undertakes to re-offer the lot with a description identical to the description disputed, the Returning Purchaser shall be liable for the deficiency, if any, between the proceeds of the sale to the Returning Purchaser and the proceeds of a sale to a subsequent purchaser, as well as for all costs and expenses of the re-sale, including commission, and all incidental damages. Any lot, the description of which is disputed, must be returned in-

tact in the condition received by the purchaser. The following lots are not returnable except at the discretion of Archives International Auctions: (i) lots from purchasers who attended the exhibition of the lots; (ii) lots examined by postal viewers; (iii) lots on account of their appearance, if they are illustrated in this Catalogue; or (iv) lots described as having repairs, defects or faults for any reason.

- (d) Authenticity. Any lot which is declared otherwise than genuine by a generally recognized authority is returnable, provided such lot is received by Archives International Auctions within four weeks of the date of the auction. Proof that a generally recognized authority declines to express an opinion is normally grounds for the return of a lot.
- (e) Expenses incurred a purchaser in the submission and the return of a lot under Conditions of Sale 7 are not subject to refund.

SALES TAX

8. Unless presentation of satisfactory proof that it is exempted by law, a purchaser shall pay to Archives International Auctions New Jersey or New York State and local sales taxes, or any compensating use taxes of any other State claiming jurisdiction. A purchaser shall indemnify Archives International Auctions and hold it harmless of and from any claims of any jurisdiction for sales taxes relating to the purchase of articles at the auction, whenever the same may arise.
