THE SILVERTON COLLECTION of Colorado & Western Mining Stocks & Bonds

January 20, 2026 · River Edge, New Jersey

## INTRODUCTION TO THE SALE

---

### FOREWORD

On behalf of the entire Archives International Auctions team, it is my pleasure to welcome you to our 110th auction and our first major event of 2026. This one-day sale presents 681 carefully curated lots spanning U.S., Chinese, and worldwide banknotes; scripophily; U.S. colonial and fiscal documents; historic ephemera; and security printing material, along with additional outstanding offerings from the renowned Silverton Collection of Colorado and Western Stocks and Bonds. Many of the items featured originate from long-held private collections and estates, with a significant number making their first appearance at public auction.

The auction offers a broad and well-balanced selection across multiple collecting categories. Included are approximately 150 lots of world banknotes; 78 lots of U.S. colonial, obsolete, and early issues; more than 30 lots of U.S. small-size notes, including National Bank Notes, Federal Reserve Notes, Legal Tenders, and Silver Certificates; and over 37 lots of historic and security-printing ephemera, including traveler's checks, stamps, and postal history. The sale concludes with an impressive 370 lots of U.S. and world scripophily, with particular strength in mining, railroads, and banking and finance, highlighted by further selections from the Silverton Collection.

Among the featured highlights is an exceptional three-note specimen set from the first 1935 issue of the Bank of Canada, comprising the \$2, \$5, and \$10 English-text notes. Also offered are extremely rare National Bank of Croatia 2001 and 2002 specimen sets, including three "Top Pop" examples. Additional highlights include a striking quartet of Banco Central de México "Bono de Caja" specimen notes in 500 and 1,000 pesos; a desirable group of twelve different Louisiana and Mississippi obsolete scrip notes from an old-time collection, never previously offered at auction; and a trio of 1860s obsolete notes from The First National Oyster Bank of Monaskon, Virginia. The small-size currency section includes thirty notes, among them seven different National Bank Notes from New York. Throughout the sale are dozens of attractive banknotes, proof vignettes, production files, and security-printed sample material. Historic and security-printing ephemera ranges from railroad and advertising material to postcards, proof and specimen documents, vignettes, and related artifacts. A notable highlight is a Washington, November 16, 1863, U.S. Colored Troops Civil War officer appointment signed by Secretary of War Edwin M. Stanton. Collectors will also find an exciting and rarely offered group of Farley Special Printings, including uncut press sheets of the 1934 1¢ and 3¢ National Parks souvenir sheets, Admiral Byrd souvenir sheets, and both Chicago Century of Progress issues. These ungummed sheets, consisting of nine to twenty-five souvenir sheets per page, seldom survive intact, as many were historically cut into gutter blocks and smaller multiples.

The auction concludes with an extensive offering of automobile, banking, mining, railroad, and miscellaneous group lots. The mining section alone comprises nearly 160 lots, featuring the largest single offering of rare Western mining certificates we have ever presented, including fifteen territorial issues from Colorado, Idaho, Nevada, and Arizona, alongside sixty railroad certificates and numerous other scarce and desirable pieces.

Our 111th auction is planned for mid to late February and will feature additional selections of banknotes, scripophily, coins, ephemera, and historic bonds and shares from major estates, many unseen for decades. We are actively accepting consignments for our Winter and Spring 2026 sales.

We sincerely thank you for your continued interest and support. We hope this auction brings you both enjoyment and meaningful additions to your collection, and we wish you continued health, happiness, and success in the New Year.

Best of luck,

*Bob Schwartz*

## KEY TO CATALOGING

### DEFINITIONS

**SPECIMEN:** An archival printing sample of a finished item, such as a stock certificate, banknote or stamp that is printed usually with "000000" serial numbers and may have "Specimen" overprinted on it and be punch canceled to invalidate it and prevent its use surreptitiously. Specimens were kept for a number of reasons, though usually as samples to give out to prospective customers to give them an idea of the type and quality of the work that the printing company was capable of doing. Usually specimens were printed in limited amounts at the beginning of a printing run to evaluate the quality of the printing work and color combinations at an early stage, rather than have an entire production run rejected due to some minor flaw that was not found until after the printing was completed. A specimen is similar to the final product, printed on the same paper and in the same color.

**COLOR TRIAL SPECIMENS:** Sometimes specimens would be printed in numerous color combinations not used on the final note for evaluation before a final printing. These are usually extremely rare.

**PROOF:** An initial pull or impression from a plate or die for evaluation of text, vignette, engraving, and esthetic appeal and to check for any errors or faults. These were usually printed on India paper mounted on card or printed on some form of paper or light card. The amount of proofs printed is usually extremely small and usually number only a handful. Proofs allowed the printing company to evaluate the quality of the item being printed without having to go to the expense of making final plates and finding out small errors that could have been repaired at an earlier stage. Usually, proofs are single impressions of banknotes, stamps, vignettes, etc. Anything that was made into a plate, such as a sheet of 100 stamps could have had proof impressions taken from it. These would be called plate proofs (for multiple images) versus die proofs (usually of a single or small amount of images).

**COLOR TRIAL PROOF:** A proof printed in a color other than the issued color.

**ESSAY SPECIMEN or PROOF:** A proposed design that was not used but may be similar or even totally different to a final approved design. An artist, engraver or company may have proposed a number of different designs and color combinations to a client for his approval. If a design is rejected and never used, it could be called an essay.

**PRODUCTION MATERIAL:** Material found in files used in the production of security printed documents, banknotes, stamps and such. It may include correspondence, photographs, artwork, and signature samples, samples of other printed items that are marked up with corrections as well as proofs, specimens, essays, models, mockups and issued final items.

**MODEL:** A proposed or final design that may include original artwork, pieces of design elements such as borders, titles, vignettes, corporate seals, undertints and possibly portions of photographs. Before an engraved item was made, a design had to be decided on. This portion of the design process allowed for the artistic skills of the engraver or design department to be exhibited. Before the "digital age", banknote engravers and designers would cut up portions of other engraved items and re-apply them in a different form or design to come up with a unique new stamp, banknote or certificate. Often, all new engravings or "vignettes" of people or scenes would be engraved first to include in the new "work of art", and other times, portions of different completed items would be "borrowed" to use on a newly designed item. All models are rare and almost all of them are unique.

Description Abbreviations I/C = Issued and Cancelled; I/U = Issued and Uncancelled; POC's = Punched out cancels

Issued to mark the 1935 transition from chartered bank notes to a unified national currency, these specimens represent a cornerstone moment in Canadian monetary history. All three notes are in Choice Uncirculated condition, with excellent centering, strong eye appeal, and crisp original paper. Offered together, the group forms a highly desirable and historically important trio from the inaugural Bank of Canada series.

MISSISSIPPI

- 173 MS. The City of Natchez, 1862, Intriguing 10 Cents Issued Obsolete Scrip Note Payable in Confederate Bills Natchez, Mississippi. City of Natchez Municipal Scrip Note, Ten Cents (10 Cents). Unlisted municipal issue. Issued municipal fractional currency note payable to bearer on demand, denominated 'Ten Cents, with redemption text indicating acceptance in "Current Funds" crossed out and written in red ink "Confederate Bills", the City was under Union control in July of 1862; printed in black ink with green denomination lettering on thin paper, featuring ornate typographic borders, large "10" denomination counters, and engraved vignettes including a female allegorical figure at left and a sailing vessel at right. The note bears a handwritten serial number 136 and period manuscript signatures. The reverse is blank, as issued. The condition ranges from Choice Fine to VF condition, with folds, light soiling, and age toning consistent with circulation. Printer imprint visible at bottom margin reading Rawdon, Wright & Hatch, New York. The red manuscript alteration striking "current funds" and substituting "Confederate Bills" represents a period clarification of the redemption medium rather than a new issue. Although Natchez was under Union control in 1862, Confederate notes continued to circulate locally for everyday transactions, and existing municipal scrip was often modified by hand rather than withdrawn and reissued. Such practical manuscript changes are consistent with documented Civil War-era municipal currency practices and reflect economic conditions at the time, not political authority. Only one other note could be found offered at auction and that was in 2020 at Heritage where it sold for \$1200 + BP. Est. \$600-800

This pair represents two early Michigan financial institutions active during the state's formative economic period. The Erie & Kalamazoo Rail Road Bank, tied to Michigan's pioneering railroad line between Toledo and Adrian, reflects the transportation-driven growth of the 1830s and 1840s. The Adrian Insurance Co. operated mid-century as part of Adrian's expanding commercial base, issuing notes during a time when local insurance and banking firms frequently provided circulating currency. WASHINGTON TERRITORY

229

229 Washington Territory. Puget Sound Co-Operative Colony, ND

(1887-1904), Obsolete Scrip Note. Washington Territory, ND (1887-1904). 5 Cents Merchandise and Retail Coupon Scrip Certificate. PMG graded Choice Uncirculated 64 with comment "selvage included." This utopian experiment in collective living was formed in 1887 and attracted several hundred adherents to land that the co-operative owned in the Port Angeles area. Members were progressive advocates of labor rights and were, oddly, anti-Chinese due to the Chinese participation in the local labor market. The Panic of 1893 killed both the lumber market and this colony which was finally officially dissolved in 1904. Your cataloger believes that these notes were used by co-operative members to purchase goods manufactured by the co-operative. The 5¢ is the approximate size of a large postage stamp and is identified only by the "P.S.C.C." abbreviation. Rare Washington State Scrip note. Est. \$160-280

EPHEMERA - AUTOGRAPHS - CIVIL WAR - MILITARY  
WASHINGTON

NOVEMBER 16, 1863. A RARE AND HISTORIC CIVIL WAR OFFICER APPOINTMENT FOR THE U.S. COLORED TROOPS, SIGNED BY EDWIN M. STANTON, REFLECTING THE UNION'S EVOLVING MILITARY POLICY AND THE FEDERAL GOVERNMENT'S ROLE IN ORGANIZING AFRICAN AMERICAN REGIMENTS DURING THE WAR'S PIVOTAL MIDDLE YEARS.

273

- 273 Washington, November 16, 1863. U.S. Colored Troops – Civil War Officer Appointment Signed by Secretary of War Edwin M. Stanton. Washington, November 16, 1863. U.S. Colored Troops Civil War Officer Appointment, Official War Department printed and manuscript-completed appointment issued during the critical early months of the Union Army's expansion of African American regiments, signed by Secretary of War Edwin M. Stanton. This historic War Department printed and manuscript-completed appointment commissions a Captain in the 7th Regiment, U.S. Colored Troops, to rank from November 14, 1863, with orders to report for duty in Frederick, Maryland under the authority of the Middle Department, the Union military district overseeing Maryland and surrounding areas. Created during the rapid mobilization of African American regiments following the Emancipation Proclamation, early U.S.C.T. commissions such as this are among the most significant administrative acts of the Civil War. The document bears the bold signature of Secretary of War Edwin M. Stanton, whose rigorous administration, organizational reforms, and uncompromising enforcement of wartime policy reshaped the Union war effort and enabled the swift formation of U.S.C.T. units. The identity of the officer remains unknown due to a clerical error in which a War Department clerk inserted the word "Captain" in the space reserved for the recipient's name—an unusual but documented mistake on early U.S.C.T. appointments. Additional manuscript notations reference Capt. William Royal of the 7th U.S.C.T. and senior Middle Department officers. Light toning and minor wear consistent with age. A powerful and compelling document directly connected to the creation and administration of one of the Union Army's African American regiments. VF to XF condition. Est. \$2000-4000

## FRANCE

323

**323 France. Compagnie de Colonization Américaine, 1820, Issued Bond.** France, 1820. Large-format engraved share certificate issued by Compagnie de Colonization Américaine, representing 100 acres of land in the States of Virginia and Kentucky, with a stated value of 1,300 francs. The certificate is printed in French and is issued to a named holder, with extensive printed terms describing the company's land colonization and settlement program in the United States. The document retains full original attached dividend coupons along both margins, each coupon individually numbered and payable at the company's office in Paris, with dates printed in the 1830s to 1840s. Ornate engraved border and calligraphic title, with manuscript serial number and signatures at bottom. Condition is Choice Fine to VF condition. An impressive and visually striking example of 19th-century European investment in American land development. Issued bond from an early French private colonization enterprise formed during the Bourbon Restoration, immediately following the Napoleonic Wars. The company was organized to finance and promote French emigration, land acquisition, and agricultural settlement in North America, reflecting renewed transatlantic investment ambitions after France's loss of formal colonial control. Capital was raised through bonds and shares tied to anticipated land development, settlement revenues, and trade, rather than direct state sponsorship. Like many early 19th-century colonization ventures, the enterprise faced practical and financial obstacles, including over-optimistic projections and logistical difficulties, resulting in a relatively short operational life. Issued bonds are notably scarcer than promotional material or unissued examples, as many were redeemed, cancelled, or discarded following restructuring or failure. This piece stands as a tangible record of early international land speculation and the transition from imperial colonization to privately financed overseas development during the formative period of modern global capital markets. .... Formed in 1921 and headquartered in Munich, the Rhein-Main-Donau Aktiengesellschaft (RMD AG) was established to construct and operate a massive inland waterway system linking the Rhine, Main, and Danube Rivers, creating a navigable connection between the North Sea and the Black Sea. This ambitious project aimed to promote trade and industrial development across southern Germany and Central Europe by integrating river transport and hydroelectric power generation. The company's early years were marked by engineering challenges and economic instability following World War I and the German inflation crisis, but it laid the groundwork for what would later become one of Europe's great infrastructure achievements—the modern Main-Danube Canal completed in 1992. The certificate dates from 1922, during the initial capital-raising period, and represents shares issued to support the company's early development and surveying efforts. Est. \$90-150

Part of a broader interwar effort by Italian banks to access American capital and trade networks, the institution facilitated commercial credit, currency exchange, and cross-border payments before regulatory changes and consolidation led to its disappearance by the late 1920s, making surviving share certificates scarce remnants of Italy's short-lived U.S. banking footprint. The bearer share itself is richly engraved in a neoclassical style, featuring a heraldic eagle with laurel and oak branches, American and Italian symbolic vignettes including the Statue of Liberty, and extensive guilloche ornamentation, with attached dividend coupons below—an impressive design intended to project financial solidity, international reach, and permanence..... In 1984, American Express acquired the investment banking and trading firm, Lehman Brothers Kuhn Loeb, and added it to the Shearson family, creating Shearson Lehman/American Express. Lehman Brothers Kuhn Loeb, which itself was the merger of Lehman Brothers and Kuhn Loeb in 1977 was led by Pete Peterson, a former United States Secretary of Commerce and future founder of the Blackstone Group. However, by the early 1980s, hostilities between the firm's investment bankers and traders, who were driving most of the firm's profits, prompted Peterson to promote Lewis Glucksman, the firm's President, COO and former trader, to be his co-CEO in May 1983. Glucksman introduced a number of changes that had the effect of increasing tensions. Coupled with Glucksman's management style and a downturn in the markets, these tensions resulted in a power struggle that ousted Peterson and left Glucksman as the sole CEO. Upset bankers who had soured over the power struggle left the company. The company suffered under the disintegration, and Glucksman was pressured into selling the firm. After the merger, Peter A. Cohen was named Chairman and CEO of Shearson Lehman. .... Est. **\$100-200**

- 437 CA. Mechanics' Mining Co., 1876 I/U Stock Certificate, Located at "Sutter Creek" Sutter Creek, Amador County, California. 4 Shares, I/U, S/N 3, Issued to J. Randolph and signed by T.M.Elroy as president, no vignette, "1320 Feet in Mine" with "Each foot divided into 25 shares", VF condition. Famous location where the California gold rush began. John Sutter's discovery of gold at nearby Coloma in January 1848 triggered the California Gold Rush. After all his workers left him to go on their own hunts for gold, Sutter moved to Mormon Island with a couple of hands. After about two weeks miners flooded the island, so Sutter and his hands left and returned to Sutter Creek. Sutter said: "I broke up the camp and started on the march further south, and located my next camp on Sutter Creek", now in Amador County. Although plenty of placer gold was found there, gold-bearing quartz deposits were discovered in 1851, and mining those deposits for gold became the mainstay of the local economy for many years. With the prosperity brought by quartz mining, Sutter Creek became a boomtown. By 1932, the Central Eureka mine, begun in 1869, had reached the 2,300-foot (700 m) level. By 1939, it was the best-paying mine in Sutter Creek. The mines continued operations until 1942, when most gold mines were closed for manpower reasons during World War II. .... Est. \$80-100

664 AK. State of Alaska, 1964 Series B "Earthquake" Bond Specimen Issued to Meet the Effects of the Earthquake of March 27, 1964.

AK. State of Alaska, October 1, 1964. \$12,485,000 3¼% General Obligation Bond, Series B (1967 Issue), Specimen, with additional materials. Large-format engraved bond issued in the immediate aftermath of the Great Alaska (Good Friday) Earthquake of March 27, 1964; of the total \$12,485,000 authorization, \$5,585,000 was specifically approved to address earthquake-related damage and reconstruction during Alaska's early years of statehood. The bond bears interest at 3¼%, payable April 1 and October 1, and features black text with olive border and underprint, a prominent eagle vignette at top center, red "SPECIMEN" overprints at the signature panels, a red "Not to be Removed from Our File" overprint at right, and punch-out cancels (POCs), accompanied by three additional attached pages likely related to printing or internal reference use. Issued in response to the magnitude 9.2 earthquake—the most powerful ever recorded in North America—which caused widespread destruction across south-central Alaska, this historically important specimen represents the State's emergency financing and long-term recovery efforts. VF condition, SCBN; reportedly the second of two examples located in the American Bank Note Company archives in 2002 and the only one currently available.

## CONDITIONS OF SALE

### THE PLACING OF A BID SHALL CONSTITUTE ACCEPTANCE OF THESE CONDITIONS OF SALE

#### BIDDING

1. Unless announced otherwise by the auctioneer, all bids are per lot, as numbered in the printed Catalogue. Archives International Auctions, as agent for the consignor or vendor, shall regulate the bidding and shall determine the manner in which the bidding shall be conducted. Archives International Auctions reserves the right to withdraw any lot prior to sale (without liability to any potential purchaser or agent), to re-offer any withdrawn lot, to divide a lot or to group two or more lots belonging to the same consignor or vendor, and to refuse any bid believed not made in good faith. Estimates of sales prices contained in the printed Catalogue reflect the best judgment of Archives International Auctions and are not minimum or upset prices.
2. (a) Bids shall be made in the steps set forth in paragraph 12.  
(b) The highest bid acknowledged by the auctioneer shall prevail. Should a dispute arise between bidders (including a dispute between a floor bidder and the auctioneer acting on behalf of a mail bidder, consignor or vendor), the auctioneer alone shall determine who the successful bidder is and whether to reoffer the lot in dispute. Should a dispute arise after the sale, the auctioneer's sale records shall be conclusive. On all lots sold, a commission of 22%\* on the hammer price is payable by the buyer to the auctioneer (\*See exceptions on next page for bids on internet).
3. (a) The auctioneer reserves the right to bid on behalf of clients (and consignors or vendors) but shall not be liable for errors and omissions in executing instructions to bid, however received, and whether such errors or omissions be those of the bidder or agent or those of the auctioneer.  
(b) Lots may be offered subject to a reserve price. The auctioneer may implement such reserve price by bidding on behalf of the consignor vendor.  
(c) It may also be assumed that all consignors have been advanced monies against the sale of their consigned material and Archives International Auctions therefore has a security interest in the consigned material over and above the normal auction commission.  
(d) Purchases made by a consignor or vendor or his agent on his own lots shall be considered as a sale subject to commissions and sales tax as applicable.  
(e) Agents are responsible for the payment of the purchase price for all purchases made on behalf of their clients, unless other arrangements with the auctioneer have been confirmed in writing prior to the auction.

#### PAYMENT FOR PURCHASES

4. Payment for lots, including those on which opinions are desired (Condition of Sale 8), shall be as follows:
  - (a) Floor Bidders. Payment of the purchase price, or such part thereof as Archives International Auctions shall require, shall be made by the purchaser in cash or bank or certified check or in such other manner as Archives International Auctions may determine. The name and address of the purchaser of each lot shall be given to the auctioneer immediately following the sale of such lot.
  - (b) Mail Bidders. A successful mail bidder will be notified of lots purchased. Before Archives International Auctions will send such lots, payment in full must be received by Archives International Auctions within three (3) business days of receipt of the aforesaid notification by the mail bidder. However, a purchaser known to Archives International Auctions at its option may have purchases delivered or forwarded for immediate payment (by a dollar draft on a U.S. bank in the case of overseas purchasers). Mailed delivery will be to the address on the bid sheet and proof by Archives International Auctions of receipt of a sending at the advised address shall constitute delivery. All charges for handling, delivery and insurance obtained by Archives International Auctions on behalf of the purchaser shall be added to the purchase price; a minimum charge of \$10.00 will be made. Risk of loss in transit shall be on the purchaser.
5. Title shall not pass to the purchaser until full payment has been received by Archives International Auctions as agents for the consignor or vendor.

6. (a) Purchasers agree to pay for lots as specified in Condition of Sale 4 (or as the same may be modified by Condition of Sale 8), and no credit is extended; a late payment charge of 2% per month or fraction thereof shall be added if payment is not made in accordance with the aforesaid conditions.  
(b) In the event that a bidder shall fail to comply with these Conditions of Sale ("Non-Complying Bidder"), then, as to any lot with respect to which such failure to comply occurs, Archives International Auctions may, in its sole discretion, re-offer such lot during the same auction or at an auction at a later time, or by private treaty at such time as Archives International Auctions, in its sole discretion, deems appropriate and the Non-Complying Bidder shall be liable for the deficiency, if any, between the hammer price and the net proceeds of a sale to a subsequent purchaser, whether at auction or by private treaty, as well as for all costs and expenses of both sales, all other charges due thereunder, including commissions with respect to both sales, whether payable to Archives International Auctions or to a third party and all incidental damages. It shall be in Archives International Auctions' sole discretion to determine whether to re-offer the lot theretofore hammered-down to a Non-Complying Bidder at the same auction, or by private treaty in due course, or at a subsequent auction conducted by Archives International Auctions. In no event shall any surplus arising from the sale of a re-offered lot be payable to a Non-Complying Bidder.  
(c) A defaulting purchaser shall be deemed to have granted Archives International Auctions a security interest in property in Archives International Auctions possession owned by such purchaser. Archives International Auctions shall have all of the rights afforded a purchase money secured party under the New York or New Jersey Uniform Commercial Code with respect to such property and may apply against such obligations all monies held or received by it for the account of, or due from Archives International Auctions to such purchaser. Archives International Auctions is authorized to file a Financing Statement in order to perfect its rights as a secured party.  
(d) If Archives International Auctions takes any legal steps to secure payment of a delinquent account, the defaulting purchaser shall be liable for all legal and other expenses incurred by Archives International Auctions to secure such payment, including but not limited to a reasonable allowance for attorneys' fees. For purposes of this paragraph, the term legal steps shall be deemed to include any and all consultation by Archives International Auctions with its attorneys with respect to all matters arising out of a delinquent account.  
(e) Unless otherwise acceptable to Archives International Auctions, payment is to be made only in the form of cash, bank check or certified check, credit card (Visa or MasterCard only) or a bank wire transfer.

#### EXHIBITION AND INSPECTION OF LOTS; QUALITY AND AUTHENTICITY

7. (a) On Premises Inspection only. Ample opportunity is given for on premises inspection prior to the auction date, and, upon written request and at Archives International Auctions discretion.  
(b) Each lot is sold as genuine and correctly described, based on individual description as modified by any specific notations in this Catalogue.  
(c) Quality. Any lot which a purchaser considers to be incorrectly described may be returned to Archives International Auctions within two weeks of its receipt by such purchaser ("Returning Purchaser"), provided, however, that the same is received by Archives International Auctions within four weeks of the date of the auction; however, Archives International Auctions may, in its discretion, refuse acceptance of such returned lot. If an opinion of a generally recognized authority is desired, the period of time within which a lot must be received by Archives International Auctions will be extended in accordance with Condition of Sale 8. In the event that a dispute cannot be resolved by reference to a generally recognized authority, and Archives International Auctions thereupon undertakes to re-offer the lot with a description identical to the description disputed, the Returning Purchaser shall be liable for the deficiency, if any, between the proceeds of the sale to the Returning Purchaser and the proceeds of a sale to a subsequent purchaser, as well as for all costs and expenses of the re-sale, including commission, and all incidental damages. Any lot, the description of which is disputed, must be returned in-

- (e) Expenses incurred a purchaser in the submission and the return of a lot under Conditions of Sale 7 are not subject to refund.

8. Unless presentation of satisfactory proof that it is exempted by law, a purchaser shall pay to Archives International Auctions New Jersey or New York State and local sales taxes, or any compensating use taxes of any other State claiming jurisdiction.
