U.S., Chinese & Worldwide Banknotes, Scripophily, Historic Ephemera and Security Printing Ephemera featuring *Additional Selections from THE SILVERTON COLLECTION of Colorado & Western Mining Stocks & Bonds*

INTRODUCTION TO THE SALE

FOREWORD

On behalf of the entire Archives International Auctions team, it is my pleasure to welcome you to our 113th auction. This one-day sale presents 747 carefully curated lots across two sessions, spanning world and U.S. banknotes; scripophily; U.S. colonial and fiscal documents; historic ephemera; security printing material; stamps and postal history; and ABNC & BEP souvenir cards, together with additional outstanding selections from the Silverton Collection of Colorado and Western Stocks and Bonds. Many of the items featured originate from long-held private collections, with a significant number making their first appearance at public auction.

The auction offers a broad and well-balanced selection across multiple collecting categories. Session One includes over 160 lots of world banknotes ranging from Africa to Zaire, with particular depth in China, Russia, and Eastern Europe; nearly 80 lots of U.S. colonial, obsolete, small-size, and type currency; U.S. federal bonds and fiscal documents; historic and security-printing ephemera, covering traveler's checks, checks and drafts, stamps and postal history, concluding with ABNC and BEP souvenir cards. Session Two presents an extensive offering of over 460 lots of U.S. and world scripophily, led by world scripophily and followed by automobiles, banking, breweries, mining, navigation, railroads, and utilities, including further selections from the Silverton Collection.

Among the featured highlights is exceptional China, Pick Unlisted 1949, Central Bank of China Front Printer's Essay Design 50,000 Gold Yuan, graded PMG 66 EPQ, carrying serial number 1A 000000 — a unique production artifact from the final months of the Republic. Additional highlights include a striking Austro-Hungarian 10,000 Kronen note of 1918 with rare red "Deutschösterreich" overprint, graded PMG 65 EPQ; a World War One era \$10 United States Government Liberty Loan Bond Participation Certificate specimen issued through the Federal Reserve Bank of New York, printed by the American Bank Note Company and graded PMG 55; and an extraordinary uncut sheet of eight U.S. Department of Energy Gas Coupon specimens, signed by Secretary James Schlesinger — among the finest and most intact examples of this rarely preserved emergency rationing production material known.

Scripophily collectors will find an exceptional array of signed and historically significant material. The railroads section alone exceeds 175 lots, including strong representation in Western, Transcontinental, and regional lines. Complementing the railroad holdings are selections in banking and finance, with a Goldman Sachs Group, Inc. Common Stock certificate among the modern highlights — featuring engraved portraits of founders Marcus Goldman and Samuel Sachs by the American Bank Note Company. A signed stock certificate for The World's Columbian Exposition, dated March 1892 and printed by Western Bank Note of Chicago, brings together numismatic history and Americana in a single extraordinary piece.

Our 114th auction is planned for late June to early July 2026, and will feature additional selections of banknotes, scripophily, ephemera, and historic bonds and shares from major estates, many unseen for decades. We are actively accepting consignments for our upcoming sales.

We sincerely thank you for your continued interest and support. We hope this auction brings you both enjoyment and meaningful additions to your collection.

Best of luck,

Bob Schwartz

KEY TO CATALOGING

DEFINITIONS

SPECIMEN: An archival printing sample of a finished item, such as a stock certificate, banknote or stamp that is printed usually with "000000" serial numbers and may have "Specimen" overprinted on it and be punch canceled to invalidate it and prevent its use surreptitiously. Specimens were kept for a number of reasons, though usually as samples to give out to prospective customers to give them an idea of the type and quality of the work that the printing company was capable of doing. Usually specimens were printed in limited amounts at the beginning of a printing run to evaluate the quality of the printing work and color combinations at an early stage, rather than have an entire production run rejected due to some minor flaw that was not found until after the printing was completed. A specimen is similar to the final product, printed on the same paper and in the same color.

COLOR TRIAL SPECIMENS: Sometimes specimens would be printed in numerous color combinations not used on the final note for evaluation before a final printing. These are usually extremely rare.

PROOF: An initial pull or impression from a plate or die for evaluation of text, vignette, engraving, and esthetic appeal and to check for any errors or faults. These were usually printed on india paper mounted on card or printed on some form of paper or light card. The amount of proofs printed is usually extremely small and usually number only a handful. Proofs allowed the printing company to evaluate the quality of the item being printed without having to go to the expense of making final plates and finding out small errors that could have been repaired at an earlier stage. Usually, proofs are single impressions of banknotes, stamps, vignettes, etc. Anything that was made into a plate, such as a sheet of 100 stamps could have had proof impressions taken from it. These would be called plate proofs (for multiple images) versus die proofs (usually of a single or small amount of images).

COLOR TRIAL PROOF: A proof printed in a color other than the issued color.

ESSAY SPECIMEN or PROOF: A proposed design that was not used but may be similar or even totally different to a final approved design. An artist, engraver or company may have proposed a number of different designs and color combinations to a client for his approval. If a design is rejected and never used, it could be called an essay.

PRODUCTION MATERIAL: Material found in files used in the production of security printed documents, banknotes, stamps and such. It may include correspondence, photographs, artwork, and signature samples, samples of other printed items that are marked up with corrections as well as proofs, specimens, essays, models, mockups and issued final items.

MODEL: A proposed or final design that may include original artwork, pieces of design elements such as borders, titles, vignettes, corporate seals, undertints and possibly portions of photographs. Before an engraved item was made, a design had to be decided on. This portion of the design process allowed for the artistic skills of the engraver or design department to be exhibited. Before the "digital age", banknote engravers and designers would cut up portions of other engraved items and re-apply them in a different form or design to come up with a unique new stamp, banknote or certificate. Often, all new engravings or "vignettes" of people or scenes would be engraved first to include in the new "work of art", and other times, portions of different completed items would be "borrowed" to use on a newly designed item. All models are rare and almost all of them are unique.

Burnt orange border with locomotive and steamboat at dock vignette, Horizontal bond with coupons. Discovered in an old Massachusetts estate 12 years ago at auction, this was the only piece found. A 1907 letter was found that gives a considerable amount of information about the railroad "The National Government, by law No. 1551, of October 7, 1884, made Messrs. Javier Arruz & Co. grantees of the Entre Rios Eastern Railway Company, which runs from Concordia to Gualaguaychu, and this concession was confirmed by the decree of the government of the Province of Entre Rios on August 23, 1872, which province guaranteed 6 per cent annually on the effective cost, fixing the cost per kilometer of this railway at \$23,577.50 national gold money by decree of November 12, 1880. However, as the grantees did not fulfill the contract, and by virtue of law No. 2716, of September 5, 1889, by which all concessions whose terms had not been fulfilled by the grantees were canceled, said concession was therefore canceled, ..." , Columbian Bank Note Co, Wash. CHINA - EMPIRE

31

31 China, Boxer Rebellion, ca.1900, Transcribed Letter from Aaron Simon Daggett Describing Battles at Peking, China. Maine & China, 1900. Fascinating letter, Several-page handwritten and transcribed letter, which is a copy of an original sent by Aaron Simon Daggett, from China, describing his experience in Peking during the Boxer Rebellion. The transcription was written by his relative (likely his niece) Mary A. Daggett, as Aaron Daggett requested this letter also be sent to his relative, Converse, "for I have not time nor strength to write both of you now." The letter provides an interesting and sometimes harrowing account of the 14th Infantry's actions suppressing the Boxer Rebellion. Daggett writes, "as you know, the Chinese were trying to murder all foreign people, especially, representatives of foreign Governments," and goes on to describe how hundreds of foreigners were living on "horse flesh" for over 5 weeks. "One woman told me that they had calmly made up their minds to kill all their children and themselves at the last moment, rather than be tortured by the Chinese. A man told me that when he went out on guard with his rifle, he left a revolver with his wife, for her to shoot their baby and herself" if the enemy broke through. Daggett also writes that the 14th Infantry was the "first of American troops on the walls with our flag. What a shout rang out when the stars and stripes waved on the immense wall, 25 feet high or more." He states that the campaign has been incredibly difficult, with men dying from the heat. "I am too old to endure so much hard," he writes towards the end, crediting god with his survival. At the end of the letter is a postscript by the transcriber, Mary Daggett, stating that she sends the letter at the request of her father, writing "It is very interesting, is it not?" Aaron Simon Daggett (June 14, 1837 - May 14, 1938) was a career United States Army officer and Purple Heart and Gold Star recipient. He was the last surviving brevet Union general of the American Civil War, and the last surviving general of any grade from the war, when he died one month shy of his 101st birthday in 1938. Daggett was nominated for appointment to the grade of brevet brigadier general, to rank from March 13, 1865, by President Andrew Johnson on February 21, 1866 and was confirmed by the United States Senate on April 10, 1866. During the war, Daggett fought at West Point, Gaines' Mill, Golding's Farm, White Oak Swamp, Second Bull Run, South Mountain, Antietam, Rappahannock Station, Fredericksburg, Battle of Gettysburg, Battle of Mine Run, Battle of the Wilderness and Battle of Cold Harbor. Daggett was a brigadier general of volunteers in the Spanish-American War. He was appointed to the brigadier general grade to rank from September 1, 1898 and was mustered out of the volunteers on November 30, 1898. He was promoted to brigadier general in the Regular Army (United States) ten days before his retirement from the army on March 2, 1901, less than a year after the original writing of this transcribed letter. VF condition with accompanying cover with 2 cent stamp and handstamps. Unique first-hand account of a major historical event. Est. \$400-600

This document reflects the emergency issuance and controlled distribution of copper currency during the early years of Peruvian independence, when shortages of silver coin necessitated alternative circulating media. San Martín was incorporating the mint into the independent government and appointing as the first Director General the Italian Don José de Boqui y Giboli, who was an agent and spy at the service of the patriot cause. The wars of independence caused serious damage to the Mint on two occasions when, in 1823 and 1824, when royalist troops from the Andes retook Lima and deprived the mint of its transportable tools. EPHEMERA - AUTOGRAPHS - CIVIL WAR - MILITARY WASHINGTON

A RARE AND HISTORIC CIVIL WAR OFFICER APPOINTMENT FOR THE U.S. COLORED TROOPS DATED NOVEMBER 16, 1863, SIGNED BY SECRETARY OF WAR EDWIN M. STANTON, REFLECTING THE UNION'S EVOLVING MILITARY POLICY AND THE FEDERAL GOVERNMENT'S ROLE IN ORGANIZING AFRICAN AMERICAN REGIMENTS DURING THE WAR'S PIVOTAL MIDDLE YEARS.

204

204 Washington, November 16, 1863. U.S. Colored Troops – Civil War Officer Appointment Signed by Secretary of War Edwin M. Stanton. Washington, November 16, 1863. U.S. Colored Troops Civil War Officer Appointment. Official War Department printed and manuscript-completed appointment issued during the Union Army's first year of organized African American regimental expansion, signed by Secretary of War Edwin M. Stanton. This appointment commissions a Captain in the 7th Regiment, U.S. Colored Troops, to rank from November 14, 1863, with orders to report for duty in Frederick, Maryland under the authority of the Middle Department, the Union military district overseeing Maryland and surrounding areas. Created within the first year of the Bureau of Colored Troops, established May 22, 1863, early U.S.C.T. commissions are among the most significant administrative acts of the Civil War. The document bears the signature of Secretary of War Edwin M. Stanton, whose direct authority over the Bureau of Colored Troops enabled the swift formation and commissioning of U.S.C.T. units. The identity of the officer remains unknown due to a clerical error in which a War Department clerk inserted the word "Captain" in the space reserved for the recipient's name — an unusual error on an early U.S.C.T. appointment. Additional manuscript notations reference Capt. William Royal of the 7th U.S.C.T. and senior Middle Department officers. Light toning and minor wear consistent with age. A document directly connected to the creation and administration of one of the Union Army's African American regiments. VF to XF condition. Est. \$1500-2500

210 PA. Historic Civil War Muster Roll for Company "L" in the 6th Pennsylvania Cavalry Regiment, Battle of Gettysburg Related Dating from June to August 1863. Pennsylvania, Delaware, Virginia and Maryland. 30th Day of June to the 31st Day of August, 1863. Muster Roll of Captain Charles L. Leiper's Company L of the Sixth Regiment of the Pennsylvania Cavalry, June, 1863, "when last paid," to the 31st day of August, 1863. Includes handwritten details such as the names, ranks, and pay roll of the men, as well as the names of those who deserted. The Battle of Gettysburg began on July 1st and ended on July 3rd. Notes on the muster begin with the movement of the troops on July 1st when they are at camp in Mechanics town, MD., mentions that on July 2nd they marched to Emmitsburg, MD and on July 3rd, scouted around Gettysburg, PA, with reports of their movements on literally a daily basis describing skirmishes with the enemy and other events. Highlights include details written in the "Notes" section of the Muster Roll, for example the case of Hugh Brannan, who was "missing in action at Beverly Ford, Va June 9th 63." Also includes a handwritten record of events "which may be necessary or useful for future reference at the war department, or for present information." This includes the movements and camp locations of the Sixth Regiment, and mentions locations such as Mechanics town, Maryland, and Manassas Gap, Virginia where on the 22nd of July the Company was "skirmishing with [the] enemy." On August 1st, the Company crossed the Rappahannock, "met the enemy, took part in the Battle of Brandy Station in which one man of Co. "L" was wounded." The document is in VG to almost Fine but fragile condition with pieces missing, very fragile fold lines, splitting, and archival repairs, it could use some expert restoration work, but it is completely legible. The 6th Pennsylvania Cavalry was a Union cavalry regiment during the American Civil War. They were known for their early use of 9-foot lances, and were called "Rush's Lancers." The regiment was raised during August and September 1861 from companies raised in Philadelphia, Montgomery and Berks counties by Richard H. Rush, who had been authorized to do so by Governor Curtin. Rush was appointed colonel of the regiment, with John H. M'Arthur as lieutenant colonel and C. Ross Smith and Robert Morris, Jr., as majors. At the suggestion of Maj. Gen. George B. McClellan, the men were armed with Austrian lances. After several weeks of training in Philadelphia, the regiment was transferred to Washington, D.C., where it was assigned to the Cavalry Division of the Army of the Potomac. In May 1863, the regiment was rearmed with Sharps carbines and assigned to the Reserve Brigade of the 1st Cavalry Division. It fought in the Gettysburg Campaign and Mine Run Campaign. During the Battle of Brandy Station in June 1863, the regiment (led by Major Robert Morris, Jr.) unsuccessfully charged the guns at St. James Church, suffering the greatest casualties of any regiment in the battle. Several Confederates later described the 6th's charge as the most "brilliant and glorious" cavalry charge of the war. (In many Civil War battles, cavalrymen typically dismounted once they reached an engagement and fought essentially as infantry. But in this battle, the surprise and chaos led to a mostly mounted fight.) Following the Appomattox Campaign, it was ordered to Washington, D.C., where it was consolidated with the 1st Pennsylvania Cavalry and 17th Pennsylvania Cavalry to form the 2nd Pennsylvania Provisional Cavalry. The combined regiment was sent to Louisville, Kentucky, where it was mustered out in August 1865. Fascinating and historic piece of Civil War history related to an interesting and notable Cavalry Regiment and written during and after their participation in the Battle of Gettysburg. Est. \$1,250-2,500

216 NY City Street Dept. Surveyor's Certificate, 1866 near the NY Public Library Signed by William "Boss" Tweed. New York City. August 4, 1866. Surveyor's Certificate regarding enclosing parks on 4th Avenue between 38th Street and 40th Street in Manhattan, New York, filled out by Surveyor Joseph Smith and signed by the Street Commissioner, William "Boss" Tweed. Tweed was an American politician most notable for being the political boss of Tammany Hall, the Democratic Party's political machine that played a major role in the politics of 19th-century New York City and state. Tweed was elected to the United States House of Representatives in 1852 and the New York County Board of Supervisors in 1858, the year that he became the head of the Tammany Hall political machine. He was also elected to the New York State Senate in 1867. However, Tweed's greatest influence came from being an appointed member of a number of boards and commissions, his control over political patronage in New York City through Tammany, and his ability to ensure the loyalty of voters through jobs he could create and dispense on city-related projects. The document describes the work, such as the stone foundations and railings, along with the corresponding prices given by contractor John Donell. This location in Manhattan no longer has a park, and must have been developed in the years following this survey. It provides a fascinating glimpse into New York City's past, before skyscrapers and modern developments, when there were more open spaces and parks. Rare..... Est. \$120-200

Connecticut, ND (1930s). <100 Shares Common Stock Specimen Certificate, Black print with brown border and underprint, Allegorical figures at top, Specimen overprints and POCs, AU to Uncirculated condition, ABNC. The Winchester Company was organized in 1931 in Connecticut following the bankruptcy and reorganization of the Winchester Repeating Arms Company, when its assets were acquired by the Western Cartridge Company under the control of industrialist Franklin W. During the 1930s and throughout World War II, The Winchester Company played a significant role in American arms manufacturing, supplying rifles, ammunition, and related products for domestic and wartime use. The company issued stock during this reorganization period and functioned as a publicly held but closely controlled corporation, with shares available to investors while strategic control remained with the Olin interests. In 1944, The Winchester Company was absorbed into Olin Industries, ending its independent corporate existence while the Winchester brand itself continued as one of the most recognized names in American industrial and firearms history..... Dahlonga Consolidated Gold Mining Co., 1904 — Incorporated around 1899 to 1900 in Dahlonga, Georgia, this company represented the largest industrial gold-mining venture east of the Mississippi River. It consolidated numerous local mines—including the Findley, Yahooola, and Hand properties—and operated a massive 120-stamp mill and chlorination plant for ore processing. The mine was built on a 22-foot-thick quartz vein and was heavily capitalized at approximately \$5 million. Despite its ambitious scale, production was short-lived and major operations ceased around 1906. Today the site is preserved as the historic Consolidated Gold Mine in Dahlonga, a remnant of Georgia's 19th-century gold rush era.

478

478 NV. Andes Silver Mining Co., 1876, I/U Stock Certificate Signed by Civil War General George S. Dodge. Virginia Mining District, Storey County, Nevada. (Offices in San Francisco, CA.), 1876. 10 Shares, I/U stock certificate, Ornate title with logo at left, S/N 7491, VF-XF condition with small pin holes from being attached to document. Signed by Geo. S. Dodge as president. Dodge received a historic silver ingot. "The Ingot Recipient, George Sullivan Dodge was a decorated Civil War veteran, who was brought to the West Coast about 1871 to manage the monstrous new silver company in Eureka, the Eureka Consolidated. The mine was so rich that it rivaled the best of the Comstock, ultimately producing over \$20 million from 1873 to 1906 alone. Dodge's office was in San Francisco, right in the center of the Montgomery Street business section (Bank of California, etc.) where most of the financial ends of the Comstock mining barons took place. Dodge appears to have been appointed the first president of the Company, with the attendant job of getting the mine into profitable and large scale production. He was in charge of hiring the best mining men and putting together a mining crew to rival the best on the Comstock. George Sullivan Dodge (August 3, 1838 - August 24, 1881) was a Union Army officer during the American Civil War, a United States consul to Bremen, Germany and a merchant. Dodge, the son of William P. and Nancy B. Dodge (1806-1853), was born on August 4, 1838, in Irasburg, Orleans County, Vermont, Dodge became a prominent merchant. With the outbreak of hostilities in the American Civil War, Dodge entered a volunteer regiment for the Union Army and was appointed colonel in the army's Quartermaster Department. During the war's later years, he served as Chief Quartermaster of the Army of the James under Major General Benjamin F. Butler and later under Major General Edward O.C. Ord. On January 26, 1865, President Abraham Lincoln nominated Dodge for appointment to the grade of brevet brigadier general to rank from January 15, 1865 for his last-minute resupply of beleaguered Union forces at the Second Battle of Fort Fisher (January 13-15, 1865) and the United States Senate confirmed the appointment on February 14, 1865. He later participated in the Battle of Wilmington (February 11-22, 1865). After the war, Dodge served as the United States Consul in Bremen, Germany (1866-1869)..... Est. \$50-100

711 Great Britian. Poyais Land Grant for 300 Acres, 1834, I/U Certificate - Gregor MacGregor Scheme. Great Britain, 1834. Land Grant for 300 Acres I/U Bilingual Certificate for the so-called Territory of Poyais, bearing the name and authority of Gregor MacGregor, Black print on over sized certificate with arms of 'Poyais' at top center, Class D, S/N 1285, VF to XF condition with splitting at fold lines. This document relates to the Poyais scheme of the 1820s to 1830s involving Gregor MacGregor (1786-1845). MacGregor was a Scottish soldier, adventurer, and self-styled "Cazique of Poyais," In the early 1820s, MacGregor claimed to have been granted authority over this supposedly rich and developed land along the Mosquito Coast (modern-day Honduras/Nicaragua). He issued bonds, land grants, and promotional materials describing Poyais as a thriving colony with infrastructure, government, and economic opportunity. In reality, Poyais did not exist as described. When settlers arrived, they found undeveloped jungle with no support or governance. The scheme ultimately collapsed, resulting in financial losses and loss of life, and is now regarded as one of the earliest examples of large-scale international investment fraud and speculative mania. Despite arrests in Britain and France, Gregor MacGregor was never successfully convicted and ultimately lived out his later years in Venezuela, largely escaping punishment for one of the 19th century's most infamous financial frauds..... 716

716 AK. State of Alaska, 1964 Series B "Earthquake" Bond Specimen Issued to Meet the Effects of the Earthquake of March 27, 1964.

AK. State of Alaska, October 1, 1964. \$12,485,000 3 3/4% General Obligation Bond, Series B (1967 Issue), Specimen, with additional materials. Large-format engraved bond issued in the immediate aftermath of the Great Alaska (Good Friday) Earthquake of March 27, 1964; of the total \$12,485,000 authorization, \$5,585,000 was specifically approved to address earthquake-related damage and reconstruction during Alaska's early years of statehood. The bond bears interest at 3 3/4%, payable April 1 and October 1, and features black text with olive border and underprint, a prominent eagle vignette at top center, red "SPECIMEN" overprints at the signature panels, a red "Not to be Removed from Our File" overprint at right, and punch-out cancels (POCs), accompanied by three additional attached pages likely related to printing or internal reference use. Issued in response to the magnitude 9.2 earthquake—the most powerful ever recorded in North America—which caused widespread destruction across south-central Alaska, this historically important specimen represents the State's emergency financing and long-term recovery efforts. VF condition, SCBN; reportedly the second of two examples located in the American Bank Note Company archives in 2002 and the only one currently available.

CONDITIONS OF SALE

THE PLACING OF A BID SHALL CONSTITUTE ACCEPTANCE OF THESE CONDITIONS OF SALE

BIDDING

1. Unless announced otherwise by the auctioneer, all bids are per lot, as numbered in the printed Catalogue. Archives International Auctions, as agent for the consignor or vendor, shall regulate the bidding and shall determine the manner in which the bidding shall be conducted. Archives International Auctions reserves the right to withdraw any lot prior to sale (without liability to any potential purchaser or agent), to re-offer any withdrawn lot, to divide a lot or to group two or more lots belonging to the same consignor or vendor, and to refuse any bid believed not made in good faith. Estimates of sales prices contained in the printed Catalogue reflect the best judgment of Archives International Auctions and are not minimum or upset prices.
2. (a) Bids shall be made in the steps set forth in paragraph 12.
(b) The highest bid acknowledged by the auctioneer shall prevail. Should a dispute arise between bidders (including a dispute between a floor bidder and the auctioneer acting on behalf of a mail bidder, consignor or vendor), the auctioneer alone shall determine who the successful bidder is and whether to reoffer the lot in dispute. Should a dispute arise after the sale, the auctioneer's sale records shall be conclusive. On all lots sold, a commission of 20%* on the hammer price is payable by the buyer to the auctioneer (*See exceptions on next page for bids on internet).
3. (a) The auctioneer reserves the right to bid on behalf of clients (and consignors or vendors) but shall not be liable for errors and omissions in executing instructions to bid, however received, and whether such errors or omissions be those of the bidder or agent or those of the auctioneer.
(b) Lots may be offered subject to a reserve price. The auctioneer may implement such reserve price by bidding on behalf of the consignor vendor.
(c) It may also be assumed that all consignors have been advanced monies against the sale of their consigned material and Archives International Auctions therefore has a security interest in the consigned material over and above the normal auction commission.
(d) Purchases made by a consignor or vendor or his agent on his own lots shall be considered as a sale subject to commissions and sales tax as applicable.
(e) Agents are responsible for the payment of the purchase price for all purchases made on behalf of their clients, unless other arrangements with the auctioneer have been confirmed in writing prior to the auction.

PAYMENT FOR PURCHASES

4. Payment for lots, including those on which opinions are desired (Condition of Sale 8), shall be as follows:
 - (a) Floor Bidders. Payment of the purchase price, or such part thereof as Archives International Auctions shall require, shall be made by the purchaser in cash or bank or certified check or in such other manner as Archives International Auctions may determine. The name and address of the purchaser of each lot shall be given to the auctioneer immediately following the sale of such lot.
 - (b) Mail Bidders. A successful mail bidder will be notified of lots purchased. Before Archives International Auctions will send such lots, payment in full must be received by Archives International Auctions within three (3) business days of receipt of the aforesaid notification by the mail bidder. However, a purchaser known to Archives International Auctions at its option may have purchases delivered or forwarded for immediate payment (by a dollar draft on a U.S. bank in the case of overseas purchasers). Mailed delivery will be to the address on the bid sheet and proof by Archives International Auctions of receipt of a sending at the advised address shall constitute delivery. All charges for handling, delivery and insurance obtained by Archives International Auctions on behalf of the purchaser shall be added to the purchase price; a minimum charge of \$10.00 will be made. Risk of loss in transit shall be on the purchaser.
5. Title shall not pass to the purchaser until full payment has been received by Archives International Auctions as agents for the consignor or vendor.

6. (a) Purchasers agree to pay for lots as specified in Condition of Sale 4 (or as the same may be modified by Condition of Sale 8), and no credit is extended; a late payment charge of 2% per month or fraction thereof shall be added if payment is not made in accordance with the aforesaid conditions.
(b) In the event that a bidder shall fail to comply with these Conditions of Sale ("Non-Complying Bidder"), then, as to any lot with respect to which such failure to comply occurs, Archives International Auctions may, in its sole discretion, re-offer such lot during the same auction or at an auction at a later time, or by private treaty at such time as Archives International Auctions, in its sole discretion, deems appropriate and the Non-Complying Bidder shall be liable for the deficiency, if any, between the hammer price and the net proceeds of a sale to a subsequent purchaser, whether at auction or by private treaty, as well as for all costs and expenses of both sales, all other charges due thereunder, including commissions with respect to both sales, whether payable to Archives International Auctions or to a third party and all incidental damages. It shall be in Archives International Auctions' sole discretion to determine whether to re-offer the lot theretofore hammered-down to a Non-Complying Bidder at the same auction, or by private treaty in due course, or at a subsequent auction conducted by Archives International Auctions. In no event shall any surplus arising from the sale of a re-offered lot be payable to a Non-Complying Bidder.
(c) A defaulting purchaser shall be deemed to have granted Archives International Auctions a security interest in property in Archives International Auctions possession owned by such purchaser. Archives International Auctions shall have all of the rights afforded a purchase money secured party under the New York or New Jersey Uniform Commercial Code with respect to such property and may apply against such obligations all monies held or received by it for the account of, or due from Archives International Auctions to such purchaser. Archives International Auctions is authorized to file a Financing Statement in order to perfect its rights as a secured party.
(d) If Archives International Auctions takes any legal steps to secure payment of a delinquent account, the defaulting purchaser shall be liable for all legal and other expenses incurred by Archives International Auctions to secure such payment, including but not limited to a reasonable allowance for attorneys' fees. For purposes of this paragraph, the term legal steps shall be deemed to include any and all consultation by Archives International Auctions with its attorneys with respect to all matters arising out of a delinquent account.
(e) Unless otherwise acceptable to Archives International Auctions, payment is to be made only in the form of cash, bank check or certified check, credit card (Visa or MasterCard only) or a bank wire transfer.

EXHIBITION AND INSPECTION OF LOTS; QUALITY AND AUTHENTICITY

7. (a) On Premises Inspection only. Ample opportunity is given for on premises inspection prior to the auction date, and, upon written request and at Archives International Auctions discretion.
(b) Each lot is sold as genuine and correctly described, based on individual description as modified by any specific notations in this Catalogue.
(c) Quality. Any lot which a purchaser considers to be incorrectly described may be returned to Archives International Auctions within two weeks of its receipt by such purchaser ("Returning Purchaser"), provided, however, that the same is received by Archives International Auctions within four weeks of the date of the auction; however, Archives International Auctions may, in its discretion, refuse acceptance of such returned lot. If an opinion of a generally recognized authority is desired, the period of time within which a lot must be received by Archives International Auctions will be extended in accordance with Condition of Sale 8. In the event that a dispute cannot be resolved by reference to a generally recognized authority, and Archives International Auctions thereupon undertakes to re-offer the lot with a description identical to the description disputed, the Returning Purchaser shall be liable for the deficiency, if any, between the proceeds of the sale to the Returning Purchaser and the proceeds of a sale to a subsequent purchaser, as well as for all costs and expenses of the re-sale, including commission, and all incidental damages. Any lot, the description of which is disputed, must be returned in-

- (d) Authenticity. Any lot which is declared otherwise than genuine by a generally recognized authority is returnable, provided such lot is received by Archives International Auctions within four weeks of the date of the auction. Proof that a generally recognized authority declines to express an opinion is normally grounds for the return of a lot.
- (e) Expenses incurred a purchaser in the submission and the return of a lot under Conditions of Sale 7 are not subject to refund.

SALES TAX

8. Unless presentation of satisfactory proof that it is exempted by law, a purchaser shall pay to Archives International Auctions New Jersey or New York State and local sales taxes, or any compensating use taxes of any other State claiming jurisdiction.
