KEY TO CATALOGING

DEFINITIONS

SPECIMEN: An archival printing sample of a finished item, such as a stock certificate, banknote or stamp that is printed usually with "000000" serial numbers and may have "Specimen" overprinted on it and be punch canceled to invalidate it and prevent its use surreptitiously. Specimens were kept for a number of reasons, though usually as samples to give out to prospective customers to give them an idea of the type and quality of the work that the printing company was capable of doing. Usually specimens were printed in limited amounts at the beginning of a printing run to evaluate the quality of the printing work and color combinations at an early stage, rather than have an entire production run rejected due to some minor flaw that was not found until after the printing was completed. A specimen is similar to the final product, printed on the same paper and in the same color.

COLOR TRIAL SPECIMENS: Sometimes specimens would be printed in numerous color combinations not used on the final note for evaluation before a final printing. These are usually extremely rare.

PROOF: An initial pull or impression from a plate or die for evaluation of text, vignette, engraving, and esthetic appeal and to check for any errors or faults. These were usually printed on india paper mounted on card or printed on some form of paper or light card. The amount of proofs printed is usually extremely small and usually number only a handful. Proofs allowed the printing company to evaluate the quality of the item being printed without having to go to the expense of making final plates and finding out small errors that could have been repaired at an earlier stage. Usually, proofs are single impressions of banknotes, stamps, vignettes, etc. Anything that was made into a plate, such as a sheet of 100 stamps could have had proof impressions taken from it. These would be called plate proofs (for multiple images) versus die proofs (usually of a single or small amount of images).

COLOR TRIAL PROOF: A proof printed in a color other than the issued color.

ESSAY SPECIMEN or PROOF: A proposed design that was not used but may be similar or even totally different to a final approved design. An artist, engraver or company may have proposed a number of different designs and color combinations to a client for his approval. If a design is rejected and never used, it could be called an essay.

PRODUCTION MATERIAL: Material found in files used in the production of security printed documents, banknotes, stamps and such. It may include correspondence, photographs, artwork, and signature samples, samples of other printed items that are marked up with corrections as well as proofs, specimens, essays, models, mockups and issued final items.

MODEL: A proposed or final design that may include original artwork, pieces of design elements such as borders, titles, vignettes, corporate seals, undertints and possibly portions of photographs. Before an engraved item was made, a design had to be decided on. This portion of the design process allowed for the artistic skills of the engraver or design department to be exhibited. Before the "digital age", banknote engravers and designers would cut up portions of other engraved items and re-apply them in a different form or design to come up with a unique new stamp, banknote or certificate. Often, all new engravings or "vignettes" of people or scenes would be engraved first to include in the new "work of art", and other times, portions of different completed items would be "borrowed" to use on a newly designed item. All models are rare and almost all of them are unique.

- 266 Banco d'Italia 1,000 Mille Salvaged Banknote from S.S. Andrea Doria** Banco d'Italia 1,000 Mille Banknote, Serial number W193000936. Fair condition with missing pieces and staining due to being underwater as a result of the Andrea Doria sinking, happened in 1956. The Mille Note is enclosed in an acrylic plate case, comes with a fitted presentation box, and an informative booklet documenting the history of the incident and salvage efforts that ensued. SS Andrea Doria was an ocean liner for the Italian Line home-ported in Genoa, Italy, most famous for her sinking in 1956, when 46 people died. On 25 July 1956, while Andrea Doria was approaching the coast of Nantucket, Massachusetts, bound for New York City, the Eastbound MS Stockholm of the Swedish American Line collided with it in one of history's most infamous maritime disasters. Struck in the side, the top-heavy Andrea Doria immediately started to list severely to starboard, which left half of its lifeboats unusable. The consequent shortage of lifeboats could have resulted in significant loss of life, but the ship stayed afloat for over 11 hours after the collision. While 1,660 passengers and crew were rescued and survived, 46 people on the ship died as a direct consequence of the collision. The evacuated luxury liner capsized and sank the following morning. This accident remains the worst maritime disaster to occur in United States waters since the sinking of the SS Eastland in 1915..... Est. **\$100-200**

The notes themselves were actually 1% interest bearing, and since they were emitted in the tumultuous late 1830s, notes held too long by the public were likely not redeemed. Engraved with the imprint of C. P. Harrison N. York. At top center is a whaling vignette, unique and custom made for the series, adapted from William Page's 1835 painting, Capturing of a Sperm Whale. At the upper left is a galleon. The right end has a vertical trio of Spanish Colonial real coin reverses that circulated in the period. - 561 Salvaged Banknotes from S.S. Andrea Dorea. U.S. Silver Certificate Pair, \$1, Series of 1935 D and Unknown U.S.** Lot of 2 banknotes, \$1 Silver Certificate pair, Series of 1935 D and Unknown Issued banknotes, Serial numbers: R59526979F and X00629368H, Fair condition with missing pieces and staining due to being underwater as a result of the Andrea Dorea sinking, happened in 1956. The silver certificates are enclosed in an acrylic plate case, comes with a fitted presentation box, and an informative booklet documenting the history of the incident and salvage efforts that ensued. SS Andrea Doria was an ocean liner for the Italian Line home-ported in Genoa, Italy, most famous for her sinking in 1956, when 46 people died. On 25 July 1956, while Andrea Doria was approaching the coast of Nantucket, Massachusetts, bound for New York City, the Eastbound MS Stockholm of the Swedish American Line collided with it in one of history's most infamous maritime disasters. Struck in the side, the top-heavy Andrea Doria immediately started to list severely to starboard, which left half of its lifeboats unusable. The consequent shortage of lifeboats could have resulted in significant loss of life, but the ship stayed afloat for over 11 hours after the collision. While 1,660 passengers and crew were rescued and survived, 46 people on the ship died as a direct consequence of the collision. The evacuated luxury liner capsized and sank the following morning. This accident remains the worst maritime disaster to occur in United States waters since the sinking of the SS Eastland in 1915. (2) Est. \$200-300

- 654 F.C. Newell Mutograph Co., 1900-1909 Specimen Stock certificate. NJ. 190- (1900-1909). Specimen. Odd shs, green. Eagle and shield. A mutograph or mutoscope is a device for creating a moving picture from a series of still photographs. Both the kinetoscope and the mutograph required the viewer to peer into a viewing slot while turning a handle. But whereas Edison's device used a strip of film, Casler's was very close in idea to the flip-book, in which riffling through a sequence of still pictures seems to create a moving image. In the mutoscope the pictures were arranged around a drum; turning a handle caused them to appear one after the other at about 16 frames a second, the minimum needed to give an illusion of movement. The big problem with both the kinetoscope and the mutograph was that only one person could watch at a time. It was created by the American inventor Herman Casler and patented in 1894. Extremely rare pre-silent film era movie certificate. SBNC. XF. (Ex. John E. Herzog Collection)..... Est. \$140-280

Signed by Hiram Sibley -One of the company's founders. Sage Sons & Co. In 1851, the New York and Mississippi Valley Printing Telegraph Company was organized in Rochester, New York by Samuel L. Selden, Hiram Sibley, and others, with the goal of creating one great telegraph system with unified and efficient operations. Meanwhile, Ezra Cornell had bought back one of his bankrupt companies and renamed it the New York & Western Union Telegraph Company. Originally fierce competitors, by 1856 both groups were finally convinced that consolidation was their only alternative for progress. The merged company was named the Western Union Telegraph Company at Cornell's insistence, and Western Union was born. Western Union bought out smaller companies rapidly, and by 1860 its lines reached from the East Coast to the Mississippi River, and from the Great Lakes to the Ohio River. In 1861 it opened the first transcontinental telegraph. In 1865 it formed the Russian-American Telegraph in an attempt to link America to Europe, via Alaska, into Siberia, to Moscow (This project was abandoned in 1867). It introduced the first stock ticker in 1866, and a standardized time service in 1870. The next year, 1871, the company introduced its money transfer service, based on its extensive telegraph network. In 1879, Western Union left the telephone business, settling a patent lawsuit with Bell Telephone Company. As the telephone replaced the telegraph, money transfer would become its primary business. Sir Thomas Lipton began travelling the world for tea, since sales had doubled from £40 million in the late 1870s to £80 million by the mid-1880s. However, he believed the price was far too high, so in 1890 he purchased his own tea gardens in Ceylon, now Sri Lanka, and packaged and sold the first Lipton tea. Staying true to this vision, he arranged packaging and shipping at low costs and sold his tea in packets by the pound (454g), half pound (227g), and quarter pound (113g), with the advertising slogan: "Direct from the tea gardens to the teapot." Lipton teas were an immediate success in the United States. Est. \$150-250

President Abraham Lincoln in 1861 appointed him the U.S. Assistant Secretary of War, and during the American Civil War railroads under his leadership played a major role in the war effort. He became the fourth president of the Pennsylvania Railroad (1874-1880), which became the largest publicly traded corporation in the world and received much criticism for his conduct in the Great Railway Strike of 1877 and as a "robber baron." Scott helped negotiate the Republican Party's Compromise of 1877 with the Democratic Party; it settled the disputed presidential election of 1876 in favor of Rutherford B. Hayes in exchange for the federal government pulling out its military forces from the South and ending the Reconstruction era. SCRIPOPHILY - SPORTS RELATED LOUISIANA

Founded in 1865 as an amateur social/sporting organization, the Pelicans became a professional franchise when they joined the Southern League in 1887. That league operated off and on until it finally folded in 1899. During that time the team captured three pennants: 1887, 1889, and 1896. The Pelicans then became a founding member of the Southern Association in 1901. From 1887-1900, the team played at Sportsman's Park/ Crescent City Base Ball Park located at the foot of Canal Street near the New Basin Canal (now the Pontchartrain Expressway). In 1901, the Pelicans moved to Athletic Park and played there until 1908. After the 1908 season the team moved to Pelican Park, which was located on South Carrollton Avenue, across from present-day Jesuit High School. In 1914, the Pelican Park wooden grandstand was moved by mule teams a quarter-mile down South Carrollton Avenue to the intersection with Tulane Avenue in Mid-City New Orleans. From 1915 through 1936 the facility was known as Heinemann Park after Alexander J. Heinemann, a shareholder in the club and owner of the stadium. The name was changed in 1936 to Pelican Stadium following the death of Heinemann and team owner Charles Somers. The Pelicans played their final game there in 1957. After this, they played for two years at City Park Stadium, now called Tad Gormley Stadium, in City Park. The franchise was sold to Little Rock at the end of the 1959 season. The Southern Association folded after the 1961 season. Notable Pelicans included Shoeless Joe Jackson, Jimmy Dygert, Henry "Cotton" Knaupp, Bill Lindsay, Zeke Bonura, Gene Freese, and Hall of Famers Dazzy Vance, Joe Sewell, Bob Lemon, and Earl Weaver. In Jackson's only season with New Orleans (1910), he hit .354 to win the league batting title and led the team to the pennant with an 87-53 record. The following year, he would hit .408 with the American League's Cleveland Naps. In the 1950s, the team was associated with the Pittsburgh Pirates and was managed by Danny Murtaugh. Other notable Pelican managers included Larry Gilbert and Abner Powell, with the latter credited with introducing the perforated "rain check" in 1889.

SCRIPHOPLY - RAILROADS CONNECTICUT

We are proud to offer Part 1 of two Planned auctions of the Stephen Beck Collection of CSX Predecessor Companies. The collection includes railroads belonging to the B&O, C&O, L&N, Atlantic Coastline, Seaboard, New York Central, Western Maryland, Pere Marquette, and others. Made up of over 400 pieces, this collection begun in 1993, continued up until 2008. His goal was to obtain a single stock or bond certificate representing each predecessor company. Stephen is the retired president of CSX Real Property, Inc., a wholly owned subsidiary of the CSX Corporation. He searched far and wide and for many issues, specimens and proofs were the only evidence of the different railroad lines existence. A number of issued examples are also extremely rare and if not unique, rarely seen by serious collectors and dealers. There are many outstanding bonds and shares in this collection that have not been seen the light of day for many years if not decades including some new to the hobby. Good luck with the auction.

CONDITIONS OF SALE

THE PLACING OF A BID SHALL CONSTITUTE ACCEPTANCE OF THESE CONDITIONS OF SALE

BIDDING

1. Unless announced otherwise by the auctioneer, all bids are per lot, as numbered in the printed Catalogue. Archives International Auctions, as agent for the consignor or vendor, shall regulate the bidding and shall determine the manner in which the bidding shall be conducted. Archives International Auctions reserves the right to withdraw any lot prior to sale (without liability to any potential purchaser or agent), to re-offer any withdrawn lot, to divide a lot or to group two or more lots belonging to the same consignor or vendor, and to refuse any bid believed not made in good faith. Estimates of sales prices contained in the printed Catalogue reflect the best judgment of Archives International Auctions and are not minimum or upset prices.
2. (a) Bids shall be made in the steps set forth in paragraph 12.
(b) The highest bid acknowledged by the auctioneer shall prevail. Should a dispute arise between bidders (including a dispute between a floor bidder and the auctioneer acting on behalf of a mail bidder, consignor or vendor), the auctioneer alone shall determine who the successful bidder is and whether to reoffer the lot in dispute. Should a dispute arise after the sale, the auctioneer's sale records shall be conclusive. On all lots sold, a commission of 20%* on the hammer price is payable by the buyer to the auctioneer (*See exceptions on next page for bids on internet).
3. (a) The auctioneer reserves the right to bid on behalf of clients (and consignors or vendors) but shall not be liable for errors and omissions in executing instructions to bid, however received, and whether such errors or omissions be those of the bidder or agent or those of the auctioneer.
(b) Lots may be offered subject to a reserve price. The auctioneer may implement such reserve price by bidding on behalf of the consignor vendor.
(c) It may also be assumed that all consignors have been advanced monies against the sale of their consigned material and Archives International Auctions therefore has a security interest in the consigned material over and above the normal auction commission.
(d) Purchases made by a consignor or vendor or his agent on his own lots shall be considered as a sale subject to commissions and sales tax as applicable.
(e) Agents are responsible for the payment of the purchase price for all purchases made on behalf of their clients, unless other arrangements with the auctioneer have been confirmed in writing prior to the auction.
6. (a) Purchasers agree to pay for lots as specified in Condition of Sale 4 (or as the same may be modified by Condition of Sale 8), and no credit is extended; a late payment charge of 2% per month or fraction thereof shall be added if payment is not made in accordance with the aforesaid conditions.
(b) In the event that a bidder shall fail to comply with these Conditions of Sale ("Non-Complying Bidder"), then, as to any lot with respect to which such failure to comply occurs, Archives International Auctions may, in its sole discretion, re-offer such lot during the same auction or at an auction at a later time, or by private treaty at such time as Archives International Auctions, in its sole discretion, deems appropriate and the Non-Complying Bidder shall be liable for the deficiency, if any, between the hammer price and the net proceeds of a sale to a subsequent purchaser, whether at auction or by private treaty, as well as for all costs and expenses of both sales, all other charges due thereunder, including commissions with respect to both sales, whether payable to Archives International Auctions or to a third party and all incidental damages. It shall be in Archives International Auctions' sole discretion to determine whether to re-offer the lot theretofore hammered-down to a Non-Complying Bidder at the same auction, or by private treaty in due course, or at a subsequent auction conducted by Archives International Auctions. In no event shall any surplus arising from the sale of a re-offered lot be payable to a Non-Complying Bidder.
(c) A defaulting purchaser shall be deemed to have granted Archives International Auctions a security interest in property in Archives International Auctions possession owned by such purchaser. Archives International Auctions shall have all of the rights afforded a purchase money secured party under the New York or New Jersey Uniform Commercial Code with respect to such property and may apply against such obligations all monies held or received by it for the account of, or due from Archives International Auctions to such purchaser. Archives International Auctions is authorized to file a Financing Statement in order to perfect its rights as a secured party.
(d) If Archives International Auctions takes any legal steps to secure payment of a delinquent account, the defaulting purchaser shall be liable for all legal and other expenses incurred by Archives International Auctions to secure such payment, including but not limited to a reasonable allowance for attorneys' fees. For purposes of this paragraph, the term legal steps shall be deemed to include any and all consultation by Archives International Auctions with its attorneys with respect to all matters arising out of a delinquent account.
(e) Unless otherwise acceptable to Archives International Auctions, payment is to be made only in the form of cash, bank check or certified check, credit card (Visa or MasterCard only) or a bank wire transfer.

PAYMENT FOR PURCHASES

4. Payment for lots, including those on which opinions are desired (Condition of Sale 8), shall be as follows:
(a) Floor Bidders. Payment of the purchase price, or such part thereof as Archives International Auctions shall require, shall be made by the purchaser in cash or bank or certified check or in such other manner as Archives International Auctions may determine. The name and address of the purchaser of each lot shall be given to the auctioneer immediately following the sale of such lot.
(b) Mail Bidders. A successful mail bidder will be notified of lots purchased. Before Archives International Auctions will send such lots, payment in full must be received by Archives International Auctions within three (3) business days of receipt of the aforesaid notification by the mail bidder. However, a purchaser known to Archives International Auctions at its option may have purchases delivered or forwarded for immediate payment (by a dollar draft on a U.S. bank in the case of overseas purchasers). Mailed delivery will be to the address on the bid sheet and proof by Archives International Auctions of receipt of a sending at the advised address shall constitute delivery. All charges for handling, delivery and insurance obtained by Archives International Auctions on behalf of the purchaser shall be added to the purchase price; a minimum charge of \$10.00 will be made. Risk of loss in transit shall be on the purchaser.
5. Title shall not pass to the purchaser until full payment has been received by Archives International Auctions as agents for the consignor or vendor.

EXHIBITION AND INSPECTION OF LOTS; QUALITY AND AUTHENTICITY

7. (a) On Premises Inspection only. Ample opportunity is given for on premises inspection prior to the auction date, and, upon written request and at Archives International Auctions discretion.
(b) Each lot is sold as genuine and correctly described, based on individual description as modified by any specific notations in this Catalogue.
(c) Quality. Any lot which a purchaser considers to be incorrectly described may be returned to Archives International Auctions within two weeks of its receipt by such purchaser ("Returning Purchaser"), provided, however, that the same is received by Archives International Auctions within four weeks of the date of the auction; however, Archives International Auctions may, in its discretion, refuse acceptance of such returned lot. If an opinion of a generally recognized authority is desired, the period of time within which a lot must be received by Archives International Auctions will be extended in accordance with Condition of Sale 8. In the event that a dispute cannot be resolved by reference to a generally recognized authority, and Archives International Auctions thereupon undertakes to re-offer the lot with a description identical to the description disputed, the Returning Purchaser shall be liable for the deficiency, if any, between the proceeds of the sale to the Returning Purchaser and the proceeds of a sale to a subsequent purchaser, as well as for all costs and expenses of the re-sale, including commission, and all incidental damages. Any lot, the description of which is disputed, must be returned in-

tact in the condition received by the purchaser. The following lots are not returnable except at the discretion of Archives International Auctions: (i) lots from purchasers who attended the exhibition of the lots; (ii) lots examined by postal viewers; (iii) lots on account of their appearance, if they are illustrated in this Catalogue; or (iv) lots described as having repairs, defects or faults for any reason.

- (d) Authenticity. Any lot which is declared otherwise than genuine by a generally recognized authority is returnable, provided such lot is received by Archives International Auctions within four weeks of the date of the auction. Proof that a generally recognized authority declines to express an opinion is normally grounds for the return of a lot.

- (e) Expenses incurred a purchaser in the submission and the return of a lot under Conditions of Sale 7 are not subject to refund.

SALES TAX

8. Unless presentation of satisfactory proof that it is exempted by law, a purchaser shall pay to Archives International Auctions New Jersey or New York State and local sales taxes, or any compensating use taxes of any other State claiming jurisdiction. A purchaser shall indemnify Archives International Auctions and hold it harmless of and from any claims of any jurisdiction for sales taxes relating to the purchase of articles at the auction, whenever the same may arise.

APPLICABLE LAW, JURISDICTION, ETC.

9. All matters arising out of this auction shall be governed by the laws of the State of New Jersey without giving effect to the choice of law principles thereof.

ARBITRATION

10. Any controversy or claim arising out of or relating to this auction shall be settled by arbitration in the City of New York, State of New York in accordance with the Rules of the American Arbitration Association and judgment upon the award rendered by the Arbitrator or Arbitrators may be entered in any Court having jurisdiction.

JURISDICTION AND VENUE OF ACTIONS

11. The purchaser at this auction (a) consents and submits to the jurisdiction of the Courts of the State of New Jersey or New York and of the Courts of the United States for a judicial district within the territorial limits of the State of New Jersey for all matters arising out of this

auction sale, including, without limitation, any action or proceeding instituted for the enforcement of any right, remedy, obligation and liability arising under or by reason thereof; and (b) consents and submits to the venue of such action or proceeding in the City of Hackensack, County of Bergen, State of New Jersey (or such judicial district of a Court of the United States as shall include the same, and (c) further consents that service of process in any action relating thereto may be effected by registered mail, return receipt requested address to the purchase at the address given to the auctioneer at the time of the sale.
