KEY TO CATALOGING

DEFINITIONS

SPECIMEN: An archival printing sample of a finished item, such as a stock certificate, banknote or stamp that is printed usually with "000000" serial numbers and may have "Specimen" overprinted on it and be punch canceled to invalidate it and prevent its use surreptitiously. Specimens were kept for a number of reasons, though usually as samples to give out to prospective customers to give them an idea of the type and quality of the work that the printing company was capable of doing. Usually specimens were printed in limited amounts at the beginning of a printing run to evaluate the quality of the printing work and color combinations at an early stage, rather than have an entire production run rejected due to some minor flaw that was not found until after the printing was completed. A specimen is similar to the final product, printed on the same paper and in the same color.

COLOR TRIAL SPECIMENS: Sometimes specimens would be printed in numerous color combinations not used on the final note for evaluation before a final printing. These are usually extremely rare.

PROOF: An initial pull or impression from a plate or die for evaluation of text, vignette, engraving, and esthetic appeal and to check for any errors or faults. These were usually printed on india paper mounted on card or printed on some form of paper or light card. The amount of proofs printed is usually extremely small and usually number only a handful. Proofs allowed the printing company to evaluate the quality of the item being printed without having to go to the expense of making final plates and finding out small errors that could have been repaired at an earlier stage. Usually, proofs are single impressions of banknotes, stamps, vignettes, etc. Anything that was made into a plate, such as a sheet of 100 stamps could have had proof impressions taken from it. These would be called plate proofs (for multiple images) versus die proofs (usually of a single or small amount of images).

COLOR TRIAL PROOF: A proof printed in a color other than the issued color.

ESSAY SPECIMEN or PROOF: A proposed design that was not used but may be similar or even totally different to a final approved design. An artist, engraver or company may have proposed a number of different designs and color combinations to a client for his approval. If a design is rejected and never used, it could be called an essay.

PRODUCTION MATERIAL: Material found in files used in the production of security printed documents, banknotes, stamps and such. It may include correspondence, photographs, artwork, and signature samples, samples of other printed items that are marked up with corrections as well as proofs, specimens, essays, models, mockups and issued final items.

MODEL: A proposed or final design that may include original artwork, pieces of design elements such as borders, titles, vignettes, corporate seals, undertints and possibly portions of photographs. Before an engraved item was made, a design had to be decided on. This portion of the design process allowed for the artistic skills of the engraver or design department to be exhibited. Before the "digital age", banknote engravers and designers would cut up portions of other engraved items and re-apply them in a different form or design to come up with a unique new stamp, banknote or certificate. Often, all new engravings or "vignettes" of people or scenes would be engraved first to include in the new "work of art", and other times, portions of different completed items would be "borrowed" to use on a newly designed item. All models are rare and almost all of them are unique.

- 94 Banco Central De Costa Rica ABNC Archival Production Correspondence With Photo Proof Essay Designs. Costa Rica, 1971, Lot of 3 proposed Front and Back Essay PHOTOCOPY Proofs printed on off white paper of essay designs that are bank note sized. These designs were a proposal to the bank in 1971 and include front and back photo or photocopy proofs (Not originals, but these were official copies made by the ABNC for their correspondence and records). Included are the designs for the 1972-87, 10 Colones, P-237 and 1972-83, 20 Colones, P-238. Both of the final designs that were eventually printed are significantly different than these proposals. The third design for a 50 Colones note was never printed by ABNC and evidently was only printed by TDLR, so this is the only evidence of that design which is unknown to the hobby. Also included is a June 15, 1971 detailed 5 page translation of the letter from the Bank requesting ABNC to submit their proposed designs and all of the design and printing requirements that they require. Historic and extremely interesting archival production information and the behind the scene glimpse into the world of security printing. ABNC. Est. \$600-1000

PANAMA

193

- 193 Panama Railroad, 1880 Unique Approval Proof Bond with Production File.** Panama (Incorporated in New York), 1880, \$1000 Proof bond production file. Includes 2 proofs and 2 correspondence items. All proofs are printed in large format on india paper in black that is not mounted, 11.5 by 18 inches for the face and an equal amount for the coupons attached to the right, if unfolded it would measure 24 by 18 inches. Included in the file is the bond face with attached face coupons on right. The face has a speeding locomotive on a bridge with another bridge on its left while passing a telegraph pole, the bond has the approval date hand written Nov 20, (18)80 in orange and April 11th (18)81 in blue crayon on bottom excess margin. Face also has attached face coupons on right; the back bond panel and reverse of the bond coupons are on one large sheet with approval crayon dates on the bottom similar to the face proof. Also includes 3 pages on an American Bank Note Company letterhead with instructions for bond production as well as a 11 handwritten pages with 7 pages related to final text for bond face, back, coupons and related with 4 of the 11 hand written pages with additional suggestions I assume by an attorney helping with the bond language. Mostly all the items are in VF condition as printed with folds as stored in the production file. The railroad was first completed in 1855, and was about 47 1/2 miles long. It started in the town of Aspinwall on the Atlantic side of the Isthmus. Since the town was built as a terminus for the railroad, its main street was the railway line, named Front Street, as it was adjacent to the bay. When Ferdinand de Lesseps and other travelers arrived in Panama, they usually stepped off the ship at Aspinwall, or Colón as it was renamed. The Panama railroad became one of the most profitable in the world, charging up to \$25 per passenger to travel over 47 miles (76 km) of hard-laid track. Upon completion, the railway was proclaimed an engineering marvel of the era. Until the opening of the Panama Canal, it carried the heaviest volume of freight per unit length of any railroad in the world. The existence of the railway was one of the keys to the selection of Panama as the site of the canal. In 1881 the French Compagnie Universelle du Canal Interocéanique purchased controlling interest in the Panama Railway Company. This bond was issued the previous year in 1880 and was the last fiscal example of the first incarnation of the railroad. In 1904, the United States government under Theodore Roosevelt purchased the railway from the French canal company. Historic and unique Panama Production file. ABNC.....Est. \$3500-5000

Muster Roll of Captain Charles L. Leiper's Company L of the Sixth Regiment of the Pennsylvania Cavalry, June, 1863, "when last paid," to the 31st day of August, 1863. Includes handwritten details such as the names, ranks, and pay roll of the men, as well as the names of those who deserted. The Battle of Gettysburg began on July 1st and ended on July 3rd. Notes on the muster begin with the movement of the troops on July 1st when they are at camp in Mechanicstown, MD., mentions that on July 2nd they marched to Emmittsburg, MD and on July 3rd, scouted around Gettysburg, PA, with reports of their movements on literally a daily basis describing skirmishes with the enemy and other events. Highlights include details written in the "Notes" section of the Muster Roll, for example the case of Hugh Brannan, who was "missing in action at Beverly Ford, Va June 9th 63." Also includes a handwritten record of events "which may be necessary or useful for future reference at the war department, or for present information." This includes the movements and camp locations of the Sixth Regiment, and mentions locations such as Mechanicstown, Maryland, and Manassas Gap, Virginia where on the 22nd of July the Company was "skirmishing with [the] enemy." On August 1st, the Company crossed the Rappahannock, "met the enemy, took part in the Battle of Brandy Station in which one man of Co. "L" was wounded." Fine but fragile condition with pieces missing, very fragile fold lines, splitting, and archival repairs. The 6th Pennsylvania Cavalry was a Union cavalry regiment during the American Civil War. They were known for their early use of 9-foot lances, and were called "Rush's Lancers." The regiment was raised during August and September 1861 from companies raised in Philadelphia, Montgomery and Berks counties by Richard H. Rush, who had been authorized to do so by Governor Curtin. Rush was appointed colonel of the regiment, with John H. M'Arthur as lieutenant colonel and C. Ross Smith and Robert Morris, Jr., as majors. At the suggestion of Maj. Gen. George B. McClellan, the men were armed with Austrian lances. After several weeks of training in Philadelphia, the regiment was transferred to Washington, D.C., where it was assigned to the Cavalry Division of the Army of the Potomac. In the May 1863, the regiment was rearmed with Sharps carbines and assigned to the Reserve Brigade of the 1st Cavalry Division. It fought in the Gettysburg Campaign and Mine Run Campaign. During the Battle of Brandy Station in June 1863, the regiment (led by Major Robert Morris, Jr.) unsuccessfully charged the guns at St. James Church, suffering the greatest casualties of any regiment in the battle. Several Confederates later described the 6th's charge as the most "brilliant and glorious" cavalry charge of the war. (In many Civil War battles, cavalymen typically dismounted once they reached an engagement and fought essentially as infantry. But in this battle, the surprise and chaos led to a mostly mounted fight.) Following the Appomattox Campaign, it was ordered to Washington, D.C., where it was consolidated with the 1st Pennsylvania Cavalry and 17th Pennsylvania Cavalry to form the 2nd Pennsylvania Provisional Cavalry. The combined regiment was sent to Louisville, Kentucky, where it was mustered out in August 1865. Fascinating and historic piece of Civil War history related to an interesting and notable Cavalry Regiment and written during and after their participation in the Battle of Gettysburg. - Pinkerton's National Detective Agency, 1887 Operative Report** New York, 1887. 3 page typewritten document with Pinkerton's National Detective Agency "We Never Sleep" letterhead, addressed to W. M. Smillie, Esq. who was a Vice President of the American Bank Note Co at the time. This piece is an operative report of the activities of D. S. Ronaldson, in which the detective, Robert N. Pinkerton, describes Ronaldson's movements and actions from 7:20 am to 6:15 pm on Wednesday, February 23rd, 1887. This fascinating piece includes terrific descriptions of Ronaldson's associates and details the various saloons he visited throughout the day. D. S. Ronaldson was most likely the man of the same name who was well-known for his stamp engraving work at the time, making it even more interesting that someone from ABNC was using the famous detective agency to "tail" him. Signed by Robert N. Pinkerton, a probable relative of Allan Pinkerton. Pinkerton, founded as the Pinkerton National Detective Agency, is a private security guard and detective agency established in the United States by Scotsman Allan Pinkerton in 1850 and currently a subsidiary of Securitas AB. Pinkerton became famous when he claimed to have foiled a plot to assassinate president-elect Abraham Lincoln, who later hired Pinkerton agents for his personal security during the Civil War. Pinkerton's agents performed services ranging from security guarding to private military contracting work. The Pinkerton National Detective Agency hired women and minorities from its founding, a practice uncommon at the time. Pinkerton was the largest private law enforcement organization in the world at the height of its power. During the labor strikes of the late 19th, early 20th and early 21st centuries, businessmen hired the Pinkerton Agency to infiltrate unions, supply guards, keep strikers and suspected unionists out of factories, and recruit goon squads to intimidate workers. One such confrontation was the Homestead Strike of 1892, in which Pinkerton agents were called in to reinforce the strikebreaking measures of industrialist Henry Clay Frick, acting on behalf of Andrew Carnegie. The ensuing battle between Pinkerton agents and striking workers led to the deaths of three Pinkerton agents and nine steelworkers. The Pinkertons were also used as guards in coal, iron, and lumber disputes in Illinois, Michigan, New York, Pennsylvania, and West Virginia as well as the Great Railroad Strike of 1877 and the Battle of Blair Mountain in 1921. VF condition for its age, with slight splitting along fold lines, staple at top. Rare and unique piece of Numismatic and Security Printer history..... Est. \$500-1000

Maine, 1888, I/U Stock, 5 Shares, #70, Black print with ornate black border and Bald Eagle vignette center, VF condition with vertical crease down middle from folding, John A. Lowell & Co. In 1894 Annie "Londonderry" Kopchovsky traveled "around the world" on a Sterling. Starting from Boston and heading west, her first bike was a Columbia but it proved unsuitable. In Chicago, the Sterling company gave her a men's Sterling (weighing 21 pounds, it had no brakes) which made riding in skirts impossible. She then wore bloomers and finally rode in a men's riding suit. Peter Zheutlin's book "Around the World on Two Wheels" records her journey. She claimed to be the first woman to "cycle around the world", duplicating a feat that Thomas Stevens had accomplished 10 years earlier. In 1898 Sterling won a Silver Medal at the Trans-Mississippi International Exposition held in Omaha, Nebraska for its "chainless bicycles and safeties". Est. \$100-200

Certificate in French Antwerp (Anvers in French), Belgium. 1781. 1/U Share
Certificate for Societe du Commerce d'Asie & d'Afrique &c. (Triester Handels-
Compagnie) (Austrian East India Company) signed by Duke Charles de Proli as General
Manager and Guillaume Bolts. In 1775, William (Guillaume) Bolts offered his services to the
Imperial government, putting forward a proposal for re-establishing Austrian trade with
India from the Adriatic port of Trieste. His proposal was accepted by the government of
Empress Maria Theresa. The company was primarily financed by Antwerp bankers. In
1781 the first shares were disbursed with great success. The famous Antwerp merchant
Charles de Proli (son of the founder of the Imperial Indian Company), who was also
involved in the insurance industry, became the manager. Eventually, due to mounting
losses, debts, and liabilities, the company suspended all payments in January 1785,
declaring bankruptcy shortly thereafter, also bringing the Proli banking house down
with it. VF condition, especially for its age. Rare piece of commercial history. (ex.Spink

Manaus has one of the world's most exotic locations: 1,500 km up the Amazon River, 3° south of the Equator, in the middle of the world's largest rain forest, inaccessible until 1972 by automobile and never reached by railroad. The city was a product of the 19th century rubber boom: foreigners flocked to the Equatorial region, grew fabulously rich and built a lavish jungle metropolis that compared architecturally and culturally with capitals in Europe. However, in the early 1900s rubber seeds were smuggled to Ceylon and boom turned to bust: exports slipped to one-third, the foreigners fled and the city fell into a half-century of stagnation. In 1965 the Brazilian government made Manaus a free port and today the avenues are lined with skyscrapers and duty-free shops selling Japanese cameras and automobiles. The city's name was written Manaos until 1937..... Est. \$100-200

- 412 Bertram Mills Circus Ltd., ND (1947), Specimen Stock Certificate London, England, ND (1947). Specimen Stock Certificate, Black on blue border with company title at top, POCs at bottom along with archival notations, uncirculated condition, BWC. Bertram Wagstaff Mills became interested in the "Wilkins and Young Circus". He made a wager with a friend that he could form a circus company and within a year be as good as they were. He did just that, thus the "Bertram Mills International Circus" was formed. The circus very quickly became a household name, and the annual Christmas event became especially well-known. He made a point of inviting orphans to see the shows free. By 1930 (its heyday would last for the next 30 years, when it was the best and most famous live show), he had inaugurated a touring circus, which became unique amongst British circuses, always appearing at Olympia for the Christmas season. The guest lists indicate the show's renown; the royal family, who were great supporters, attended every year, and Winston Churchill and similar dignitaries were also annual guests. Est. \$200-350

- 544 New York, West Shore & Buffalo Railway Co., 1881 Specimen 5% Coupon Bond, VF ABNC Rare bond unknown issued or Specimen until this example. Rare and very attractive bond. ABNC. NY, New York, New York and New Jersey. 1881. West Shore & Buffalo Railway Co., \$1000, Specimen 5% Coupon Bond, VF ABNC, The New York, West Shore, and Buffalo Railroad was created in 1882 to build a line from Weehawken, NJ to Buffalo, NY. It was built to directly compete with the New York Central as it tracks virtually paralleled the Central's all the way to Buffalo. The name was derived from the location of the initial right of way on the West Shore of the Hudson River. The West Shore reached Buffalo around 1884. This event precipitated a shipping rate war with the New York Central. The New York Central had been forced to acquire the Nickel Plate as its parallel line along the Central's Lake Shore route threatened to be too competitive for the wily Vanderbilts. When the West Shore did the same thing on the remainder of the Central's New York to Chicago route the Central had no choice, but to batter them into submission financially. The West Shore soon went bankrupt and the NYC's deep pockets were barely dented. In 1885 the West Shore was reorganized as the West Shore Railroad, a wholly owned subsidiary of the New York Central lines. It operated in this capacity until 1952 when the West Shore was formally merged into the New York Central. Quite a bit of the old West Shore still exists today and is used by CSX, the successor to Conrail, Penn Central and the New York Central. It is CSX' primary freight route north from New York City on the west shore of the Hudson river. Pieces in central New York including most of the line between Utica, through Syracuse to Rochester exist as bypasses or connections and the old West Shore East Buffalo Yard is now a part of CSX' Frontier Yard. Splits at horizontal folds archivally reinforced and repaired. Rare bond that will be impossible to improve upon. Est. \$75-150

KENTUCKY

C. Settle Printers. John Barbee (September 16, 1815 – December 22, 1888) was the tenth Mayor of Louisville, Kentucky from 1855 to 1857 and chiefly remembered for his part in the anti-immigrant riots known as "Bloody Monday". He was elected to the city council in 1849 and 1851 and in 1855, as a member of the anti-Catholic, anti-foreigner Know Nothing party, he was elected Mayor over James S. Speed, who did not run for re-election, believing the election was invalid, but his appeal was denied eventually by the Kentucky Supreme Court. The most notable event of his term was "Bloody Monday", an uprising against (mostly Catholic) German and Irish immigrants on August 6, 1855. The day was election day, and despite the likelihood of riots, Barbee would not provide any security at voting booths. Know-Nothings prevented naturalized German and Irish from voting, and riots erupted on the streets of the Butchertown district of Louisville. Germans were beaten and some were killed as the riots spilled into the Irish-dominated Eighth Ward, burning a large row of houses (Quinn's Row). Barbee finally intervened to prevent rioters from destroying the city's Catholic cathedral. Officially, 22 people were killed in the riots, although some sources place the number of deaths at 100 or more. Est. \$150-250

CONDITIONS OF SALE

THE PLACING OF A BID SHALL CONSTITUTE ACCEPTANCE OF THESE CONDITIONS OF SALE

BIDDING

1. Unless announced otherwise by the auctioneer, all bids are per lot, as numbered in the printed Catalogue. Archives International Auctions, as agent for the consignor or vendor, shall regulate the bidding and shall determine the manner in which the bidding shall be conducted. Archives International Auctions reserves the right to withdraw any lot prior to sale (without liability to any potential purchaser or agent), to re-offer any withdrawn lot, to divide a lot or to group two or more lots belonging to the same consignor or vendor, and to refuse any bid believed not made in good faith. Estimates of sales prices contained in the printed Catalogue reflect the best judgment of Archives International Auctions and are not minimum or upset prices.
2. (a) Bids shall be made in the steps set forth in paragraph 12.
(b) The highest bid acknowledged by the auctioneer shall prevail. Should a dispute arise between bidders (including a dispute between a floor bidder and the auctioneer acting on behalf of a mail bidder, consignor or vendor), the auctioneer alone shall determine who the successful bidder is and whether to reoffer the lot in dispute. Should a dispute arise after the sale, the auctioneer's sale records shall be conclusive. On all lots sold, a commission of 20%* on the hammer price is payable by the buyer to the auctioneer (*See exceptions on next page for bids on internet).
3. (a) The auctioneer reserves the right to bid on behalf of clients (and consignors or vendors) but shall not be liable for errors and omissions in executing instructions to bid, however received, and whether such errors or omissions be those of the bidder or agent or those of the auctioneer.
(b) Lots may be offered subject to a reserve price. The auctioneer may implement such reserve price by bidding on behalf of the consignor vendor.
(c) It may also be assumed that all consignors have been advanced monies against the sale of their consigned material and Archives International Auctions therefore has a security interest in the consigned material over and above the normal auction commission.
(d) Purchases made by a consignor or vendor or his agent on his own lots shall be considered as a sale subject to commissions and sales tax as applicable.
(e) Agents are responsible for the payment of the purchase price for all purchases made on behalf of their clients, unless other arrangements with the auctioneer have been confirmed in writing prior to the auction.

PAYMENT FOR PURCHASES

4. Payment for lots, including those on which opinions are desired (Condition of Sale 8), shall be as follows:
(a) Floor Bidders. Payment of the purchase price, or such part thereof as Archives International Auctions shall require, shall be made by the purchaser in cash or bank or certified check or in such other manner as Archives International Auctions may determine. The name and address of the purchaser of each lot shall be given to the auctioneer immediately following the sale of such lot.
(b) Mail Bidders. A successful mail bidder will be notified of lots purchased. Before Archives International Auctions will send such lots, payment in full must be received by Archives International Auctions within three (3) business days of receipt of the aforesaid notification by the mail bidder. However, a purchaser known to Archives International Auctions at its option may have purchases delivered or forwarded for immediate payment (by a dollar draft on a U.S. bank in the case of overseas purchasers). Mailed delivery will be to the address on the bid sheet and proof by Archives International Auctions of receipt of a sending at the advised address shall constitute delivery. All charges for handling, delivery and insurance obtained by Archives International Auctions on behalf of the purchaser shall be added to the purchase price; a minimum charge of \$10.00 will be made. Risk of loss in transit shall be on the purchaser.
5. Title shall not pass to the purchaser until full payment has been received by Archives International Auctions as agents for the consignor or vendor.

6. (a) Purchasers agree to pay for lots as specified in Condition of Sale 4 (or as the same may be modified by Condition of Sale 8), and no credit is extended; a late payment charge of 2% per month or fraction thereof shall be added if payment is not made in accordance with the aforesaid conditions.
(b) In the event that a bidder shall fail to comply with these Conditions of Sale ("Non-Complying Bidder"), then, as to any lot with respect to which such failure to comply occurs, Archives International Auctions may, in its sole discretion, re-offer such lot during the same auction or at an auction at a later time, or by private treaty at such time as Archives International Auctions, in its sole discretion, deems appropriate and the Non-Complying Bidder shall be liable for the deficiency, if any, between the hammer price and the net proceeds of a sale to a subsequent purchaser, whether at auction or by private treaty, as well as for all costs and expenses of both sales, all other charges due thereunder, including commissions with respect to both sales, whether payable to Archives International Auctions or to a third party and all incidental damages. It shall be in Archives International Auctions' sole discretion to determine whether to re-offer the lot theretofore hammered-down to a Non-Complying Bidder at the same auction, or by private treaty in due course, or at a subsequent auction conducted by Archives International Auctions. In no event shall any surplus arising from the sale of a re-offered lot be payable to a Non-Complying Bidder.
(c) A defaulting purchaser shall be deemed to have granted Archives International Auctions a security interest in property in Archives International Auctions possession owned by such purchaser. Archives International Auctions shall have all of the rights afforded a purchase money secured party under the New York or New Jersey Uniform Commercial Code with respect to such property and may apply against such obligations all monies held or received by it for the account of, or due from Archives International Auctions to such purchaser. Archives International Auctions is authorized to file a Financing Statement in order to perfect its rights as a secured party.
(d) If Archives International Auctions takes any legal steps to secure payment of a delinquent account, the defaulting purchaser shall be liable for all legal and other expenses incurred by Archives International Auctions to secure such payment, including but not limited to a reasonable allowance for attorneys' fees. For purposes of this paragraph, the term legal steps shall be deemed to include any and all consultation by Archives International Auctions with its attorneys with respect to all matters arising out of a delinquent account.
(e) Unless otherwise acceptable to Archives International Auctions, payment is to be made only in the form of cash, bank check or certified check, credit card (Visa or MasterCard only) or a bank wire transfer.

EXHIBITION AND INSPECTION OF LOTS; QUALITY AND AUTHENTICITY

7. (a) On Premises Inspection only. Ample opportunity is given for on premises inspection prior to the auction date, and, upon written request and at Archives International Auctions discretion.
(b) Each lot is sold as genuine and correctly described, based on individual description as modified by any specific notations in this Catalogue.
(c) Quality. Any lot which a purchaser considers to be incorrectly described may be returned to Archives International Auctions within two weeks of its receipt by such purchaser ("Returning Purchaser"), provided, however, that the same is received by Archives International Auctions within four weeks of the date of the auction; however, Archives International Auctions may, in its discretion, refuse acceptance of such returned lot. If an opinion of a generally recognized authority is desired, the period of time within which a lot must be received by Archives International Auctions will be extended in accordance with Condition of Sale 8. In the event that a dispute cannot be resolved by reference to a generally recognized authority, and Archives International Auctions thereupon undertakes to re-offer the lot with a description identical to the description disputed, the Returning Purchaser shall be liable for the deficiency, if any, between the proceeds of the sale to the Returning Purchaser and the proceeds of a sale to a subsequent purchaser, as well as for all costs and expenses of the re-sale, including commission, and all incidental damages. Any lot, the description of which is disputed, must be returned in-

tact in the condition received by the purchaser. The following lots are not returnable except at the discretion of Archives International Auctions: (i) lots from purchasers who attended the exhibition of the lots; (ii) lots examined by postal viewers; (iii) lots on account of their appearance, if they are illustrated in this Catalogue; or (iv) lots described as having repairs, defects or faults for any reason.

- (d) Authenticity. Any lot which is declared otherwise than genuine by a generally recognized authority is returnable, provided such lot is received by Archives International Auctions within four weeks of the date of the auction. Proof that a generally recognized authority declines to express an opinion is normally grounds for the return of a lot.
- (e) Expenses incurred a purchaser in the submission and the return of a lot under Conditions of Sale 7 are not subject to refund.

SALES TAX

8. Unless presentation of satisfactory proof that it is exempted by law, a purchaser shall pay to Archives International Auctions New Jersey or New York State and local sales taxes, or any compensating use taxes of any other State claiming jurisdiction. A purchaser shall indemnify Archives International Auctions and hold it harmless of and from any claims of any jurisdiction for sales taxes relating to the purchase of articles at the auction, whenever the same may arise.

JURISDICTION AND VENUE OF ACTIONS
