KEY TO CATALOGING

DEFINITIONS

SPECIMEN: An archival printing sample of a finished item, such as a stock certificate, banknote or stamp that is printed usually with "000000" serial numbers and may have "Specimen" overprinted on it and be punch canceled to invalidate it and prevent its use surreptitiously. Specimens were kept for a number of reasons, though usually as samples to give out to prospective customers to give them an idea of the type and quality of the work that the printing company was capable of doing. Usually specimens were printed in limited amounts at the beginning of a printing run to evaluate the quality of the printing work and color combinations at an early stage, rather than have an entire production run rejected due to some minor flaw that was not found until after the printing was completed. A specimen is similar to the final product, printed on the same paper and in the same color.

COLOR TRIAL SPECIMENS: Sometimes specimens would be printed in numerous color combinations not used on the final note for evaluation before a final printing. These are usually extremely rare.

PROOF: An initial pull or impression from a plate or die for evaluation of text, vignette, engraving, and esthetic appeal and to check for any errors or faults. These were usually printed on india paper mounted on card or printed on some form of paper or light card. The amount of proofs printed is usually extremely small and usually number only a handful. Proofs allowed the printing company to evaluate the quality of the item being printed without having to go to the expense of making final plates and finding out small errors that could have been repaired at an earlier stage. Usually, proofs are single impressions of banknotes, stamps, vignettes, etc. Anything that was made into a plate, such as a sheet of 100 stamps could have had proof impressions taken from it. These would be called plate proofs (for multiple images) versus die proofs (usually of a single or small amount of images).

COLOR TRIAL PROOF: A proof printed in a color other than the issued color.

ESSAY SPECIMEN or PROOF: A proposed design that was not used but may be similar or even totally different to a final approved design. An artist, engraver or company may have proposed a number of different designs and color combinations to a client for his approval. If a design is rejected and never used, it could be called an essay.

PRODUCTION MATERIAL: Material found in files used in the production of security printed documents, banknotes, stamps and such. It may include correspondence, photographs, artwork, and signature samples, samples of other printed items that are marked up with corrections as well as proofs, specimens, essays, models, mockups and issued final items.

MODEL: A proposed or final design that may include original artwork, pieces of design elements such as borders, titles, vignettes, corporate seals, undertints and possibly portions of photographs. Before an engraved item was made, a design had to be decided on. This portion of the design process allowed for the artistic skills of the engraver or design department to be exhibited. Before the "digital age", banknote engravers and designers would cut up portions of other engraved items and re-apply them in a different form or design to come up with a unique new stamp, banknote or certificate. Often, all new engravings or "vignettes" of people or scenes would be engraved first to include in the new "work of art", and other times, portions of different completed items would be "borrowed" to use on a newly designed item. All models are rare and almost all of them are unique.

U.S. MILITARY PAYMENT CERTIFICATES

SHANGHAI, CHINA & WASHINGTON, D.C.

During the 1924 Kiangsu-Chekiang War Marines from the Asiatic Fleet briefly landed to protect vital facilities along the Wangpo River such as the Standard Oil storage tanks and the power station. In 1927 Chinese Nationalist began to consolidate their hold on China by moving against warlords operating in the Yangtze Valley. As the Nationalists advanced they occasionally attacked foreigners along the river valley. After the Nationalists over ran the British Concession in Hankow, it was feared Shanghai would also suffer the same fate.

When Japan and a number of European powers rushed reinforcements to the city, Shanghai-based American merchants called upon the U.S. Government for assistance. In response to their call, the 4th Marine Regiment boarded the USS Chaumont at San Diego and raced across the Pacific. Arriving in the early morning hours of 24 February 1927, the Marines lined the ship's rails expecting to engage immediately in combat. They were disappointed, Shanghai was calm- the Nationalists had no intention of provoking the great powers and notified the Shanghai municipal government there would be no sacking of the city. Although liberty was soon granted, the Chaumont Marines for the next month had to return aboard the ship each night until the State Department and the Navy could agree to mission for the Marines. On 21 March, in response to fighting between forces loyal to Chiang Kai Shek and Communists members of his own Nationalist party, the 4th Regiment was finally allowed to permanently disembark to protect American lives and property.

But apart from a few foot patrols near some of the fighting, the Marines were mere spectators to this inter-Chinese conflict. The 4th Marines enjoyed a relatively good life in Shanghai that balanced social events with military activities. The 4th had its own band and a Drum and Trumpet Corps. Athletics played a big part of their China experience with baseball in the spring and summer and football at Thanksgiving. In addition the Marines learned rugby and took on British army and navy teams and even had a kendo team. These scrip notes or coupons are historic remnants of the commerce conducted by the U.S. Marines stationed in Shanghai, China. all are extremely rare and are the only examples found in the Pogrebetsky collection we offered in Hong Kong from 2013 to 2015

in 5 auctions. These are sure to attract attention of the MPC and military related collector.

- 147 National Bank of Persia (aka Bank Melli-e Iran). ND (AH1311-AH1313 // 1932-1934). Lot of 4 Early Proof Design Element Vignettes.** Iran (Persia was the name used until 1935). ND (Pre 1935). A set of four intaglio printed proof denomination counter vignettes, printed on india paper in black or green, as used on the 1932-1934 issues of the National Bank of Persia. Established in 1927 under German management, and with Kurt Lindenblatt as its governor, it was to be the vehicle for Germany's economic expansion into Persia. By World War II, Reza Shah's Iran and Hitler's Germany had developed close commercial ties. But this was a relationship that came to an abrupt end with the Allied invasion of Iran in 1941. Thereafter, the Bank came to be known by its Persian name – the Bank Melli-e Iran – which became the country's Central Bank until 1960 and continues as a commercial bank to this day. The first piece included is a "10" as used on the 10 Rials, AH1311, P-19, die # 69213; the second is a "50" as used on the 50 Rials, AH1311, P-21, die # 69386; third is a "500" as used on the 500 Rials, AH1311, P-23, die # 69366; and the fourth is a pair of different "1000"s as used on the 1000 Rials (different designs in the different corners), AH1313, P-30, die # 71431. Each of the numeral figures on the four pieces is enclosed in a unique and elaborate guilloche, with "National Bank of Persia" indicated. ABNC. Extremely rare in this form, with the original bank name. All are in AU to uncirculated condition except for the 10 Rials proof which is missing small pieces from the lower right and upper left corners. Extremely rare Iran banknote production items. PMG graded Choice Uncirculated 64 with comment "selvage included." This utopian experiment in collective living was formed in 1887 and attracted several hundred adherents to land that the co-operative owned in the Port Angeles area. Members were progressive advocates of labor rights and were, oddly, anti-Chinese due to the Chinese participation in the local labor market. The Panic of 1893 killed both the lumber market and this colony which was finally officially dissolved in 1904. Your cataloger believes that these notes were used by co-operative members to purchase goods manufactured by the co-operative. Photograph is pale and mounted on cardstock. Show Indians, or Wild West Show Indians, is a term for Native American performers hired by Wild West shows, most notably in Buffalo Bill's Wild West and Congress of Rough Riders. Many went on to act in silent films. William Frederick "Buffalo Bill" Cody, toured the United States and Europe between 1883 and 1913. Native Americans were hired from the earliest stages of the show, first drawn from the Pawnee tribe (1883-1885) and then the Lakota tribe. Photograph is in XF-AU condition. EPHEMERA - PRESIDENTIAL WASHINGTON, D.C.

296

- 296 Message from the President of the United States Regarding Impressed American Seamen in Dartmoor Prison, 1816** Washington, D.C., 1816. Message from the President of the United States (James Madison), Transmitting a Report of the Secretary of State (James Monroe) of the Number of Impressed American Seamen confined in Dartmoor Prison, to be addressed to the House of Representatives on April 29th, 1816. Many pages long, split into three parts (A, B, and C) with comprehensive information such as the number surrendered, given up, or taken on board British vessels captured during the War of 1812, as well as their place of residence in the United States. Part A contains a list of incarcerated sailors that were transferred from British ships of war to Dartmoor and other prisons in Britain; B lists the names of those who were transferred to prisons in the West Indies and Nova Scotia; C contains the names of those who were discharged in England from British ships of war since peacetime. Also includes information regarding the date of release, vessel on which they returned to the United States, as well as the name of the Port and the date in which they arrived. Dartmoor Prison is an English prison located in Princetown, in the English county of Devon. Designed by Daniel Asher Alexander and constructed originally between 1806 and 1809 by local labor, to hold prisoners of the Napoleonic Wars, it was also used to hold American prisoners from the War of 1812. Although the war ended with the Treaty of Ghent in December 1814, many American prisoners of war still remained in Dartmoor. From the spring of 1813 until March 1815, about 6,500 American sailors were imprisoned at Dartmoor. These were either naval prisoners or impressed American seamen discharged from British vessels. Whilst the British were in overall charge of the prison, the prisoners created their own governance and culture. They had courts which meted out punishments, a market, a theatre and a gambling room. About 1,000 of the prisoners were Black. After the prisoners heard of the Treaty of Ghent, signed on 24 December 1814, they expected immediate release, but the British government refused to let them go on parole or take any steps until the treaty was ratified by the United States Senate on February 17th, 1815. It took several weeks afterwards for transportation arrangements to be made, and the last of the American prisoners left in 1816. Fascinating piece that provides a significant record of American seamen involved in the War of 1812. Fine-VF condition. Est. \$800-1500

- 327 Radio Station Verified Reception Stamps, ND (1920-30s)** Lot of 34 Radio Stamps printed by Bryant Radio. Stamps have different radio station codes at bottom, A hobby called DXing traces its roots to the earliest days of radio. Basically, people would listen for faraway radio stations, then write a note to the station with some details of what they heard. In many cases, the station would send back a confirmation. The hobbyists would see how many of these confirmations they could collect. The earliest form of confirmation sent by radio stations in the 1920s was a "Verified Reception Stamp." The Bryant stamps are rare because they had a fairly limited run being sold directly to collectors too impatient to wait for a reply from stations between 1925 and 1927. Stamps came in a variety of colors including red, green, purple, brown, blue, gray and orange. More than 700 stations in the U.S., Canada, Mexico and Cuba participated in the promotion. (34). HISTORIC MINING STOCK CERTIFICATE USED ON THE COVER OF GARBANI'S REFERENCE WORK ON ARIZONA MINING

416

- 416 The Gold Mining Co., 1888, I/U Stock Certificate Rarity** Arizona Territory, (Inc. in West Virginia with offices in Washington, D.C.), 1888. 1000 Shares Capital Stock I/U Certificate, Green printing with gold underprint, Mountain view of Arizona at top right corner and map of Arizona as underprint, S/N 599, VF to VF+ condition, Printed by A. Gadney. The Muni Mountain district is located on the slopes of the Grand Wash Cliffs in the Music Mountains. Here a few prospects were located in the mid-1880 s within a limited mineralized area. The Gold Mining Company was the most important of the prospecting groups, working the Ellen Jane and Tommanotto. The work performed by this company appears to be of a prospecting nature. When they were reorganized in 1892, the new venture mined and processed 700 tons of ore at their mill. The mine was worked by lessees through the first part of the twentieth century until 1915 when the Lucknow and Music Mining Co. began further prospecting after tying up all the good properties in the district. The map and vignettes on this certificate tell all the story. The upper right corner of the certificate has a vignette drawing in gold of the mine site. The underprint of the entire certificate is a map showing the location of the mine and its relationship to neighboring mountains, railroads, stage routes, and mining camps. The Ellen Jane mine was accessed from a stage coach US Mail route that ran northwest of Hackberry, a community southeast of the Ellen Jane. The Ellen Jane and Tommanotto mines are nestled in the Music Mountains below Shipman Peak. The Atlantic & Pacific Railroad line is shown on the map as well, which stretches from south of Mineral Park eastward through Hualapai, Hackberry, and Truxton. The company was unable to produce significant quantities of precious metals to keep afloat. This extremely rare, extremely fine certificate was used for the cover of Garbani's book because of its unusually attractive and artistic art work. Few certificates in America display this degree of artisanship. Est. \$800-1600

It was one of the richest mines in the area until the Panic of 1893 and the resulting decline of the value of silver. A WWI era need for lead, often associated with silver deposits, kept the mine going for a while longer. - 422 **Andes Silver Mining Co., 1876 I/U Stock Certificate Signed by Civil War General George S. Dodge.** Virginia Mining District, Storey County, Nevada. (Offices in San Francisco, CA.), 10 Shares, I/U stock certificate, Ornate title with logo at left, S/N 7494, VF-XF condition with small pin holes from being attached to document. Signed by Geo. S. Dodge as president. Dodge received a historic silver ingot. "The Ingot Recipient, George Sullivan Dodge was a decorated Civil War veteran, who was brought to the West Coast about 1871 to manage the monstrous new silver company in Eureka, the Eureka Consolidated. The mine was so rich that it rivaled the best of the Comstock, ultimately producing over \$20 million from 1873 to 1906 alone. Dodge's office was in San Francisco, right in the center of the Montgomery Street business section (Bank of California, etc.) where most of the financial ends of the Comstock mining barons took place. Dodge appears to have been appointed the first president of the Company, with the attendant job of getting the mine into profitable and large scale production. He was in charge of hiring the best mining men and putting together a mining crew to rival the best on the Comstock. George Sullivan Dodge (August 3, 1838 - August 24, 1881) was a Union Army officer during the American Civil War, a United States consul to Bremen, Germany and a merchant. Dodge, the son of William P. and Nancy B. Dodge (1806-1853), was born on August 4, 1838, in Irasburg, Orleans County, Vermont, Dodge became a prominent merchant. With the outbreak of hostilities in the American Civil War, Dodge entered a volunteer regiment for the Union Army and was appointed colonel in the army's Quartermaster Department. During the war's later years, he served as Chief Quartermaster of the Army of the James under Major General Benjamin F. Butler and later under Major General Edward O.C. Ord. On January 26, 1865, President Abraham Lincoln nominated Dodge for appointment to the grade of brevet brigadier general to rank from January 15, 1865 for his last-minute resupply of beleaguered Union forces at the Second Battle of Fort Fisher (January 13-15, 1865) and the United States Senate confirmed the appointment on February 14, 1865. He later participated in the Battle of Wilmington (February 11-22, 1865). After the war, Dodge served as the United States Consul in Bremen, Germany (1866-1869)..... Est. \$90-160

The Death Valley Railroad connected Ryan, California to the Tonopah & Tidewater Railroad at Death Valley Junction. The line followed a path that ran just south of present-day CA-190 from the Junction. In the early 1910's, the ore industry was in decline, and the numerous railroads that were built to tap into this industry required a change in business operations if they were to survive. To that end, in 1914, the Pacific Coast Borax Company began attempting to scout the area around Furnace Creek, CA for richer borax deposits. Once they found some a bit west of their existing mines, plans were put forward to build a narrow gauge railroad from the new mines to connect with the Tonopah & Tidewater Railroad at Death Valley Junction to ship the borax away for processing and packaging. By the end of 1914, the line was built and known as the Death Valley Railroad. We sold 1 previously in a past sale for \$720. Est. \$500-1000

CONDITIONS OF SALE

THE PLACING OF A BID SHALL CONSTITUTE ACCEPTANCE OF THESE CONDITIONS OF SALE

BIDDING

1. Unless announced otherwise by the auctioneer, all bids are per lot, as numbered in the printed Catalogue. Archives International Auctions, as agent for the consignor or vendor, shall regulate the bidding and shall determine the manner in which the bidding shall be conducted. Archives International Auctions reserves the right to withdraw any lot prior to sale (without liability to any potential purchaser or agent), to re-offer any withdrawn lot, to divide a lot or to group two or more lots belonging to the same consignor or vendor, and to refuse any bid believed not made in good faith. Estimates of sales prices contained in the printed Catalogue reflect the best judgment of Archives International Auctions and are not minimum or upset prices.
2. (a) Bids shall be made in the steps set forth in paragraph 12.
(b) The highest bid acknowledged by the auctioneer shall prevail. Should a dispute arise between bidders (including a dispute between a floor bidder and the auctioneer acting on behalf of a mail bidder, consignor or vendor), the auctioneer alone shall determine who the successful bidder is and whether to reoffer the lot in dispute. Should a dispute arise after the sale, the auctioneer's sale records shall be conclusive. On all lots sold, a commission of 20%* on the hammer price is payable by the buyer to the auctioneer (*See exceptions on next page for bids on internet).
3. (a) The auctioneer reserves the right to bid on behalf of clients (and consignors or vendors) but shall not be liable for errors and omissions in executing instructions to bid, however received, and whether such errors or omissions be those of the bidder or agent or those of the auctioneer.
(b) Lots may be offered subject to a reserve price. The auctioneer may implement such reserve price by bidding on behalf of the consignor vendor.
(c) It may also be assumed that all consignors have been advanced monies against the sale of their consigned material and Archives International Auctions therefore has a security interest in the consigned material over and above the normal auction commission.
(d) Purchases made by a consignor or vendor or his agent on his own lots shall be considered as a sale subject to commissions and sales tax as applicable.
(e) Agents are responsible for the payment of the purchase price for all purchases made on behalf of their clients, unless other arrangements with the auctioneer have been confirmed in writing prior to the auction.

PAYMENT FOR PURCHASES

4. Payment for lots, including those on which opinions are desired (Condition of Sale 8), shall be as follows:
(a) Floor Bidders. Payment of the purchase price, or such part thereof as Archives International Auctions shall require, shall be made by the purchaser in cash or bank or certified check or in such other manner as Archives International Auctions may determine. The name and address of the purchaser of each lot shall be given to the auctioneer immediately following the sale of such lot.
(b) Mail Bidders. A successful mail bidder will be notified of lots purchased. Before Archives International Auctions will send such lots, payment in full must be received by Archives International Auctions within three (3) business days of receipt of the aforesaid notification by the mail bidder. However, a purchaser known to Archives International Auctions at its option may have purchases delivered or forwarded for immediate payment (by a dollar draft on a U.S. bank in the case of overseas purchasers). Mailed delivery will be to the address on the bid sheet and proof by Archives International Auctions of receipt of a sending at the advised address shall constitute delivery. All charges for handling, delivery and insurance obtained by Archives International Auctions on behalf of the purchaser shall be added to the purchase price; a minimum charge of \$10.00 will be made. Risk of loss in transit shall be on the purchaser.
5. Title shall not pass to the purchaser until full payment has been received by Archives International Auctions as agents for the consignor or vendor.

6. (a) Purchasers agree to pay for lots as specified in Condition of Sale 4 (or as the same may be modified by Condition of Sale 8), and no credit is extended; a late payment charge of 2% per month or fraction thereof shall be added if payment is not made in accordance with the aforesaid conditions.
(b) In the event that a bidder shall fail to comply with these Conditions of Sale ("Non-Complying Bidder"), then, as to any lot with respect to which such failure to comply occurs, Archives International Auctions may, in its sole discretion, re-offer such lot during the same auction or at an auction at a later time, or by private treaty at such time as Archives International Auctions, in its sole discretion, deems appropriate and the Non-Complying Bidder shall be liable for the deficiency, if any, between the hammer price and the net proceeds of a sale to a subsequent purchaser, whether at auction or by private treaty, as well as for all costs and expenses of both sales, all other charges due thereunder, including commissions with respect to both sales, whether payable to Archives International Auctions or to a third party and all incidental damages. It shall be in Archives International Auctions' sole discretion to determine whether to re-offer the lot theretofore hammered-down to a Non-Complying Bidder at the same auction, or by private treaty in due course, or at a subsequent auction conducted by Archives International Auctions. In no event shall any surplus arising from the sale of a re-offered lot be payable to a Non-Complying Bidder.
(c) A defaulting purchaser shall be deemed to have granted Archives International Auctions a security interest in property in Archives International Auctions possession owned by such purchaser. Archives International Auctions shall have all of the rights afforded a purchase money secured party under the New York or New Jersey Uniform Commercial Code with respect to such property and may apply against such obligations all monies held or received by it for the account of, or due from Archives International Auctions to such purchaser. Archives International Auctions is authorized to file a Financing Statement in order to perfect its rights as a secured party.
(d) If Archives International Auctions takes any legal steps to secure payment of a delinquent account, the defaulting purchaser shall be liable for all legal and other expenses incurred by Archives International Auctions to secure such payment, including but not limited to a reasonable allowance for attorneys' fees. For purposes of this paragraph, the term legal steps shall be deemed to include any and all consultation by Archives International Auctions with its attorneys with respect to all matters arising out of a delinquent account.
(e) Unless otherwise acceptable to Archives International Auctions, payment is to be made only in the form of cash, bank check or certified check, credit card (Visa or MasterCard only) or a bank wire transfer.

EXHIBITION AND INSPECTION OF LOTS; QUALITY AND AUTHENTICITY

7. (a) On Premises Inspection only. Ample opportunity is given for on premises inspection prior to the auction date, and, upon written request and at Archives International Auctions discretion.
(b) Each lot is sold as genuine and correctly described, based on individual description as modified by any specific notations in this Catalogue.
(c) Quality. Any lot which a purchaser considers to be incorrectly described may be returned to Archives International Auctions within two weeks of its receipt by such purchaser ("Returning Purchaser"), provided, however, that the same is received by Archives International Auctions within four weeks of the date of the auction; however, Archives International Auctions may, in its discretion, refuse acceptance of such returned lot. If an opinion of a generally recognized authority is desired, the period of time within which a lot must be received by Archives International Auctions will be extended in accordance with Condition of Sale 8. In the event that a dispute cannot be resolved by reference to a generally recognized authority, and Archives International Auctions thereupon undertakes to re-offer the lot with a description identical to the description disputed, the Returning Purchaser shall be liable for the deficiency, if any, between the proceeds of the sale to the Returning Purchaser and the proceeds of a sale to a subsequent purchaser, as well as for all costs and expenses of the re-sale, including commission, and all incidental damages. Any lot, the description of which is disputed, must be returned in-
