## KEY TO CATALOGING

### DEFINITIONS

**SPECIMEN:** An archival printing sample of a finished item, such as a stock certificate, banknote or stamp that is printed usually with "000000" serial numbers and may have "Specimen" overprinted on it and be punch canceled to invalidate it and prevent its use surreptitiously. Specimens were kept for a number of reasons, though usually as samples to give out to prospective customers to give them an idea of the type and quality of the work that the printing company was capable of doing. Usually specimens were printed in limited amounts at the beginning of a printing run to evaluate the quality of the printing work and color combinations at an early stage, rather than have an entire production run rejected due to some minor flaw that was not found until after the printing was completed. A specimen is similar to the final product, printed on the same paper and in the same color.

**COLOR TRIAL SPECIMENS:** Sometimes specimens would be printed in numerous color combinations not used on the final note for evaluation before a final printing. These are usually extremely rare.

**PROOF:** An initial pull or impression from a plate or die for evaluation of text, vignette, engraving, and esthetic appeal and to check for any errors or faults. These were usually printed on india paper mounted on card or printed on some form of paper or light card. The amount of proofs printed is usually extremely small and usually number only a handful. Proofs allowed the printing company to evaluate the quality of the item being printed without having to go to the expense of making final plates and finding out small errors that could have been repaired at an earlier stage. Usually, proofs are single impressions of banknotes, stamps, vignettes, etc. Anything that was made into a plate, such as a sheet of 100 stamps could have had proof impressions taken from it. These would be called plate proofs (for multiple images) versus die proofs (usually of a single or small amount of images).

**COLOR TRIAL PROOF:** A proof printed in a color other than the issued color.

**ESSAY SPECIMEN or PROOF:** A proposed design that was not used but may be similar or even totally different to a final approved design. An artist, engraver or company may have proposed a number of different designs and color combinations to a client for his approval. If a design is rejected and never used, it could be called an essay.

**PRODUCTION MATERIAL:** Material found in files used in the production of security printed documents, banknotes, stamps and such. It may include correspondence, photographs, artwork, and signature samples, samples of other printed items that are marked up with corrections as well as proofs, specimens, essays, models, mockups and issued final items.

**MODEL:** A proposed or final design that may include original artwork, pieces of design elements such as borders, titles, vignettes, corporate seals, undertints and possibly portions of photographs. Before an engraved item was made, a design had to be decided on. This portion of the design process allowed for the artistic skills of the engraver or design department to be exhibited. Before the "digital age", banknote engravers and designers would cut up portions of other engraved items and re-apply them in a different form or design to come up with a unique new stamp, banknote or certificate. Often, all new engravings or "vignettes" of people or scenes would be engraved first to include in the new "work of art", and other times, portions of different completed items would be "borrowed" to use on a newly designed item. All models are rare and almost all of them are unique.

Description Abbreviations I/C = Issued and Cancelled; I/U = Issued and Uncancelled; POC's = Punched out cancels

CZECHOSLOVAKIA

- 92 Czechoslovakia, Narodni Banka Ceskoslovenska, 1926 I/U Gold Dollar Stock Certificate Rarity Czechoslovakia, April, 1, 1926, 100 Gold U.S. Dollars, Series A, I/U Stock Certificate, Dark blue on light beige-gray underprint, Warrior woman at left on white horse slaying dragon with a smaller woman in the background, S/N 14286, 4 talons or dividend coupons are included but not attached. The artwork appears similar to a Mucha style but it is not signed. The National Bank of Czechoslovakia (Czech: Národní Banka \_eskoslovenská) was established in 1926 and was the central bank of Czechoslovakia between 1926 and 1939. In the following 3 years, the country experienced a period of economic prosperity, including in terms of manufacturing activity, currency strength, and general economic growth. In the aftermath of the Wall Street Crash of 1929, the Czechoslovakian economy entered depression. The National Bank originally followed a deflationary monetary policy, which exacerbated the problems. The National bank also eliminated the ability to convert currency into gold and competitive devaluation. In March 1939, Adolf Hitler fostered the secession of Slovakia and took over the Protectorate of Bohemia and Moravia, and the National Bank was consequently divided into two separate entities respectively in Bratislava and Prague. More than 45 metric tons of the National Bank's gold reserves was seized by Deutsche Reichsbank. Historic and founding stock certificate from this important bank. A set of four intaglio printed proof denomination counter vignettes, printed on india paper in black or green, as used on the 1932-1934 issues of the National Bank of Persia. Established in 1927 under German management, and with Kurt Lindenblatt as its governor, it was to be the vehicle for Germany's economic expansion into Persia. By World War II, Reza Shah's Iran and Hitler's Germany had developed close commercial ties. But this was a relationship that came to an abrupt end with the Allied invasion of Iran in 1941. Thereafter, the Bank came to be known by its Persian name – the Bank Melli-e Iran – which became the country's Central Bank until 1960 and continues as a commercial bank to this day. The first piece included is a "10" as used on the 10 Rials, AH1311, P-19, die # 69213; the second is a "50" as used on the 50 Rials, AH1311, P-21, die # 69386; third is a "500" as used on the 500 Rials, AH1311, P-23, die # 69366; and the fourth is a pair of different "1000"s as used on the 1000 Rials (different designs in the different corners), AH1313, P-30, die # 71431. Each of the numeral figures on the four pieces is enclosed in a unique and elaborate guilloche, with "National Bank of Persia" indicated. ABNC. - 290 Civil War 1863, Muster Roll For Company "D", Battalion of U.S. Engineer Troops Listing Medal Of Honor Winner George L. Gillespie** Muster Roll of Company D of the Battalion of U.S. Engineer Troops, from the 30th day of June, 1863 to the 31st day of August, 1863. Includes handwritten details such as the men discharged, deserted, as well as a full account men present and their pay roll. Also listed is a record of events "which may be necessary or useful for future reference at the war department, or for present information." On August 1st, the company engaged in constructing bridges over the Rappahannock River. Fine condition with toning and some splitting at center fold lines, still in great condition for its age. The Captain of the Battalion was Charles N. Turnbull and his First Lieutenant was George L. Gillespie, who would go on to receive the Medal of Honor. Gillespie exposed himself to great danger by voluntarily making his way through the enemy's lines to communicate with General Sheridan. While rendering this service he was captured, escaped, and again came in contact with the enemy. He was ordered to surrender, but escaped once more by dashing away under fire. He was later Sheridan's Chief Engineer in the Army of the Shenandoah and the Military Division of the Gulf, and is buried at West Point. The Battalion of U.S. Engineer Troops fought at Antietam, bridged the Rappahannock River six times at Fredericksburg (mentioned in the piece), breached fortifications at Petersburg and was present at the surrender of General Lee at Appomattox. Following the cessation of hostilities, on 1 July 1866, The United States Engineer Battalion was redesignated the "1st Battalion of Engineers". Interesting piece of Civil War history, and unique for its mention of George L. Gillespie before his heroic actions..... Est. \$800-1250

- 291 New York County Substitute and Relief Committee, 1863, Civil War Substitute Document Signed by William "Boss" Tweed** New York, September 11th, 1863..... Issued New York County Substitute and Relief Committee form, S/N 26, regarding Leonard Braudner's Substitute for military duty in the Civil War, due to Braudner's status as an Active Member of the Fire Department. The signature of the Substitute is in the second paragraph and on the back, which also shows that he was paid \$300. Signatures at bottom right include New York City Mayor, George Opdyke and William "Boss" Tweed as Supervisor. Black text with some staining from glue at top, otherwise in VF condition. William Magear Tweed (April 3, 1823 - April 12, 1878), widely known as "Boss" Tweed, was an American politician most notable for being the "boss" of Tammany Hall, the Democratic Party political machine that played a major role in the politics of 19th-century New York City and State. At the height of his influence, Tweed was the third-largest landowner in New York City, a director of the Erie Railroad, a director of the Tenth National Bank, a director of the New-York Printing Company, the proprietor of the Metropolitan Hotel, a significant stockholder in iron mines and gas companies, a board member of the Harlem Gas Light Company, a board member of the Third Avenue Railway Company, a board member of the Brooklyn Bridge Company, and the president of the Guardian Savings Bank. Tweed was elected to the United States House of Representatives in 1852 and the New York County Board of Supervisors in 1858, the year that he became the head of the Tammany Hall political machine. He was also elected to the New York State Senate in 1867, but Tweed's greatest influence came from being an appointed member of a number of boards and commissions, his control over political patronage in New York City through Tammany, and his ability to ensure the loyalty of voters through jobs he could create and dispense on city-related projects. Tweed was convicted for stealing an amount estimated by an aldermen's committee in 1877 at between \$25 million and \$45 million from New York City taxpayers from political corruption, but later estimates ranged as high as \$200 million. Unable to make bail, he escaped from jail once but was returned to custody. He died in the Ludlow Street Jail. .... Est. \$100-200

**293 Historic Civil War Muster Roll For Company "L" in the 6th Pennsylvania Cavalry Regiment, Dating from June 30 to August 31, 1863** Pennsylvania, Delaware, Virginia and Maryland. 30th Day of June to the 31st Day of August, 1863. Muster Roll of Captain Charles L. Leiper's Company L of the Sixth Regiment of the Pennsylvania Cavalry, June, 1863, "when last paid," to the 31st day of August, 1863. Includes handwritten details such as the names, ranks, and pay roll of the men, as well as the names of those who deserted. The Battle of Gettysburg began on July 1st and ended on July 3rd. Notes on the muster begin with the movement of the troops on July 1st when they are at camp in Mechanics town, MD., mentions that on July 2nd they marched to Emmitsburg, MD and on July 3rd, scouted around Gettysburg, PA, with reports of their movements on literally a daily basis describing skirmishes with the enemy and other events. Highlights include details written in the "Notes" section of the Muster Roll, for example the case of Hugh Brannan, who was "missing in action at Beverly Ford, Va June 9th 63." Also includes a handwritten record of events "which may be necessary or useful for future reference at the war department, or for present information." This includes the movements and camp locations of the Sixth Regiment, and mentions locations such as Mechanics town, Maryland, and Manassas Gap, Virginia where on the 22nd of July the Company was "skirmishing with [the] enemy." On August 1st, the Company crossed the Rappahannock, "met the enemy, took part in the Battle of Brandy Station in which one man of Co. "L" was wounded." Fine but fragile condition with pieces missing, very fragile fold lines, splitting, and archival repairs. The 6th Pennsylvania Cavalry was a Union cavalry regiment during the American Civil War. They were known for their early use of 9-foot lances, and were called "Rush's Lancers." The regiment was raised during August and September 1861 from companies raised in Philadelphia, Montgomery and Berks counties by Richard H. Rush, who had been authorized to do so by Governor Curtin. Rush was appointed colonel of the regiment, with John H. M'Arthur as lieutenant colonel and C. Ross Smith and Robert Morris, Jr., as majors. At the suggestion of Maj. Gen. George B. McClellan, the men were armed with Austrian lances. After several weeks of training in Philadelphia, the regiment was transferred to Washington, D.C., where it was assigned to the Cavalry Division of the Army of the Potomac. In the May 1863, the regiment was rearmed with Sharps carbines and assigned to the Reserve Brigade of the 1st Cavalry Division. It fought in the Gettysburg Campaign and Mine Run Campaign. During the Battle of Brandy Station in June 1863, the regiment (led by Major Robert Morris, Jr.) unsuccessfully charged the guns at St. James Church, suffering the greatest casualties of any regiment in the battle. Several Confederates later described the 6th's charge as the most "brilliant and glorious" cavalry charge of the war. (In many Civil War battles, cavalrymen typically dismounted once they reached an engagement and fought essentially as infantry. But in this battle, the surprise and chaos led to a mostly mounted fight.) Following the Appomattox Campaign, it was ordered to Washington, D.C., where it was consolidated with the 1st Pennsylvania Cavalry and 17th Pennsylvania Cavalry to form the 2nd Pennsylvania Provisional Cavalry. The combined regiment was sent to Louisville, Kentucky, where it was mustered out in August 1865. Fascinating and historic piece of Civil War history related to an interesting and notable Cavalry Regiment and written during and after their participation in the Battle of Gettysburg. .... - 295 Civil War General Benjamin Butler Autograph on 1866 National Asylum for Disabled Volunteer Soldiers Invoice.** Richmond....., VA. July 5, 1866. General Benjamin Butler signed payment receipt for H. Rives Pollard from the National Asylum for the Disabled Volunteer Soldiers organization. The invoice is attached. Established by Congress in 1865 and ultimately encompassing a network of eleven branches across the country, the National Home for Disabled Volunteer Soldiers (NHDVS) represents a policy of veterans' benefits that directly influenced the development of a national system for veteran health care in the United States. XF condition. Benjamin Franklin Butler (November 5, 1818 – January 11, 1893) was an American major general of the Union Army, politician, lawyer, and businessman from Massachusetts. Born in New Hampshire and raised in Lowell, Massachusetts, Butler was a political major general of the Union Army during the American Civil War and had a leadership role in the impeachment of U.S. President Andrew Johnson. He was a colorful and often controversial figure on the national stage and on the Massachusetts political scene, serving five terms in the U.S. House of Representatives and running several campaigns for governor before his election to that office in 1882. Butler directed the first Union expedition to Ship Island, off the Mississippi Gulf Coast, in December 1861, and in May 1862 commanded the force that conducted the capture of New Orleans after its occupation by the Navy following the Battle of Forts Jackson and St. Philip. In the administration of that city he showed great firmness and political subtlety. He devised a plan for relief of the poor, demanded oaths of allegiance from anyone who sought any privilege from government, and confiscated weapons. However, Butler's subtlety seemed to fail him as the military governor of New Orleans when it came to dealing with its Jewish population, about which the general, referring to local smugglers, infamously wrote, in October 1862: "They are Jews who betrayed their Savior, & also have betrayed us." Butler was considered "notorious for his anti-Semitism." ..... Est. **\$100-200**

## CONDITIONS OF SALE

### THE PLACING OF A BID SHALL CONSTITUTE ACCEPTANCE OF THESE CONDITIONS OF SALE

#### BIDDING

1. Unless announced otherwise by the auctioneer, all bids are per lot, as numbered in the printed Catalogue. Archives International Auctions, as agent for the consignor or vendor, shall regulate the bidding and shall determine the manner in which the bidding shall be conducted. Archives International Auctions reserves the right to withdraw any lot prior to sale (without liability to any potential purchaser or agent), to re-offer any withdrawn lot, to divide a lot or to group two or more lots belonging to the same consignor or vendor, and to refuse any bid believed not made in good faith. Estimates of sales prices contained in the printed Catalogue reflect the best judgment of Archives International Auctions and are not minimum or upset prices.
2. (a) Bids shall be made in the steps set forth in paragraph 12.  
(b) The highest bid acknowledged by the auctioneer shall prevail. Should a dispute arise between bidders (including a dispute between a floor bidder and the auctioneer acting on behalf of a mail bidder, consignor or vendor), the auctioneer alone shall determine who the successful bidder is and whether to reoffer the lot in dispute. Should a dispute arise after the sale, the auctioneer's sale records shall be conclusive. On all lots sold, a commission of 20%\* on the hammer price is payable by the buyer to the auctioneer (\*See exceptions on next page for bids on internet).
3. (a) The auctioneer reserves the right to bid on behalf of clients (and consignors or vendors) but shall not be liable for errors and omissions in executing instructions to bid, however received, and whether such errors or omissions be those of the bidder or agent or those of the auctioneer.  
(b) Lots may be offered subject to a reserve price. The auctioneer may implement such reserve price by bidding on behalf of the consignor vendor.  
(c) It may also be assumed that all consignors have been advanced monies against the sale of their consigned material and Archives International Auctions therefore has a security interest in the consigned material over and above the normal auction commission.  
(d) Purchases made by a consignor or vendor or his agent on his own lots shall be considered as a sale subject to commissions and sales tax as applicable.  
(e) Agents are responsible for the payment of the purchase price for all purchases made on behalf of their clients, unless other arrangements with the auctioneer have been confirmed in writing prior to the auction.

#### PAYMENT FOR PURCHASES

4. Payment for lots, including those on which opinions are desired (Condition of Sale 8), shall be as follows:
  - (a) Floor Bidders. Payment of the purchase price, or such part thereof as Archives International Auctions shall require, shall be made by the purchaser in cash or bank or certified check or in such other manner as Archives International Auctions may determine. The name and address of the purchaser of each lot shall be given to the auctioneer immediately following the sale of such lot.
  - (b) Mail Bidders. A successful mail bidder will be notified of lots purchased. Before Archives International Auctions will send such lots, payment in full must be received by Archives International Auctions within three (3) business days of receipt of the aforesaid notification by the mail bidder. However, a purchaser known to Archives International Auctions at its option may have purchases delivered or forwarded for immediate payment (by a dollar draft on a U.S. bank in the case of overseas purchasers). Mailed delivery will be to the address on the bid sheet and proof by Archives International Auctions of receipt of a sending at the advised address shall constitute delivery. All charges for handling, delivery and insurance obtained by Archives International Auctions on behalf of the purchaser shall be added to the purchase price; a minimum charge of \$10.00 will be made. Risk of loss in transit shall be on the purchaser.
5. Title shall not pass to the purchaser until full payment has been received by Archives International Auctions as agents for the consignor or vendor.

6. (a) Purchasers agree to pay for lots as specified in Condition of Sale 4 (or as the same may be modified by Condition of Sale 8), and no credit is extended; a late payment charge of 2% per month or fraction thereof shall be added if payment is not made in accordance with the aforesaid conditions.  
(b) In the event that a bidder shall fail to comply with these Conditions of Sale ("Non-Complying Bidder"), then, as to any lot with respect to which such failure to comply occurs, Archives International Auctions may, in its sole discretion, re-offer such lot during the same auction or at an auction at a later time, or by private treaty at such time as Archives International Auctions, in its sole discretion, deems appropriate and the Non-Complying Bidder shall be liable for the deficiency, if any, between the hammer price and the net proceeds of a sale to a subsequent purchaser, whether at auction or by private treaty, as well as for all costs and expenses of both sales, all other charges due thereunder, including commissions with respect to both sales, whether payable to Archives International Auctions or to a third party and all incidental damages. It shall be in Archives International Auctions' sole discretion to determine whether to re-offer the lot theretofore hammered-down to a Non-Complying Bidder at the same auction, or by private treaty in due course, or at a subsequent auction conducted by Archives International Auctions. In no event shall any surplus arising from the sale of a re-offered lot be payable to a Non-Complying Bidder.  
(c) A defaulting purchaser shall be deemed to have granted Archives International Auctions a security interest in property in Archives International Auctions possession owned by such purchaser. Archives International Auctions shall have all of the rights afforded a purchase money secured party under the New York or New Jersey Uniform Commercial Code with respect to such property and may apply against such obligations all monies held or received by it for the account of, or due from Archives International Auctions to such purchaser. Archives International Auctions is authorized to file a Financing Statement in order to perfect its rights as a secured party.  
(d) If Archives International Auctions takes any legal steps to secure payment of a delinquent account, the defaulting purchaser shall be liable for all legal and other expenses incurred by Archives International Auctions to secure such payment, including but not limited to a reasonable allowance for attorneys' fees. For purposes of this paragraph, the term legal steps shall be deemed to include any and all consultation by Archives International Auctions with its attorneys with respect to all matters arising out of a delinquent account.  
(e) Unless otherwise acceptable to Archives International Auctions, payment is to be made only in the form of cash, bank check or certified check, credit card (Visa or MasterCard only) or a bank wire transfer.

#### EXHIBITION AND INSPECTION OF LOTS; QUALITY AND AUTHENTICITY

7. (a) On Premises Inspection only. Ample opportunity is given for on premises inspection prior to the auction date, and, upon written request and at Archives International Auctions discretion.  
(b) Each lot is sold as genuine and correctly described, based on individual description as modified by any specific notations in this Catalogue.  
(c) Quality. Any lot which a purchaser considers to be incorrectly described may be returned to Archives International Auctions within two weeks of its receipt by such purchaser ("Returning Purchaser"), provided, however, that the same is received by Archives International Auctions within four weeks of the date of the auction; however, Archives International Auctions may, in its discretion, refuse acceptance of such returned lot. If an opinion of a generally recognized authority is desired, the period of time within which a lot must be received by Archives International Auctions will be extended in accordance with Condition of Sale 8. In the event that a dispute cannot be resolved by reference to a generally recognized authority, and Archives International Auctions thereupon undertakes to re-offer the lot with a description identical to the description disputed, the Returning Purchaser shall be liable for the deficiency, if any, between the proceeds of the sale to the Returning Purchaser and the proceeds of a sale to a subsequent purchaser, as well as for all costs and expenses of the re-sale, including commission, and all incidental damages. Any lot, the description of which is disputed, must be returned in-
