KEY TO CATALOGING

DEFINITIONS

SPECIMEN: An archival printing sample of a finished item, such as a stock certificate, banknote or stamp that is printed usually with "000000" serial numbers and may have "Specimen" overprinted on it and be punch canceled to invalidate it and prevent its use surreptitiously. Specimens were kept for a number of reasons, though usually as samples to give out to prospective customers to give them an idea of the type and quality of the work that the printing company was capable of doing. Usually specimens were printed in limited amounts at the beginning of a printing run to evaluate the quality of the printing work and color combinations at an early stage, rather than have an entire production run rejected due to some minor flaw that was not found until after the printing was completed. A specimen is similar to the final product, printed on the same paper and in the same color.

COLOR TRIAL SPECIMENS: Sometimes specimens would be printed in numerous color combinations not used on the final note for evaluation before a final printing. These are usually extremely rare.

PROOF: An initial pull or impression from a plate or die for evaluation of text, vignette, engraving, and esthetic appeal and to check for any errors or faults. These were usually printed on india paper mounted on card or printed on some form of paper or light card. The amount of proofs printed is usually extremely small and usually number only a handful. Proofs allowed the printing company to evaluate the quality of the item being printed without having to go to the expense of making final plates and finding out small errors that could have been repaired at an earlier stage. Usually, proofs are single impressions of banknotes, stamps, vignettes, etc. Anything that was made into a plate, such as a sheet of 100 stamps could have had proof impressions taken from it. These would be called plate proofs (for multiple images) versus die proofs (usually of a single or small amount of images).

COLOR TRIAL PROOF: A proof printed in a color other than the issued color.

ESSAY SPECIMEN or PROOF: A proposed design that was not used but may be similar or even totally different to a final approved design. An artist, engraver or company may have proposed a number of different designs and color combinations to a client for his approval. If a design is rejected and never used, it could be called an essay.

PRODUCTION MATERIAL: Material found in files used in the production of security printed documents, banknotes, stamps and such. It may include correspondence, photographs, artwork, and signature samples, samples of other printed items that are marked up with corrections as well as proofs, specimens, essays, models, mockups and issued final items.

MODEL: A proposed or final design that may include original artwork, pieces of design elements such as borders, titles, vignettes, corporate seals, undertints and possibly portions of photographs. Before an engraved item was made, a design had to be decided on. This portion of the design process allowed for the artistic skills of the engraver or design department to be exhibited. Before the "digital age", banknote engravers and designers would cut up portions of other engraved items and re-apply them in a different form or design to come up with a unique new stamp, banknote or certificate. Often, all new engravings or "vignettes" of people or scenes would be engraved first to include in the new "work of art", and other times, portions of different completed items would be "borrowed" to use on a newly designed item. All models are rare and almost all of them are unique.

155 CT. Connecticut, Pay-Table Office, 1781 Tax Warrant Trio Signed by Jedediah Huntington, Fenn Wadsworth, and William Moseley Connecticut, 1782. Lot of 3 1/C tax receipts issued to Ralph Pomeroy Esq. by the Pay-Table Office in Hartford. Black text with black handwriting, signed by Committee members Fenn Wadsworth and William Moseley, with Jedediah Huntington's signature across. The Pay-Table (also known as the Committee of Four) managed Connecticut's military finances during the ongoing conflict. Financing the Revolution laid a heavy burden upon each colony, especially those which balked at levying taxes. In order to meet immediate needs, such as wages, the colonies relied upon wealthy revolutionists, foreign loans, and taxes and gifts from abroad. Issuing notes, like these, was only a temporary solution. Fenn Wadsworth (1750/51-1785) was a brigade major to General James Wadsworth from 1776 to 1779. He fought in many battles during that time, but his failing health forced him to leave active service. He was involved in Connecticut's early governance, shown by his membership to the Committee of Four in this document. William Moseley (1755-1824) later would serve in the Connecticut state senate. Ralph Pomeroy, who was to receive the payment, was a paymaster in the Continental Army. He remained involved in state politics, acting as State Controller after the war. 160 CT. State of Connecticut, Pay-Table Office, 1785 to 1786, Tax Warrant Pair Signed by Eleazer Wales and Oliver Wolcott, Jr. Connecticut, 1785-86. Lot of 2 1/C Tax Warrants, both Issued to Olive Wolcott. Wolcott, (January 11, 1760 - June 1, 1833), was the second United States Secretary of the Treasury, a judge of the United States Circuit Court for the Second Circuit, and the 24th Governor of Connecticut. He was a member of the Pay-Table Committee for several years, and was a commissioner to settle claims of Connecticut against the United States from 1784 to 1788. In 1796, he was George and Martha Washington's intermediary in getting the Collector of Customs for Portsmouth, New Hampshire, Joseph Whipple, to capture and send an escaped slave, Oney (sometimes Ona) Judge, back to Mount Vernon. He was ultimately unsuccessful. When Wolcott died in 1833 in New York City, he was the last surviving cabinet member of the Washington administration. Note was issued for payment of the Civil List by the pay-table of Connecticut. The Pay-Table (also known as the Committee of Four) managed Connecticut's military finances during the Revolutionary War. Financing the Revolution laid a heavy burden upon each colony, especially those which balked at levying taxes. In order to meet immediate needs, such as wages, the colonies relied upon wealthy revolutionists, foreign loans, and taxes and gifts from abroad. Issuing notes such as these was only a temporary solution. Warrants range from Fine to VF+ condition. (2). Sold "AS IS" no returns accepted. Est. \$180-280

EPHEMERA - TEXAS 1850'S LAND GRANT

338

338 Texas Land Grant, ca. 1850s Signed by Governor Elisha M. Pease Texas, ca. 1850s. Issued Land Grant signed by Texas Governor Elisha M. Pease. Partially printed with very faded handwriting that is difficult to read, Embossed seal at bottom left, the date of ca. 1840s at bottom right appears to have been written over, likely with a date from the 1850s. The writing likely describes and outlines the parameters of the land being granted by the Governor. VG to Fine condition with damage at center fold lines, toning, and staining. Elisha Marshall Pease (January 3, 1812 - August 26, 1883) served as the fifth and 13th governor of Texas. A native of Enfield, Connecticut, Pease moved to Mexican Texas in 1835. He soon became active in the Texas independence movement and after the Texas Revolution began, Pease became the secretary of the provisional government. Following the annexation of Texas to the United States, Pease was elected to the Texas House of Representatives in 1845 and reelected in 1847. In 1849, he ran for the Texas Senate from District 11 (Brazoria and Galveston counties) but lost to John B. Jones who was sworn in on November 5, 1849. Pease contested the election, was declared the winner, and was sworn in four days later on November 9, 1849. Pease was elected governor in 1853 and 1855. During the American Civil War, Pease sided with the Union but kept ten enslaved people at Pease's Austin plantation in 1860. After the war, he became a leader in the state Republican Party and was appointed as the civilian governor of Texas in 1867 by General Philip H. Sheridan, who was the military head of the Reconstruction government. Interesting piece of Texas history. Est. \$250-375

342 New York. Pinkerton's National Detective Agency, 1887 Operative Report New York, 1887. 3 page typewritten document with Pinkerton's National Detective Agency "We Never Sleep" letterhead, addressed to W. M. Smillie, Esq. who was a Vice President of the American Bank Note Co at the time. This piece is an operative report of the activities of D. S. Ronaldson, in which the detective, Robert N. Pinkerton, describes Ronaldson's movements and actions from 7:20 am to 6:15 pm on Wednesday, February 23rd, 1887. This fascinating piece includes terrific descriptions of Ronaldson's associates and details the various saloons he visited throughout the day. D. S. Ronaldson was most likely the man of the same name who was well-known for his stamp engraving work at the time, making it even more interesting that someone from ABNC was using the famous detective agency to "tail" him. Signed by Robert N. Pinkerton, a probable relative of Allan Pinkerton. Pinkerton, founded as the Pinkerton National Detective Agency, is a private security guard and detective agency established in the United States by Scotsman Allan Pinkerton in 1850 and currently a subsidiary of Securitas AB. Pinkerton became famous when he claimed to have foiled a plot to assassinate president-elect Abraham Lincoln, who later hired Pinkerton agents for his personal security during the Civil War. Pinkerton's agents performed services ranging from security guarding to private military contracting work. The Pinkerton National Detective Agency hired women and minorities from its founding, a practice uncommon at the time. Pinkerton was the largest private law enforcement organization in the world at the height of its power. During the labor strikes of the late 19th, early 20th and early 21st centuries, businessmen hired the Pinkerton Agency to infiltrate unions, supply guards, keep strikers and suspected unionists out of factories, and recruit goon squads to intimidate workers. One such confrontation was the Homestead Strike of 1892, in which Pinkerton agents were called in to reinforce the strikebreaking measures of industrialist Henry Clay Frick, acting on behalf of Andrew Carnegie. The ensuing battle between Pinkerton agents and striking workers led to the deaths of three Pinkerton agents and nine steelworkers. The Pinkertons were also used as guards in coal, iron, and lumber disputes in Illinois, Michigan, New York, Pennsylvania, and West Virginia as well as the Great Railroad Strike of 1877 and the Battle of Blair Mountain in 1921. VF condition for its age, with slight splitting along fold lines, staple at top. Rare and unique piece of Numismatic and Security Printer history. Est. \$500-1000

An investigation into the explosion found the cause to be two failed O-ring seals in the Space Shuttle's right solid rocket booster, which had been manufactured by Morton Thiokol. Test data from as early as 1977 had revealed a potentially catastrophic flaw in the O-rings in cold conditions, but neither Morton Thiokol nor NASA addressed or corrected the issue. 352 Brazil. Manaos Tramways & Light Co. Manaus has one of the world's most exotic locations: 1,500 km up the Amazon River, 3° south of the Equator, in the middle of the world's largest rain forest, inaccessible until 1972 by automobile and never reached by railroad. The city was a product of the 19th century rubber boom: foreigners flocked to the Equatorial region, grew fabulously rich and built a lavish jungle metropolis that compared architecturally and culturally with capitals in Europe. However, in the early 1900s rubber seeds were smuggled to Ceylon and boom turned to bust: exports slipped to one-third, the foreigners fled and the city fell into a half-century of stagnation. In 1965 the Brazilian government made Manaus a free port and today the avenues are lined with skyscrapers and duty-free shops selling Japanese cameras and automobiles. The city's name was written Manaós until 1937..... Est. **\$100-200**

389 Rhode Island. Industrial Bancorp. Transition Certificates to Fleet Financial Group. ->Industrial Nat'l Corp.->Fleet Financial Corp., Specimens (2) Rhode Island. 1970-80s, Transition Certificate pair to Fleet Financial Group. Includes Industrial Bancorp transition certificate to Industrial National Corporation and the certificate for the Industrial National Corporation transition to Fleet Financial Group, Inc. Industrial Bancorp began as a regional bank focused on the Northeast, initially serving the industrial sector with essential financial services that fueled the region's economic growth. As it expanded beyond its industrial roots, the bank rebranded to Industrial National Corporation, a shift that reflected its new breadth of services and growing customer base. In the 1980s, during a period of significant banking deregulation, the company rebranded again as Fleet Financial Corp. The name "Fleet" symbolized agility and ambition, underscoring the bank's goal to extend its reach across state lines and offer a full suite of financial services, from retail and commercial banking to wealth management. Through a series of strategic acquisitions, including the high-profile merger with BankBoston in 1999, Fleet solidified its position as one of the largest financial institutions in the Northeast. This growth trajectory ultimately led to FleetBoston Financials' acquisition by Bank of America in 2004, a pivotal merger that contributed to Bank of America's rise as a leading global bank. Fleet's legacy endures as a critical chapter in the history of American banking, exemplifying the industry's trend toward consolidation and the creation of modern financial giants. Both Uncirculated. 409 Nevada. Andes Silver Mining Co., 1876, I/U Stock Certificate Signed by Civil War General George S. Dodge. Virginia Mining District, Storey County, Nevada. S. Dodge as president. Dodge received a historic silver ingot. "The Ingot Recipient, George Sullivan Dodge was a decorated Civil War veteran, who was brought to the West Coast about 1871 to manage the monstrous new silver company in Eureka, the Eureka Consolidated. The mine was so rich that it rivaled the best of the Comstock, ultimately producing over \$20 million from 1873 to 1906 alone. Dodge's office was in San Francisco, right in the center of the Montgomery Street business section (Bank of California, etc.) where most of the financial ends of the Comstock mining barons took place. Dodge appears to have been appointed the first president of the Company, with the attendant job of getting the mine into profitable and large scale production. He was in charge of hiring the best mining men and putting together a mining crew to rival the best on the Comstock. George Sullivan Dodge (August 3, 1838 - August 24, 1881) was a Union Army officer during the American Civil War, a United States consul to Bremen, Germany and a merchant. Dodge, the son of William P. and Nancy B. Dodge (1806-1853), was born on August 4, 1838, in Irasburg, Orleans County, Vermont, Dodge became a prominent merchant. With the outbreak of hostilities in the American Civil War, Dodge entered a volunteer regiment for the Union Army and was appointed colonel in the army's Quartermaster Department. During the war's later years, he served as Chief Quartermaster of the Army of the James under Major General Benjamin F. Butler and later under Major General Edward O.C. Ord. On January 26, 1865, President Abraham Lincoln nominated Dodge for appointment to the grade of brevet brigadier general to rank from January 15, 1865 for his last-minute resupply of beleaguered Union forces at the Second Battle of Fort Fisher (January 13-15, 1865) and the United States Senate confirmed the appointment on February 14, 1865. He later participated in the Battle of Wilmington (February 11-22, 1865). After the war, Dodge served as the United States Consul in Bremen, Germany (1866-1869)..... Est. \$150-250

446 Kansas. Atchison, Topeka & Santa Fe Railway Co., 1894 to 1977, Group of 10 1/C Stock and Bond Certificates from the Atchison Topeka and Santa Fe Railway Co. The Atchison, Topeka and Santa Fe Railway Company (ATSF), commonly known as the Santa Fe, was one of the most prominent railroads in U.S. history. Founded in 1859, it began operations in 1868, initially aiming to connect Atchison and Topeka, Kansas, with Santa Fe, New Mexico. While the mainline never reached Santa Fe due to the challenging terrain, a branch line was later constructed to serve the city. The ATSF was instrumental in the settlement and economic development of the American West, expanding a vast network that eventually connected Chicago to Los Angeles and extended into Mexico. (10). CONDITIONS OF SALE

THE PLACING OF A BID SHALL CONSTITUTE ACCEPTANCE OF THESE CONDITIONS OF SALE

BIDDING

1. Unless announced otherwise by the auctioneer, all bids are per lot, as numbered in the printed Catalogue. Archives International Auctions, as agent for the consignor or vendor, shall regulate the bidding and shall determine the manner in which the bidding shall be conducted. Archives International Auctions reserves the right to withdraw any lot prior to sale (without liability to any potential purchaser or agent), to re-offer any withdrawn lot, to divide a lot or to group two or more lots belonging to the same consignor or vendor, and to refuse any bid believed not made in good faith. Estimates of sales prices contained in the printed Catalogue reflect the best judgment of Archives International Auctions and are not minimum or upset prices.
2. (a) Bids shall be made in the steps set forth in paragraph 12.
(b) The highest bid acknowledged by the auctioneer shall prevail. Should a dispute arise between bidders (including a dispute between a floor bidder and the auctioneer acting on behalf of a mail bidder, consignor or vendor), the auctioneer alone shall determine who the successful bidder is and whether to reoffer the lot in dispute. Should a dispute arise after the sale, the auctioneer's sale records shall be conclusive. On all lots sold, a commission of 20%* on the hammer price is payable by the buyer to the auctioneer (*See exceptions on next page for bids on internet).
3. (a) The auctioneer reserves the right to bid on behalf of clients (and consignors or vendors) but shall not be liable for errors and omissions in executing instructions to bid, however received, and whether such errors or omissions be those of the bidder or agent or those of the auctioneer.
(b) Lots may be offered subject to a reserve price. The auctioneer may implement such reserve price by bidding on behalf of the consignor vendor.
(c) It may also be assumed that all consignors have been advanced monies against the sale of their consigned material and Archives International Auctions therefore has a security interest in the consigned material over and above the normal auction commission.
(d) Purchases made by a consignor or vendor or his agent on his own lots shall be considered as a sale subject to commissions and sales tax as applicable.
(e) Agents are responsible for the payment of the purchase price for all purchases made on behalf of their clients, unless other arrangements with the auctioneer have been confirmed in writing prior to the auction.

PAYMENT FOR PURCHASES

4. Payment for lots, including those on which opinions are desired (Condition of Sale 8), shall be as follows:
 - (a) Floor Bidders. Payment of the purchase price, or such part thereof as Archives International Auctions shall require, shall be made by the purchaser in cash or bank or certified check or in such other manner as Archives International Auctions may determine. The name and address of the purchaser of each lot shall be given to the auctioneer immediately following the sale of such lot.
 - (b) Mail Bidders. A successful mail bidder will be notified of lots purchased. Before Archives International Auctions will send such lots, payment in full must be received by Archives International Auctions within three (3) business days of receipt of the aforesaid notification by the mail bidder. However, a purchaser known to Archives International Auctions at its option may have purchases delivered or forwarded for immediate payment (by a dollar draft on a U.S. bank in the case of overseas purchasers). Mailed delivery will be to the address on the bid sheet and proof by Archives International Auctions of receipt of a sending at the advised address shall constitute delivery. All charges for handling, delivery and insurance obtained by Archives International Auctions on behalf of the purchaser shall be added to the purchase price; a minimum charge of \$10.00 will be made. Risk of loss in transit shall be on the purchaser.
5. Title shall not pass to the purchaser until full payment has been received by Archives International Auctions as agents for the consignor or vendor.

6. (a) Purchasers agree to pay for lots as specified in Condition of Sale 4 (or as the same may be modified by Condition of Sale 8), and no credit is extended; a late payment charge of 2% per month or fraction thereof shall be added if payment is not made in accordance with the aforesaid conditions.
(b) In the event that a bidder shall fail to comply with these Conditions of Sale ("Non-Complying Bidder"), then, as to any lot with respect to which such failure to comply occurs, Archives International Auctions may, in its sole discretion, re-offer such lot during the same auction or at an auction at a later time, or by private treaty at such time as Archives International Auctions, in its sole discretion, deems appropriate and the Non-Complying Bidder shall be liable for the deficiency, if any, between the hammer price and the net proceeds of a sale to a subsequent purchaser, whether at auction or by private treaty, as well as for all costs and expenses of both sales, all other charges due thereunder, including commissions with respect to both sales, whether payable to Archives International Auctions or to a third party and all incidental damages. It shall be in Archives International Auctions' sole discretion to determine whether to re-offer the lot theretofore hammered-down to a Non-Complying Bidder at the same auction, or by private treaty in due course, or at a subsequent auction conducted by Archives International Auctions. In no event shall any surplus arising from the sale of a re-offered lot be payable to a Non-Complying Bidder.
(c) A defaulting purchaser shall be deemed to have granted Archives International Auctions a security interest in property in Archives International Auctions possession owned by such purchaser. Archives International Auctions shall have all of the rights afforded a purchase money secured party under the New York or New Jersey Uniform Commercial Code with respect to such property and may apply against such obligations all monies held or received by it for the account of, or due from Archives International Auctions to such purchaser. Archives International Auctions is authorized to file a Financing Statement in order to perfect its rights as a secured party.
(d) If Archives International Auctions takes any legal steps to secure payment of a delinquent account, the defaulting purchaser shall be liable for all legal and other expenses incurred by Archives International Auctions to secure such payment, including but not limited to a reasonable allowance for attorneys' fees. For purposes of this paragraph, the term legal steps shall be deemed to include any and all consultation by Archives International Auctions with its attorneys with respect to all matters arising out of a delinquent account.
(e) Unless otherwise acceptable to Archives International Auctions, payment is to be made only in the form of cash, bank check or certified check, credit card (Visa or MasterCard only) or a bank wire transfer.

EXHIBITION AND INSPECTION OF LOTS; QUALITY AND AUTHENTICITY

7. (a) On Premises Inspection only. Ample opportunity is given for on premises inspection prior to the auction date, and, upon written request and at Archives International Auctions discretion.
(b) Each lot is sold as genuine and correctly described, based on individual description as modified by any specific notations in this Catalogue.
(c) Quality. Any lot which a purchaser considers to be incorrectly described may be returned to Archives International Auctions within two weeks of its receipt by such purchaser ("Returning Purchaser"), provided, however, that the same is received by Archives International Auctions within four weeks of the date of the auction; however, Archives International Auctions may, in its discretion, refuse acceptance of such returned lot. If an opinion of a generally recognized authority is desired, the period of time within which a lot must be received by Archives International Auctions will be extended in accordance with Condition of Sale 8. In the event that a dispute cannot be resolved by reference to a generally recognized authority, and Archives International Auctions thereupon undertakes to re-offer the lot with a description identical to the description disputed, the Returning Purchaser shall be liable for the deficiency, if any, between the proceeds of the sale to the Returning Purchaser and the proceeds of a sale to a subsequent purchaser, as well as for all costs and expenses of the re-sale, including commission, and all incidental damages. Any lot, the description of which is disputed, must be returned in-

The following lots are not returnable except at the discretion of Archives International Auctions: (i) lots from purchasers who attended the exhibition of the lots; (ii) lots examined by postal viewers; (iii) lots on account of their appearance, if they are illustrated in this Catalogue; or (iv) lots described as having repairs, defects or faults for any reason.

- (d) Authenticity. Any lot which is declared otherwise than genuine by a generally recognized authority is returnable, provided such lot is received by Archives International Auctions within four weeks of the date of the auction. Proof that a generally recognized authority declines to express an opinion is normally grounds for the return of a lot.
- (e) Expenses incurred a purchaser in the submission and the return of a lot under Conditions of Sale 7 are not subject to refund.

SALES TAX

8. Unless presentation of satisfactory proof that it is exempted by law, a purchaser shall pay to Archives International Auctions New Jersey or New York State and local sales taxes, or any compensating use taxes of any other State claiming jurisdiction. A purchaser shall indemnify Archives International Auctions and hold it harmless of and from any claims of any jurisdiction for sales taxes relating to the purchase of articles at the auction, whenever the same may arise.
